

## STATEMENT OF PURPOSE

### RS22195

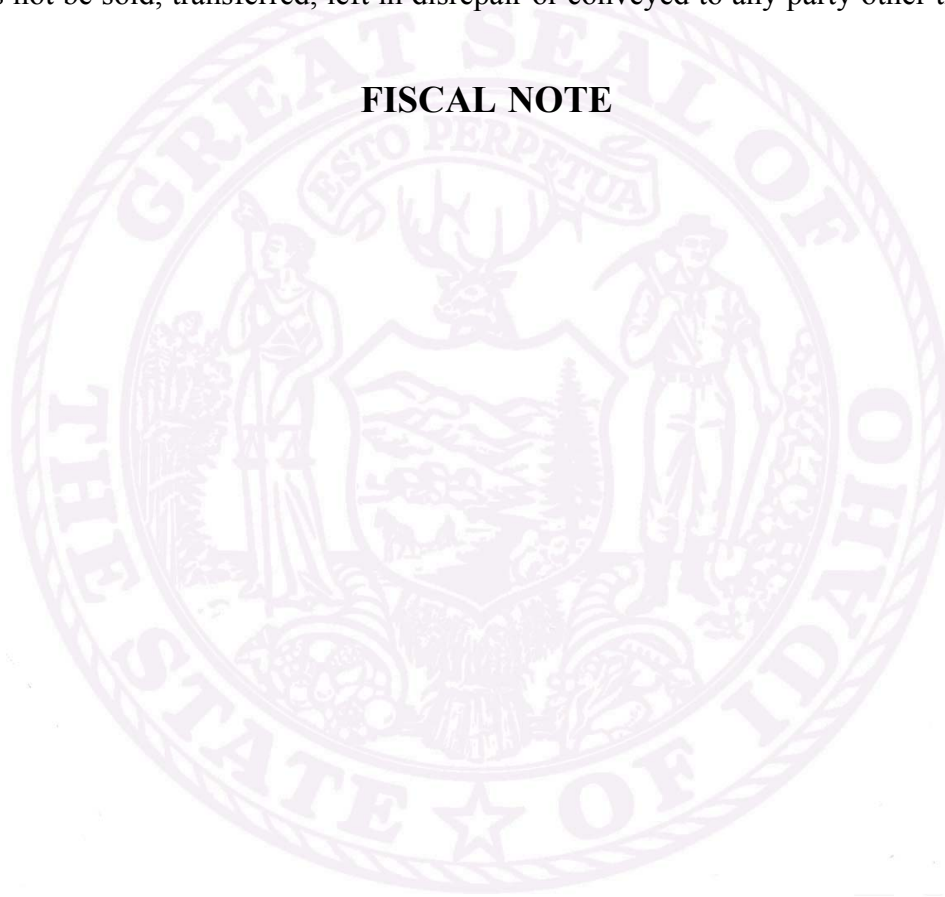

This resolution lays out the case for the State of Idaho to ask the Federal Government to cede title of the federally controlled public lands within the boundaries of the state to the State of Idaho.

It demands that because of the breach of promise to the state that the Federal Government imminently transfer title of the federally controlled public lands in Idaho to the State of Idaho.

It acknowledges that upon transfer of the public lands to the State of Idaho, we intend to affirmatively cede to the Federal Government all national parks, designated wilderness, national monuments, Department of Defense Lands and Department of Energy Lands on the condition that these lands not be sold, transferred, left in disrepair or conveyed to any party other than the State of Idaho.

### FISCAL NOTE

None.
