

STATEMENT OF PURPOSE

RS22240

Reductions in state funding for salary-based apportionment during the FY10-FY12 period caused school districts to reduce the number of certificated instructional positions, reduce the number of contract days, or a combination of the two. This legislation directs that the additional 1.67% in salary-based apportionment funds that will be distributed to school districts as a result of the removal of the "5th factor" shift in salary-based apportionment be utilized in FY14 either to increase the number of certificated instructional positions or number of contract days, as compared to FY13, or a combination of the two.

FISCAL NOTE

No fiscal impact.
