WHO USES CLARITY?

TECHNOLOGY PERSONNEL:

- Target spending in areas that need it most
- Write more effective technology plans
- Assess progress in initiatives and programs
- Get the data you need to apply for, and maintain, grants and funding

PROFESSIONAL DEVELOPMENT PERSONNEL:

- Target PD to areas of greatest need
- Write more effective professional development plans
- Measure progress in skill acquisition
- Get the data you need to apply for, and maintain, grants and funding

DISTRICT AND SCHOOL LEADERSHIP:

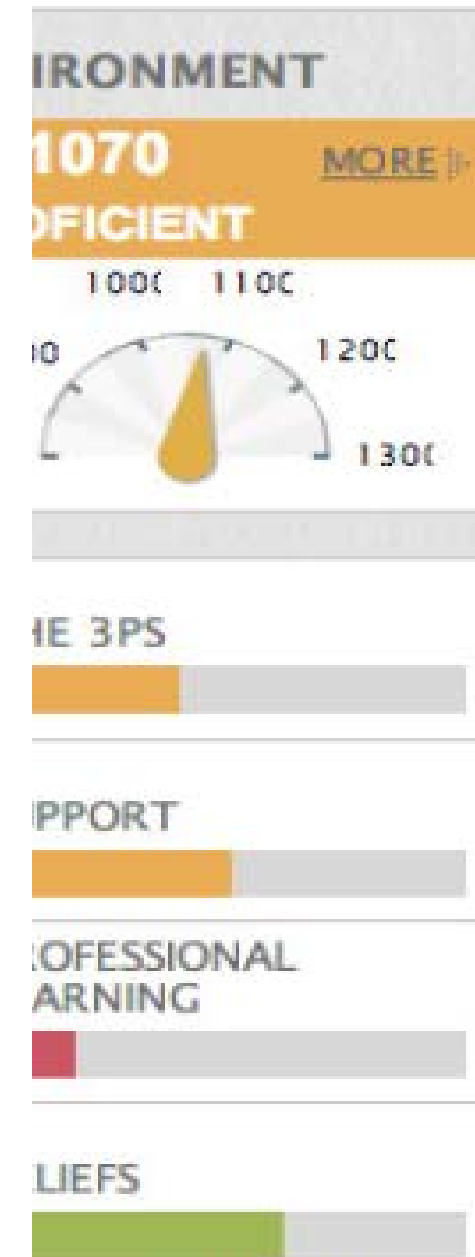

- Make a compelling case with stakeholders
- Shift from intuition-based to data-driven decisions
- Get beyond discussions to take action
- Assess progress for stakeholders

SERVICE AGENCY LEADERS:

- Quickly identify key technology and professional development services
- Save money by offering shared services across the region
- Assess impact by measuring the results of service agency programs
- Improve regional student achievement gains

EDTrends

Presents data in a friendly interface that makes analyzing information a snap for parents, taxpayers and lawmakers.

EDTrends

Uses data from schools collected
by the state of Idaho.

EDTrends

Provides a link between demographics, academic achievement/growth and funding.

How well does my school district...

teach my child to read?

teach my child math?

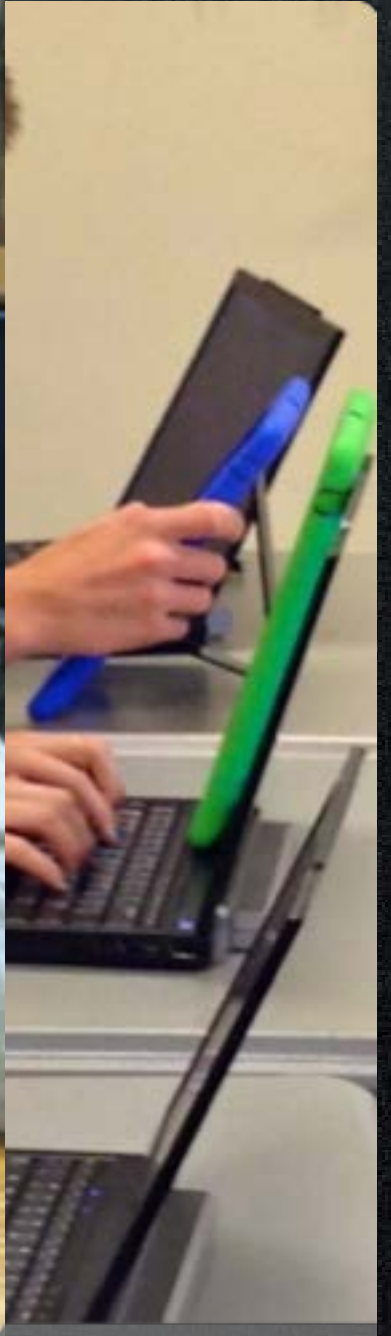

keep my child on track?

keep my child safe?

prepare my child to "Go On" to college?

go beyond the basics?

attain and retain good staff?
