

STATEMENT OF PURPOSE

RS21990

This legislation would amend Idaho Code Section 67-5342 to permit the State to settle employment related claims made by classified and exempt employees in exchange for a release of those claims and upon approval of the Board of Examiners. Any such settlements would be a matter of public record, reported to the Legislature at its next regular session and the subject of a request for a supplemental appropriation.

FISCAL NOTE

The intent of the legislation is to save the General Fund money by providing the State better risk management tools.
