

STATEMENT OF PURPOSE

RS21929

Provides a supplemental appropriation to the Lava Hot Springs Foundation in the amount of \$140,000 from dedicated user fees. This bill provides funding to purchase an advanced disinfection system and in-pool toys for the new kiddie pool being built at the Olympic swimming complex. Funding for the ultraviolet light disinfection system and pool toys were diverted from the original \$1.4 million project approved last session to pay for a sprinkler system required by the State Fire Marshal. The pool is equipped with standard filtration and disinfection systems as required by health code. However, the \$25,000 ultraviolet light disinfection system will provide additional protection from parasitic outbreaks such as cryptosporidium that are becoming more common throughout the swimming pool industry. Wading pool toys include a hydro slide, spin brella, spinning tray, vortex cascade, mushroom maze, water flower, geyserino, and deck jets.
