

## STATEMENT OF PURPOSE

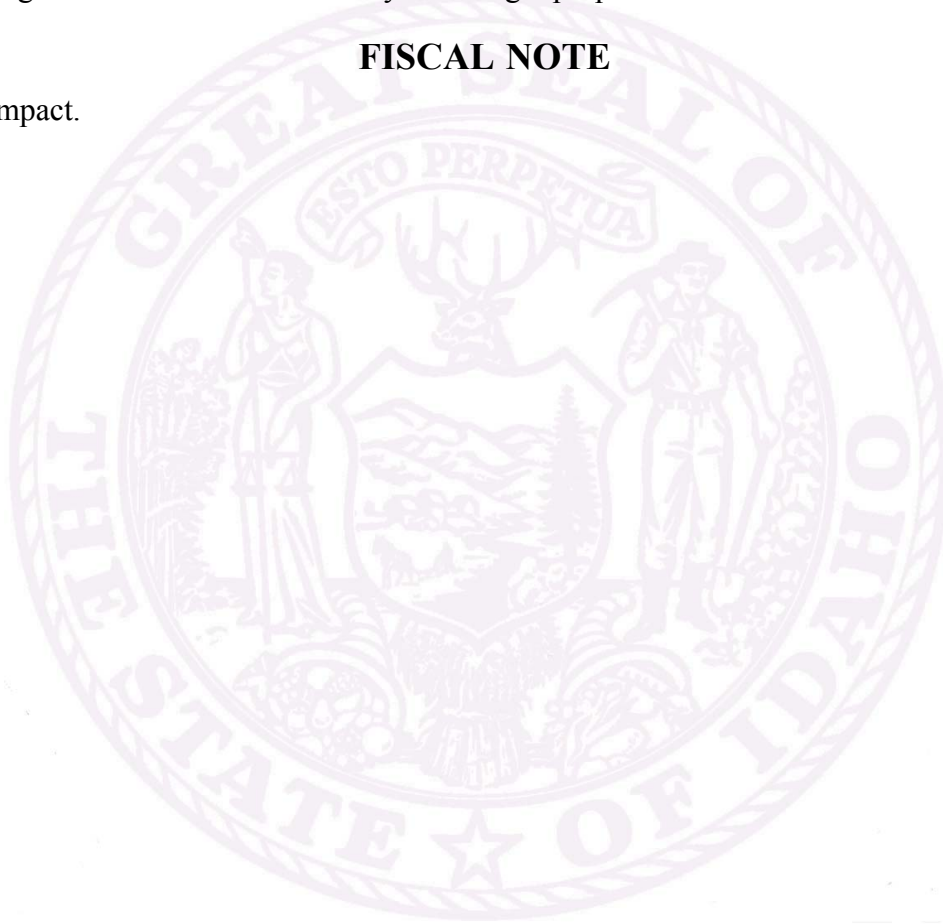

### RS22318

Reductions in state funding for salary-based apportionment during the FY10-FY12 period caused school districts to reduce the number of certificated instructional positions, reduce the number of contract days, or a combination of the two.

This legislation directs that the additional 1.67% in salary-based apportionment funds that will be distributed to school districts as a result of the removal of the "5th factor" shift in salary-based apportionment be utilized in FY14 to undo cuts that school districts have made since FY11 in the number of certificated instructional positions per pupil, or the number of regular contract days, prior to using these restored funds for any other legal purpose.

### FISCAL NOTE

No fiscal impact.
