

STATEMENT OF PURPOSE

RS22161

To continue to allow for a mediation process in the event the parties are not able to come to agreement but to clarify that any such mediation be completed no later than June 10 of each year. To provide for a negotiations process between school personnel while at the same time providing clarification and detail to the process necessary to allow districts to have finality to costs prior to the conclusion of the annual budgeting process, allowing for the orderly operation of district business.

In an effort to collect good data on the effectiveness of the imposition of a last best offer, a one year sunset clause is included.

FISCAL NOTE

No fiscal impact to the state while providing financial certainty to individual districts with regard to the largest portion of its budget, in a time frame necessary for the annual budgeting process. Idaho School Boards Association Idaho Association of School Administrators
