

STATEMENT OF PURPOSE

RS21951

This legislation places emphasis creating an efficient and coordinated freight shipping plan throughout Idaho to further economic development and movement of goods and commodities. It directs the Idaho Department of Transportation, Department of Commerce and Department of Agriculture to work together with transportation stakeholders and conduct a study of Idaho's freight transportation system, needs, routes, facilities and future needs. It requests an inventory of the present freight system, recommended linkages, coordination between ground, rail, water and air modalities, stakeholder collaboration, and infrastructure development, and funding recommendations.

FISCAL NOTE

There is no fiscal impact to the state general fund.
