

STATEMENT OF PURPOSE

RS21907

The purpose of this legislation is to clarify who may serve as commissioners and clarify the terms of members of the Grape Growers and Wine Commission. Previously, out-of-state wine producers could not serve on the commission, even though they were actively engaged in wine production in Idaho. Terms of commission members were varied by the number of years. This change makes all terms for a period of three (3) years. It is felt that the original language was to establish the commission and not have all the terms expire at the same time.

FISCAL NOTE

There is no fiscal impact to the general fund.
