He explained that the flags represent the spirit of our citizens and serve as a symbol of Idaho's sovereignty. They further serve notice to the State that the Legislature, the elected representatives of all the citizens of Idaho, is in session. The flags are raised when the Legislature convenes and will be retired when the Legislature adjourns *sine die*. On request by President Pro Tempore Hill, granted by unanimous consent, The Idaho State Police Honor Guard entered the Chamber.

The Pledge of Allegiance was led by Sarah Jane McDonald, Sergeant-at-Arms. President Little presented the Idaho State flag to the Honor Guard to be raised above the Senate Chamber to fly during the Second Regular Session of the Sixty-second Idaho Legislature and the Honor Guard exited the Chamber.

America the Beautiful and *The Battle Hymn of the Republic* was sung by the Madison High School Belcanto Choir.

On request by Senator Davis, granted by unanimous consent, President Little appointed a committee consisting of Senator Johnson, Chairman, and Senator Lacey to escort the committee from the House of Representatives into the Senate Chamber. Mr. Speaker, Mr. President, Honorable Justices and Judges, my fellow constitutional officers, distinguished legislators and members of my Cabinet, honored guests, friends, my family and our First Lady … my fellow Idahoans.

Happy New Year and welcome back to the People's House.

I know you join me in being grateful for the opportunity to continue our work together toward building a solid foundation for

Idaho's future. Thank you for inviting me here to report on our progress in advancing the interests of the citizens we serve.

My goal today is to outline and invite your consideration and support for my key proposals in the coming year and beyond.

Before I continue my remarks, please join me in remembering and honoring Specialist Thomas Murach Specialist Mitchell Daehling, Staff Sergeant Octavio Herrera, and Captain David Lyon - the heroic Idahoans who lost their lives during 2013 while protecting our freedoms and way of life - as well as the 177 brave men and women of the Idaho Army and Air National Guard who were deployed in harm's way on our behalf this past year. Thank you.

But we all know that thanks alone are not enough to adequately demonstrate our gratitude to these valiant Idahoans. That's why I recently issued an Executive Order developed with the help of Senator Marv Hagedorn establishing the Idaho Veterans, Servicemembers and Families Coordination Council.

It formalizes a support structure for those Idaho citizens who have served or are serving in the Armed Forces - whether on active duty, in the Reserves, or in the National Guard, as well as their families. They deserve all we can do.

By now you all know that my administration remains committed to limited, transparent and accountable government that enables economic opportunity and empowers citizens to reach their own best potential.

I will not sanction growing our State government as fast as our economy, and I will continue to work for greater efficiency, effectiveness, stability and predictability in fulfilling the proper roles of government. Our shared commitment to those principles has seen us through some tough times, and it remains our best path forward.

Today I will focus my remarks on the highest of our duties as public servants - investing taxpayer dollars in Idaho's future in a way that is targeted, responsible and sustainable.

First - education.

The task force I assembled after the 2012 election to study how best to improve Idaho's public schools did an incredible job. I'm grateful for their service and their continuing commitment to seeing this process through.

The diverse membership effectively put aside politics and personal agendas in developing recommendations that I enthusiastically endorse.

I believe that implementing them will substantially move our policies in the right direction for Idaho's future. That includes making a significant start on a multi-year effort to restore funding to public schools that we withheld during the prolonged economic downturn.

It also involves carefully tracking how effectively taxpayer investments are put to work in our classrooms.

And I'm calling for greater transparency in that process, which should include online reporting of details about how local officials are improving the education experience and outcomes for students. That in turn will enable parents and patrons to hold teachers, administrators, trustees - and us - more accountable.

Ladies and gentlemen, process matters. Attention to the importance of process is why I appointed a task force representing a broad cross-section of stakeholders to carefully assess our options. Now that group has delivered its findings, and we must be just as careful in how we enact them.

I envision this process being as data-driven and as focused on outcomes as possible.

For that reason it is my preference that we write our fiscal 2015 investment in ink and the out-year investment plans in pencil so that we can better assess the local impacts of that funding.

In assessing those impacts, my task force also recognized the importance of the increased academic rigor we will see by successfully implementing the Idaho Core Standards.

I want to express my appreciation to you for having the courage and foresight to adopt those standards, understanding that meaningful work remains to be done. Senator John Goedde and Representative Reed DeMordaunt have been working with the State Board and the Department of Education to prepare legislation to further clarify the fact that we place the highest importance on the privacy and security of student data. I strongly support that endeavor.

The overarching goal of the task force recommendations is achieving the State Board of Education's benchmark of ensuring at least 60 percent of Idaho citizens between the ages of 24 and 34 have a degree or professional certification by 2020.

That goal and our proposals for achieving it have been enthusiastically embraced by the education community and by employers.

They are being elevated and advanced not only by the Board of Education but also by leaders of both parties as well as our state Workforce Development Council, the Department of Commerce and many other stakeholders throughout Idaho.

Indeed, the task force recommendations and the work that they are already inspiring promise to make the idea of "K-through-12" education obsolete. The standard for Idaho's commitment to education excellence and workforce readiness can perhaps better be characterized as "K-through-Career."

Now, I want that to sink in for just a moment: K-through-Career. It is a straightforward but profound way of describing our goals for building out and maintaining a continuum of education and training opportunities. It is a formula that emphasizes local autonomy and accountability as the keys to success not only for our schools but also for our communities, our economy, and most importantly for our students.

The recommendations put forward by the task force wisely call for locally drafted strategic plans designed to meet local needs while aligning with our statewide objectives. Local school trustees will oversee the implementation of those strategic plans to improve the education of their students, and the State Department of Education will monitor progress to enable local patrons to more effectively hold school districts accountable for meeting their own stated goals.

Those goals could include more comprehensively using technology in the classroom, more aggressively facilitating dual credit programs or more carefully fostering teacher mentoring efforts. It could mean providing greater focus on science, technology, engineering and math education; early reading competency or any number of other strategies for local success.

Of course, technology will be a critical part of this effort. The task force recommendations make it clear that the best course involves empowering local administrators to acquire whatever devices work best for their own students and in their own classrooms, and then ensuring those devices are accessible to every student.

The funding that you approved last year for school technology grants began that process, which should continue.

But there are two important elements that I want to emphasize to you and to local school officials.

First, I want to make it clear that the buying power of our statewide purchasing process is available to local school districts and may help them obtain the devices they need at better prices.

Second, the Idaho Digital Learning Academy stands ready and is uniquely positioned to provide technical assistance, teacher training and advice on best practices - technically and academically. It can help schools more effectively use those classroom devices, especially in tandem with the Idaho Education Network.

As you know, the IEN already links every Idaho public high school.

And I'm pleased to be able to announce today that, with your continuing support, we expect to have every elementary and middle school in Idaho hooked up to our broadband Internet education system by the end of fiscal 2015.

A network of support also factors prominently into our response to rising concerns about the safety of students and staff in our public schools. With the haunting memories of Newtown, Connecticut still fresh on our minds, local and state officials studied what works across the country and then engaged in a first-of-its-kind multiagency exercise at Burley High School last August.

We've learned a lot about how to identify and address our security challenges, and school districts all over Idaho are benefiting. But in the end I believe one of the most important lessons learned was the absolute necessity of communication and building relationships of trust and support between parents, teachers, school administrators, first responders and law enforcement at every level before an emergency happens.

The Idaho State Police, Bureau of Homeland Security, the Department of Education, the Division of Building Safety and local sheriffs and police departments throughout Idaho are united in their commitment to building those relationships. To help further strengthen that bond, my budget recommendation includes a line item for local pilot projects aimed at improving school safety and security.

The key to building those relationships - to building any relationship - is listening. The Complete College America Alliance that Idaho joined three years ago is based on education leaders listening to what our students need in order to go on to post-secondary education, and what they need to succeed when they get there.

With the help of the Albertson Foundation and the leadership of the State Board of Education, this year we're acting on what we've learned. My budget calls for investing in high-demand programs at each of our four-year institutions. By adding instructors in targeted areas of study we can help break up the logjam in our universities' upper-division classes so students can keep progressing toward their degrees.

And in response to growing demand, I hope you will help me welcome our new University of Idaho president by approving my recommendation that we expand Dr. Chuck Staben's law school program here in Boise to a second year.

We also must continue investing in the strong collaborative relationship between our universities and the Center for Advanced Energy Studies. That's why my budget calls for adding $1 million to our annual investment in that facility, which consistently yields incredible returns and value to Idaho's asset portfolio.

Sustaining our support for programs and partnerships at the Idaho National Laboratory is paying off with more career opportunities, as identified by my Leadership in Nuclear Energy or LINE Commission. And there's more progress to come as the INL works with private industry on developing safer, cleaner and more efficient small modular reactors.

Partnerships also are at the heart of efforts to improve our Workforce Development Training Fund program. You can expect to see more targeted use of grants for training employees not just for individual businesses, but for the market-driven growth of industry sectors that add value to Idaho's economy.

My focus on workforce development also includes more support for professional-technical education programs throughout Idaho.

I'm impressed by the work our community colleges are doing - from the new Aerospace Center at North Idaho College to the Applied Technology and Innovation Center being built at the College of Southern Idaho. And they are eager to do more. So I'm asking for both one-time and ongoing investments in an Advanced Manufacturing Initiative at all three of them, plus Idaho State University, Eastern Idaho Technical College and Lewis-Clark State College.

To help ensure affordable educational opportunity beyond high school for more of our citizens, I'm asking you to fund outreach programs in Idaho Falls for the College of Southern Idaho and in Sandpoint for North Idaho College, as well as a nursing initiative at the College of Western Idaho.

Speaking of CWI, I hope you'll forgive my personal pride in the great success that the newest of our community colleges is enjoying. It was born right here in this chamber seven years ago. Its public support, its growth and its synergy with Boise State University and others reflect more than the demand that had built up here in the Treasure Valley. It also reflects the sound judgment of the people of Ada and Canyon counties in investing in their own future. And it speaks to the excellence, responsiveness and accessibility of the product that President Bert Glandon and his team are providing for our citizens.

CWI is the kind of investment in which we all can be justifiably proud.

The same is true of the new Idaho Youth Challenge program in the northern Idaho community of Pierce. This nationally tested and proven model provides at-risk youth with a second chance and the opportunity to learn the values, skills and self-discipline they'll need to be responsible citizens wherever life takes them.

The Idaho National Guard has put together a great plan in Pierce, and its first class of students starts this month. It figures to grow over time to meet the needs of over 200 students each year.

That's 200 more young Idahoans each year with a second chance to prepare for life. That's 200 more young Idahoans each year with a chance to become productive, contributing members of society. Thank you for giving them that second chance.

And thank you for understanding that responsible management - personal or public - involves preparing for the future. Folks, during the most recent economic downturn we used almost all of the "rainy day" funds we had wisely socked away to avoid interruption or long-term damage to public services, most notably education.

We made the right decision these past two years to begin refilling those accounts, especially in light of the continuing instability in our national government's finances and support.

But we are not yet where we need to be in rebuilding our own fiscal buffer against that uncertainty.

So today I am recommending that $35 million more be set aside in fiscal 2015 for our Budget Stabilization Fund, another $29 million in our Public Education Stabilization Fund, and an additional $7 million in our Higher Education Stabilization Fund.

That's a total of $71 million toward ensuring our ability to keep on supporting the most important work of the State of Idaho - especially our K-through-Career goals - while striving to improve both in effectiveness and efficiency.

Addressing our education and workforce development needs is my top priority. I'm sure some will argue that the proposals I'm putting forward today are not bold enough, not front-loaded enough or simply not enough. But peaks and valleys are not the best way to manage any enterprise - public or private. These proposed investments are measured, manageable and within our means.

Their sustainability also is critically important to Idaho's competitiveness in the global economy. So while I appreciate your support for the tax relief we've been able to provide these past two years - and while I would love to see a third year - it's also my view that any effort to provide additional tax relief for our citizens must be in the context of advancing our goals for Idaho's education system.

I look forward to having a conversation about the merits of further ratcheting down our marginal income tax rates - both individual and corporate - and increasing the personal property tax exemption from $100,000 to $250,000.

But once again, my first priority is investing in what will help us achieve sustainable growth.

Another measure of our shared commitment to fiscal responsibility is the fact that our improving and growing economy has enabled the Idaho Department of Labor to reduce the standard unemployment insurance tax rate by almost 31 percent this year. Thanks to the great work of recently retired Director Roger Madsen and his team, the reduction will save tens of thousands of Idaho employers almost $75 million in 2014.

That in turn will benefit us all by enabling those businesses to expand, improve and create Idaho jobs.

As our unemployment rate drops and demand keeps growing for skilled employees, the importance of workforce development and achieving our K-through-Career goals comes into sharper focus.

Another of my goals as Governor is to advance opportunities for outstanding Idahoans to play a bigger role in every aspect of our State government - from my Cabinet to the courts. I want the best people representing their neighbors. That's why I appreciate Peggy Grover of Rexburg, who I recently appointed to the Idaho Potato Commission. She's the first woman to serve on the commission in its long history.

And she brings passion, professionalism and an invaluable perspective to the marketing of Idaho's most famous commodity.

Please join me in congratulating her on this historic achievement.

Speaking of achievements, last year I told you we were approaching one of the economic development benchmarks with which I'm sure you are familiar - Project 60. Well, as of the fourth quarter of 2013, Idaho's overall economic activity was on a $60 billion-a-year pace. In fact, our forecast gross domestic product for 2014 is $62 billion.

But that is not the end of our aspirations for Idaho's economy. Project 60 was only a temporary milestone - a symbol of our commitment to statewide progress and prosperity.

As we celebrate this success, we will continue aspiring to higher goals for Idaho's future. We will focus on making targeted investments, creating skilled talent pools for our industries, expanding career opportunities for our citizens, and continuing our relentless efforts to drive down the costs of doing business.

Over the past couple of years, one region of Idaho has enjoyed particularly compelling success.

People all over the state have been asking me, "What's happening in the Magic Valley? What are they doing, and how can we do it too?" What do big employers like Chobani, Glanbia, McCain Foods, Monsanto, Frulact and Clif Bar see in the people and possibilities of south-central Idaho?

Well folks, let me tell you, what some might consider the Magic Valley Miracle is something that every part of Idaho has the ability to emulate - leveraging our assets and resources in a way that adds value to our products and services in the marketplace.

From the city councils to the county commissions, from the urban renewal areas to the economic development organization, and from local highway districts to the Governor's office - the Magic Valley is committed to planning and working together toward the shared goal of raising the tide of economic activity in a way that lifts everyone's boat.

As Commerce Director Jeff Sayer likes to say about his agency, we "move at the speed of business" and put a premium on being exceptionally responsive to market opportunities. It's a template we're following, and an approach that Director Sayer and all our state agencies are continuing to build out statewide.

Together they are strengthening our workforce and infrastructure capabilities to help create the unlimited opportunity that's elevating Idaho as a destination for success for such growing employers as Curtiss Wright-Scientech and Melaleuca in Idaho Falls, Plexus in Nampa and Involta in Boise.

While we work aggressively toward achieving our own Idaho goals, we also are responsible for ensuring Idaho's voice and values are reflected in how national policies are implemented here in our state. Please accept my thanks once again for enabling us to at least be the project managers if not the architects of our own destiny in establishing a state-based health insurance exchange last year.

We continue working through the technology and policy implementation challenges imposed upon us by the national government and aggravated by our own early missteps. But I believe we are on the right path toward having our own technology in place, and I remain confident that our experience within the difficult context of Obamacare will continue to improve.

Because of your support, we retain our options and our opportunities for making the process and the outcomes better for Idaho citizens. I know the public debate will continue, but let me reassure you that we are far better off engaged than we would be on the sidelines.

I am equally convinced that we are doing the right thing by continuing to carefully study and learn from the experience of other states when it comes to Medicaid expansion. I appreciate the passion with which advocates both public and private seek our approval for expanding that program. I also appreciate the gravity of what some consider "leaving money on the table" for early financial support of expansion.

My concerns continue to be with the stability and sustainability of that federal support, and the risk of leaving Idaho taxpayers holding the bag for growing an entitlement that we simply can't afford as it's now structured.

Department of Health and Welfare Director Dick Armstrong and his team are closely tracking Medicaid expansion rollouts in states like Arkansas, Indiana and Iowa to learn where we can refine our own system so that care is more carefully focused on prevention, outcomes, and living within our means.

I repeat the commitment I made to legislative leaders soon after the U.S. Supreme Court found much of Obamacare constitutional in 2012 - I will not advance Idaho's role in that law's implementation without your advice and consent.

On the issue of Medicaid expansion, we should not jump into the deep end without knowing what's on the bottom. We must not risk our other priorities on the prospect of long-term support from a federal government that has not proven it can responsibly manage our money. So for this year, and until we are better positioned and prepared to succeed on our own terms, my answer remains no.

At the same time, Director Armstrong has proposed and I am seeking your support for a plan to begin systematically addressing another of our health challenges.

Routinely in Idaho, people with any combination of mental health and substance abuse issues are taken to local emergency rooms or county jails when their condition or behavior puts them or others at risk. Now, we all know how expensive an emergency room visit can be, and we can understand the frustration for individuals and their loved ones from repeatedly dealing with crises but not the underlying illness or addiction.

The Department of Health and Welfare is seeking start-up funding to develop three regional behavioral health crisis centers in Idaho Falls, Coeur d'Alene and Boise to serve area communities 24/7. The goal is to build community partnerships for long-term sustainability. The crisis centers can be modeled on the best practices of other states where such plans have been successful. And based on our own outcomes, efficiencies and partnerships, we can then discuss expanding the program to other regions of Idaho in the coming years.

Folks, this can work. The response to such programs elsewhere has been encouraging, and communities have been more than willing to join in these investments as they see declines in use of local emergency rooms, hospital beds and jail cells.

Now I want to draw your attention to another proposal aimed at sustainability - this one involving our most precious natural resource. The Idaho Water Resource Board and local water districts and associations throughout Idaho have been working hard to more actively and effectively manage the Eastern Snake River Plain Aquifer and other surface and underground water sources throughout Idaho for greater long-term stability. My budget recommendation includes $15 million in one-time spending for specific water supply improvement projects from Mountain Home to Rathdrum and from Island Park to Arrowrock.

It is a critical investment in our capacity for responsible future growth.

One form of growth we don't want to encourage is in the wolf population that was imposed on Idaho almost 20 years ago. With your unflinching support, we were able to fight through the opposition of those who would make Idaho into a restricted-use wildlife refuge and take back control of these predators from our federal landlords.

We're managing them now, and they're a trophy hunting species. But the population is still growing, and our resources remain at risk. So I'm calling for establishment of a Wolf Control Fund and a State board to direct and manage it. My budget recommendation calls for a one-time allocation of $2 million to get the fund started. That base then would be augmented with continuing annual contributions of $110,000 from the livestock industry and a matching amount from Idaho sportsmen.

This three-pronged approach will provide the revenue needed to more effectively control Idaho's burgeoning wolf population and ease the impact on our livestock and wildlife.

Our wild and domestic herds already are benefiting from a step you took last year, and for which I'm grateful. Your agreement to provide seed money for the organization of four rangeland wildfire protection associations is paying off in spades.

In the midst of a bad 2013 forest fire season, Idaho wildfires overall burned 1 million fewer acres than in 2012, and the cost of fighting those wildfires was reduced by $90 million.

That's thanks in part to the collaborative work of ranchers and other stewards of the range whose devotion to protecting the land where they live and work and willingness to roll up their sleeves is saving resources and lives. This also is an instance in which we are working effectively with a federal agency. Cooperation between the Bureau of Land Management and our own Department of Lands has been critical to training and equipping our local fire protection groups.

I anticipate this program expanding as more people see its proven benefits. It's a model of how we can work together in pursuit of our shared interests.

Unfortunately, that kind of relationship too often is either missing or unreliable in our dealings with the national government.

With the support of Idaho stakeholders, I submitted a commonsense management plan to prevent the need for listing the sage-grouse under the Endangered Species Act. Idaho's plan also ensures continued multiple-use of these federal lands, provides predictability for our ranchers and facilitates construction of a badly needed electrical transmission line across southern Idaho.

I've been assured that Idaho will have a seat at the table in crafting a solution to the sage-grouse issue, and I will hold federal officials to that commitment.

I encourage your continuing support for our efforts to engage Washington, D.C. on a whole range of issues that impact how our people live, work, build and pursue their dreams here in Idaho.

My friends, I firmly believe that the kind of conservative, sustainable policies I've outlined today are the best way to protect our traditional values while strengthening the foundation of our future. They are the product of tested, proven leadership that both honors and reflects our confidence in the people we serve.

Our path is as straightforward but as challenging as living within our means.

It is as simple but as complex as making government better without growing it bigger. It will require us to put aside partisanship and personal ambition in the public interest. And in this even-numbered year it will demand of us - as I've said before - a willingness to look beyond the next election to Idaho's next generation.

Here in Idaho, let us work together to make our State government more about building partnerships for growth and less about imposing limits on opportunity.

That's my hope and my goal as your Governor, for this session and beyond. More importantly, it is our shared charge and our sworn responsibility as public servants.

I look forward to your response and to reviewing the fruit of your labors in the days and weeks ahead.

Good luck, Godspeed, and may God continue to bless America and the Great State of Idaho.

Thank you.

Motions and Resolutions

On request by Senator Davis, granted by unanimous consent, President Little appointed a committee consisting of Senator Lakey, Chairman, and Senator Werk to escort Chief Justice Roger S. Burdick into the Senate Chamber where he delivered the following **State of the Judiciary Address**:

Mr. President, Mr. President Pro Tem, and distinguished members of the Idaho Senate, my colleagues on the Supreme Court and Court of Appeals, and fellow Idahoans.

2013 was a remarkable year for the Idaho's courts. As I prepared these remarks my biggest challenge was organizing succinctly the work of our judges, county clerks, court personnel, and our thirty-plus committees made up of citizens, lawyers, judges, and others with specialized expertise.

I start with congratulations to the Legislature, for wisely identifying two of the chronic problems that impact Idahoans and the judicial system. Thank you for the interim committee on public defender reform as well as the hard work undertaken by your criminal justice reinvestment interim committee in concert with the Council of State Governments Justice Center.

Earlier this year, it was my privilege to address the public defender reform interim committee. I shared insights not only on the demanding and complex work performed by public defenders, but more importantly showcased Idaho's early and strong commitment to criminal defense of indigents - a full forty years before the 1963 landmark United States Supreme Court case of *Gideon v. Wainwright*.

In *State v. Montroy*, 37 Idaho 684 (1923) Idaho emphatically said:
It is the public policy of this state, disclosed by constitutional guarantees as well as by numerous provisions of the statutes, to accord to every person accused of a crime, not only a fair and impartial trial, but every reasonable opportunity to prepare his defense and to vindicate his innocence upon a trial. In a case of indigent persons accused of crime, the court must assign counsel to the defense at public expense.

It has been the law of this state for 90 years - yes 90 years - that every person is entitled to a fair and impartial trial with time to prepare their defense. The court must assign counsel at public expense for indigents.

This was not a case foisted on Idaho by federal mandate of the United States Supreme Court or Congress, but our own court interpreting our own constitution and statutes - statutes dating back to territorial days.

Idaho's public defender system today has significant deficiencies; it is a patchwork of offices and contracts paid for by our already cash starved counties. I congratulate the Public Defender Interim Committee for recommending legislation that will provide a solid first step in meeting our constitutional requirements.

The appointment of a state Public Defense Commission with significant duties and responsibilities under your oversight will further this important work.

Eliminating single fixed fee contracts, providing training funds for defending attorneys, and authorizing the counties to establish public defender offices or contracts that best meet the needs of their communities are positive developments. For the future, we must maintain our commitment to Idaho's constitution and history. The Council of State Government Justice Reinvestment Initiative has been an exciting and illuminating experience. The analysis of Idaho's criminal justice system has identified many areas of strength and others that need work.

A few observations: I applaud the energy, cooperation and good faith of all three branches of government to contribute to this analysis. I especially want to thank our district judges for their candor, interest and insights in providing substance to the skeleton of data.

The final report provides an excellent road map to guide your budget and policy decisions; to keep our communities safe, use evidence based practices to reduce recidivism, and hold offenders accountable, yet provide them the tools to succeed. I have long advocated for community based alternatives, strong probation services, and necessary treatment. The combination of these policies keeps families together, persons on the job, and protects citizens.

It seems like every year I have been before you, the Idaho Courts have been acknowledged nationally by awards to its members or to the judiciary as a whole. 2013 was no different.

Recently, Idaho was recognized nationally for expertise in our domestic violence courts. The Ada County domestic violence court was one of only three courts in the nation chosen for a new mentor court initiative. It will serve as a role model and disseminate proven strategies to other courts across the nation. In 2013, Domestic Violence Courts statewide assisted over 1100 victims in both criminal and civil cases and monitored over 1400 offenders; holding them accountable and keeping our communities and victims safe.

Many of these difficult cases involving victims of domestic violence require the assistance of legal counsel in related civil cases. I am pleased to report that the new director of Idaho Legal Aid has worked closely with the Supreme Court to develop a new and much needed proposal to provide legal representation to those victims as well as to abused and neglected children and senior citizens.

Secondly, the Foundation for Government Accountability ranked Idaho's child welfare system number one in the nation. They measured the cycle of abuse and neglect, how quickly children returned home safely, and whether children returned to a permanent family within twenty-four months from removal from their home. This recognition is a result of focused efforts by the Idaho Courts, and other key child protection agencies over the last decade. These efforts pay big dividends now and in the future – for children, families, schools, communities – all of us benefit.

Family child protective proceedings are only one portion of the larger area of family court services. The magistrate division and Family Court Services offices responded to over 70,000 requests for information and services - a 41% increase since 2010. Our Court Assistance Offices responded to an additional 50,000 requests for forms and services, and family law continued to be the primary area of need. Our court assistance website received approximately 5.75 million hits in 2013.

I'd like to report on our problem solving courts. To date Idaho has 67 problem solving Courts addressing drug, alcohol and mental health issues for adults, veterans and minors. In 2013, almost 600 graduates joined the over 5,000 graduates who have successfully completed the rigorous requirements of problem solving courts since 1998. The majority were felony offenders, and if not for this criminal sentencing alternative, they would have been sentenced to the penitentiary or county jail. Today we proudly announce eighteen new babies born drug-free to drug court mothers this past year bringing the total to over 300.

We continue to review our basic procedures in all court cases through our *Advancing Justice Initiative*. The goals of this effort have been to conduct a critical review of Idaho's time standards for case processing, to develop a state-wide case management plan, to assist with the development of case management plans for each judicial district. We continue to review all court rules and statutes to identify potential barriers to timely case processing.

Advancing Justice is not about speed for the sake of speed, nor does it take away an individual judge's discretion to allow further time in cases involving significant issues. We are not trying to pound square pegs into round holes. We are, however, addressing a much needed analysis of our case management time standard expectations in light of advances in other areas of the court system.

A significant requirement of our *Advancing Justice Initiative* will be the implementation of our new technology solution. You have long supported statewide court technology and we thank you. Our existing twenty-five year old system is at "end-of-life" and we must plan to move to a new one. 2013 was a foundational year in which we prepared for the transformation of technology throughout our courts. This new technology strategy will improve access to court data, enhance integrations with the court's justice partners, and maximize the efficiency and effectiveness of our court business practices.

Our business plan will modernize the case management system for trial courts and appellate courts, helping both our efficiency as well as agencies and citizens who use our website and repository daily.

We will be transitioning to electronic filing of all court records as well as electronic storage of court records. Envision a paperless file that can immediately move seamlessly among the Idaho trial courts and to the appellate courts. We are also leveraging a statewide network infrastructure in partnership with other branches of Idaho government and we need to maximize the use of video conferencing as a goal of the business plan. This new technology will provide cost savings to taxpayers, optimize the use of court personnel at the state and county level, free up limited physical space from paper records in our county courthouses and storage facilities, and greatly improve the court's ability to serve justice throughout the state.

It is now time to come to you and the Governor for the funding of that business plan. It can be financed with a combination of multiple, one time general funds and increased technology court costs. We stand ready to provide all financial options.

The "silver tsunami" is another significant internal analysis of what we are doing and how we are doing it. I have reported for the last two years about our efforts to get ahead of the "graying" of America. Now others throughout the nation are analyzing this "silver tsunami" in terms of health care, social networks, and changes in all walks of life and levels of government concerning systems and infrastructure.

By 2030 Idaho's total population is projected to increase by 52 percent while the number of individuals over the age of 65 will grow by 147 percent. There were over 1200 new guardianship or conservatorships filed this past year. Once a guardian has been appointed the monitoring will often continue for years.

These cases must be actively managed and monitored by our courts. It is vital that we have mechanisms to insure monitoring on a qualitative and quantitative basis, that newly appointed guardians or conservators understand their responsibilities, and that we determine the future direction and statutes necessary to protect the citizens of Idaho.

This is not a small undertaking. Just on the financial side, in 2013, clerks of the courts submitted over 2400 annual reports for court review and those reports reflect almost $375 million dollars of assets under the care of another person, an increase of 15 percent over the prior year.

The judiciary's commitment to our elderly Idahoans is commensurate to our dedicated efforts on behalf of Idaho's children.

Like the rest of America, the face of the judiciary is changing. In 2013, 5 district and magistrate judges retired. Sixty percent of district judges statewide and eight of the nine appellate judges will be eligible to retire within the next five years.

To meet this demographic inevitability, the Supreme Court and the Judicial Council have worked to encourage and streamline the recruitment of judges. The Judicial Council has instituted pre-interview panels of local district judges, human resource officers, the judicial council executive director, and others. These panels inform lawyers in a specific judicial district not only of vacancies but also of the rewards and challenges of becoming a district judge. In 2013, I invited each legislator in a judicial district to attend the public interviews, so you could see exactly who the candidates are and the interview process. I have continued this practice in 2014 for the upcoming Ada and Nez Perce county vacancies.

Even with these improvements, we are facing a vexing problem in attracting the highest caliber applicants for each vacant position. Since 2000, there have been 43 district judges appointed. The Governor has only received a full slate of four candidates 30% of the time. In the State of the State address, Governor Otter touched on the needed ability to attract highly qualified Idahoans from the "cabinet to the courts." Through state bar surveys, anecdotal exit interviews, and informal discussions with lawyers and judges throughout the state, the key barrier to recruiting and retaining the highest caliber district judges is salary.

Throughout this session we will be discussing with you judicial recruitment and retention challenges. Some advancement must be made. Idahoans deserve, and businesses demand, a highly competent, experienced judiciary. It is vitally important for the future of Idahoans in the decades to come that we act now as this demographic change is upon us. As a court, we have tried to be proactive and creative in encouraging recruitment of district judges. It is now up to the legislature to place a value on the individuals who will be making the state's most important legal decisions. Judges are vitally important: they keep our communities safe, protect our children, families, and elderly, and insure businesses have an experienced bench to resolve complex cases. We can, and must act now.

In closing I would like to say none of this gets done without the dedication of our judges in Idaho. They take the bench and sacrifice associations, activities as well as they restrict financial opportunities to act within their Code of Conduct. This report scratches just the surface of their accomplishments and doesn't hint at the sacrifices. I want to personally thank them for their exceptional service.

I thank you for your time and God Bless.

The President thanked Chief Justice Burdick for his remarks and Senator Lakey, Chairman, and Senator Werk escorted Chief Justice Burdick from the Chamber, and the Committee was discharged.

On request by Senator Davis, granted by unanimous consent, the State of the Judiciary Address was ordered spread upon the pages of the Journal.

SJM 105
BY HEALTH AND WELFARE COMMITTEE
A JOINT MEMORIAL
TO THE PRESIDENT OF THE UNITED STATES, TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE UNITED STATES IN CONGRESS ASSEMBLED, TO THE CONGRESSIONAL DELEGATION REPRESENTING THE STATE OF IDAHO IN THE CONGRESS OF THE UNITED STATES, TO THE SECRETARY OF THE UNITED STATES DEPARTMENT OF AGRICULTURE AND THE SECRETARY OF THE UNITED STATES DEPARTMENT OF HEALTH AND HUMAN SERVICES.

We, your Memorialists, the Senate and the House of Representatives of the State of Idaho assembled in the Second Regular Session of the Sixty-second Idaho Legislature, do hereby respectfully represent that:

WHEREAS, the Supplemental Nutritional Assistance Program (SNAP) is administered by the states on behalf of the United States Department of Agriculture, and the states are subject to the rules promulgated by the United States Department of Agriculture and Congress; and

WHEREAS, the health and welfare of the citizens of Idaho can be affected by their consumption of food items purchased with SNAP benefits; and

WHEREAS, a comprehensive healthy Supplemental Nutritional Assistance Program (SNAP) for Idaho citizens would include, and should emphasize, consumption of healthy Idaho grown and produced products; and

WHEREAS, individuals who participate in healthy eating choices have less chance of developing chronic diseases and therefore, are able to be more productive employees, citizens and more involved in their families' lives; and

WHEREAS, our children's futures and consequently the future of our nation are directly impacted by the food choices that are made for our children; and

WHEREAS, a healthy diet can consist of all food items, provided there is appropriate education and emphasis given to healthier food options to include proteins, grains, dairy and fruits and vegetables; and

WHEREAS, taxpayers have a right to expect that, whenever possible, decisions regarding the use of their tax dollars will be made at the state and local level; and

WHEREAS, if there is more state and local authority over foods authorized to be purchased with SNAP funds, Idaho can potentially improve the health of SNAP recipients, promote Idaho grown agricultural products and reduce the states' expenses for health care costs; and

WHEREAS, citizens may benefit from education to enable them to make healthier and more cost-effective decisions about purchasing food and having local control over foods authorized to be purchased with SNAP funds would give state-based producers an opportunity to educate citizens about the benefits of consuming their products.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-second Idaho Legislature, the Senate and the House of Representatives concurring therein, that the Legislature calls upon the President of the United States, the Secretary of Agriculture and Congress to give Idaho the flexibility to have control over foods authorized for purchase with Supplemental Nutritional Assistance Program (SNAP) benefits and to encourage healthy eating and lifestyle choices.

BE IT FURTHER RESOLVED that Idaho should be given the flexibility to determine the best methods of helping our citizens create a comprehensive state-based approach to promote physical activity, nutritional food selections, including a focus on Idaho grown agricultural products, and healthy lifestyle choices.

BE IT FURTHER RESOLVED that the Secretary of the Senate be, and she is hereby authorized and directed to forward a copy of this Memorial to the President of the United States, to the President of the Senate and the Speaker of the House of Representatives of Congress, to the congressional delegation representing the State of Idaho in the Congress of the United States, to the Secretary of the United States Department of Agriculture and the Secretary of the United States Department of Health and Human Services.

SCR 134
BY STATE AFFAIRS COMMITTEE
A CONCURRENT RESOLUTION
FOR THE PURPOSE OF REQUESTING APPROPRIATE ACTION BY THE CONGRESS, EITHER ACTING BY CONSENT OF TWO-THIRDS OF BOTH HOUSES OR, UPON THE APPLICATION OF THE LEGISLATURES OF TWO-THIRDS OF THE SEVERAL STATES, CALLING AN ARTICLE V CONVENTION TO PROPOSE AN AMENDMENT TO THE UNITED STATES CONSTITUTION TO REQUIRE, WITH CERTAIN EXCEPTIONS, THAT THE TOTAL OF ALL FEDERAL APPROPRIATIONS MAY NOT EXCEED THE TOTAL OF ALL ESTIMATED FEDERAL REVENUES IN ANY FISCAL YEAR TOGETHER WITH ANY RELATED AND APPROPRIATE FISCAL RESTRAINTS.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, with each passing year this nation becomes more deeply in debt as its expenditures grossly and repeatedly exceed available revenues, so that the total debt now exceeds seventeen trillion dollars; and

WHEREAS, the annual federal budget continually demonstrates an unwillingness or inability of both the legislative and executive branches of the federal government to curtail spending to conform to available revenues; and

WHEREAS, unified budgets do not reflect actual spending because of the exclusion of special outlays that are not included in the budget nor subject to the legal public debt limit; and

WHEREAS, knowledgeable planning, fiscal prudence and plain good sense require that the budget reflect all federal spending and be in balance; and

WHEREAS, believing that fiscal irresponsibility at the federal level, with the inflation that results from this policy, is the greatest threat that faces our nation, we firmly believe that constitutional restraint is necessary to bring the fiscal discipline needed to restore financial responsibility; and

WHEREAS, under Article V of the Constitution of the United States, amendments to the Constitution of the United States may be proposed by the Congress whenever two-thirds of both houses deem it necessary; or, on the application of the legislatures of two-thirds of the several states, the Congress shall call a Constitutional Convention for proposing amendments. We believe such action vital.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-second Idaho Legislature, the Senate and the House of Representatives concurring therein, that pursuant to Article V of the Constitution of the United States, the Legislature of the State of Idaho petitions the Congress of the United States of America, at its session, to call a convention of the states limited to proposing an amendment to the Constitution of the United States requiring that, in the absence of a national emergency, the total of all federal appropriations made by the Congress for any fiscal year may not exceed the total of all estimated federal revenues for that fiscal year, together with any related and appropriate fiscal restraints.

BE IT FURTHER RESOLVED that this application is to be considered as covering the balanced budget amendment language of the presently outstanding balanced budget applications from other states, including, but not limited to, previously adopted applications from Alabama, Alaska, Arkansas, Colorado, Delaware, Florida, Indiana, Iowa, Kansas, Maryland, Mississippi, Missouri, Nebraska, Nevada, New Hampshire, New Mexico, North Carolina, Ohio, Pennsylvania, and Texas; and this application shall be aggregated with those applications for the purpose of attaining the two-thirds of states necessary to require the calling of a convention for proposing a balanced budget amendment, but shall not be aggregated with any applications on any other subject; and

BE IT FURTHER RESOLVED that this application constitutes a continuing application in accordance with Article V of the Constitution of the United States until the legislatures of at least two-thirds of the several states have made applications on the same subject. It supersedes all previous applications by this Legislature on the same subject; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be, and she is hereby directed to forward copies of this resolution to the Secretary of State and presiding officers of both houses of the legislatures of each of the other states in the union, the Speaker of the United States House of Representatives, the President of the United States Senate, and the members of the Congress of the United States representing the State of Idaho.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, society has an interest in reducing the exposure of pregnant women, children and other vulnerable populations to known toxic substances; and

WHEREAS, more than thirty years of environmental health studies have led to a growing consensus that toxic substances are playing a role in the incidence and prevalence of many diseases and disorders; and

WHEREAS, increases in cancer, birth defects and difficulty in conceiving and maintaining a pregnancy have all been linked to exposure to toxic substances; and

WHEREAS, a fetus is particularly vulnerable to the impacts of toxic substances; and

WHEREAS, such substances include phthalates, mercury, perfluorinated compounds, bisphenol A and the flame retardant tetrabromobisphenol A; and

WHEREAS, these same substances have been found to be present in human blood, human breast milk and drinking water and have been added to consumer products used in the home, child care facilities and schools; and

WHEREAS, some Idaho companies are already committed to manufacturing their products using naturally safer substances.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-second Idaho Legislature, the Senate and the House of Representatives concurring therein, that we encourage companies to avoid substances likely to be harmful and substitute safer alternatives whenever feasible in household products, especially those likely to be used by pregnant women and children.

February 20, 2014

The Honorable Brad Little
President of the Senate
Idaho Legislature

Dear Mr. President:

I hereby advise you that I have transmitted to the Office of the Secretary of State, with my approval, the following Senate Bill, to wit:

S 1227

within the time prescribed by law, the same having arrived in the Office of the Governor at the hour of 4:55 p.m. on February 18, 2014.

I am pleased and honored to be able to sign into law this appropriate and well-deserved recognition of the service and sacrifice of our Vietnam War veterans. I appreciate Senator Heider and all those who contributed to the legislation's development and passage.

However, I would ask the Legislature to consider the possibility of similarly honoring our veterans of other conflicts - from World War I to the war in Afghanistan.

We have the Purple Heart Trail on Interstate 90, the Medal of Honor Highway on Idaho Highway 3 near Spalding, and the Veterans Memorial Centennial Bridge on I-90 over Bennett Bay, but veterans of no other conflict have been specifically recognized in this manner.

I know the Idaho Transportation Department would welcome the opportunity to work with members of the Legislature on extending this kind of recognition to other stretches of highway - especially to honor those groups of veterans from World War I, World War II, and the Korean War - whose numbers are sadly dwindling.

It would be impossible to adequately acknowledge and memorialize the importance of those veterans to protecting our American and Idaho way of life. I applaud the Legislature for taking this step, and I encourage you to continue down this path out of respect to all those who have put themselves in harm's way on our behalf.

As Always - Idaho, *Esto Perpetua*
/s/ C.L. "Butch" Otter
Governor of Idaho

The Senate advanced to the Ninth Order of Business.

SCR 144
BY STATE AFFAIRS COMMITTEE
A CONCURRENT RESOLUTION
STATING FINDINGS OF THE LEGISLATURE AND COMMEMORATING AND RECOGNIZING THE YEAR OF 2014 AS THE FIFTIETH ANNIVERSARY OF THE PASSAGE OF THE CIVIL RIGHTS ACT OF 1964.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, on June 11, 1963, President John F. Kennedy called for legislation "...giving all Americans the right to be served in facilities which are open to the public – hotels, restaurants, theaters, retail stores, and similar establishments," as well as "...greater protection for the right to vote."; and

WHEREAS, following President Kennedy's assassination, newly sworn-in President Lyndon B. Johnson first addressed the joint session of Congress on November 27, 1963, telling legislators, "No memorial oration or eulogy could more eloquently honor President Kennedy's memory than the earliest possible passage of the civil rights bill for which he fought so long."; and

WHEREAS, upon the ending of a fifty-seven day filibuster in the Senate, then Democratic Whip Hubert Humphrey of Minnesota, the bill's manager, declared he had the appropriate number of votes to pass the legislation out of the Senate and subsequently the bill was passed by the House of Representatives; and

WHEREAS, the Civil Rights Act of 1964 was signed into law by President Johnson on July 2, 1964; and

WHEREAS, upon the signing of the Civil Rights Act, President Johnson addressed the American public on July 2, 1964 stating that the newly passed act "...does not restrict the freedom of any American, so long as he respects the rights of others. It does not give special treatment to any citizen.... It does say that there are those who are equal before God shall now also be equal in the polling booths, in the classrooms, in the factories, and in hotels, restaurants, movie theaters, and other places that provide service to the public.... This Civil Rights Act is a challenge to all of us to go to work in our communities and our States, in our homes and in our hearts, to eliminate the last vestiges of injustice in our beloved country."; and

WHEREAS, the Civil Rights Act of 1964 sets a benchmark standard for civil rights protection across each of the fifty United States. The Act prohibits discrimination on the basis of race, color, religion, sex or national origin and brought an end to the tumultuous era of racial segregation. Its passage set the precedent that discrimination would no longer be codified and was further expanded in 1965 to encompass equal voting rights for all citizens; and

WHEREAS, under the leadership of then Senator Phil Batt, the Civil Rights Act of 1964 was enshrined in Idaho statute as the Idaho Human Rights Act in 1969. The Idaho Human Rights Act originally prohibited discrimination in employment, education, real estate transactions and public accommodations on the basis of race, sex, color, national origin and religion.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-second Idaho Legislature, the Senate and the House of Representatives concurring therein, that we do hereby commemorate and recognize the year of 2014 as the fiftieth anniversary of the passage of the Civil Rights Act of 1964 and that Idaho citizens be encouraged to honor and celebrate this momentous piece of landmark legislation.

(1) In any action where the respondent seeks to introduce evidence of the failure of the claimant to wear a safety restraint as required by section 49-673, Idaho Code, the respondent shall prove, by clear and convincing evidence, that the claimant's failure to wear a safety restraint was a contributing cause of the particular injury or damage sustained by the claimant. Such evidence may not be used to determine comparative fault for purposes of section 6-801, Idaho Code, but only for apportionment of damages.

(2) In all civil actions in which the affirmative defense of failure to wear a safety restraint is permitted, no pleading shall be filed containing such affirmative defense. However, a party may, pursuant to a pretrial motion and after a hearing before the court, amend the pleadings to include an affirmative defense that the failure to wear a safety restraint was a contributing cause of the particular injury or damage sustained by the claimant. The court shall allow the motion to amend the pleadings if, after weighing the evidence presented, the court concludes that the moving party has established at such hearing a reasonable likelihood of proving facts at trial sufficient to support a finding of damages apportionment caused by the failure to wear a safety restraint. Such an affirmative defense added pursuant to this section shall not be barred by lapse of time under the applicable limitation on the time in which an action may be brought or claim asserted, if the time prescribed or limited had not expired when the original pleading was filed.

(3) Evidence of the failure to wear a safety restraint as required by section 49-673, Idaho Code, shall not be admissible in the context of a claim under a policy of uninsured motorist and underinsured motorist coverage for automobile insurance.

(4) Evidence of the failure to wear a safety restraint as required by section 49-673, Idaho Code, shall not be admissible in an action for recovery of damages for and on behalf of a minor who is not old enough to qualify for driver's training;

Messages from the Governor

March 12, 2014

The Honorable Brad Little
President of the Senate
Idaho Legislature

Dear Mr. President:

I have the honor to inform you that I have signed today and am transmitting to the Secretary of State, with my approval, the following Senate Bill, to wit:

S 1254

within the time prescribed by law, the same having arrived in the Office of the Governor at the hour of 10:45 a.m. on March 11, 2014.

As elected officials, we have a sworn responsibility to protect and defend the Constitution of the United States - not only when doing so is easy, convenient or without cost, but especially when it is not. This legislation challenges us to fulfill that charge, and we will.

It should be noted that to similarly meet the responsibilities of public safety, to mitigate potential unintended consequences and to assuage the significant and heartfelt concerns expressed by many during this debate, the State of Idaho and the Legislature in particular must appropriately and carefully monitor, oversee and manage those difficulties and costs.

The Constitution limits neither the reach nor the protection afforded to lawful carriers of firearms by the Second Amendment. Court precedent has empowered and circumstances have compelled government entities to carve out specific exceptions. This is not the circumstance to carve out another. I agree with the Legislature's determination that the burden of proving the necessity for such exception falls not to the citizens exercising their Second Amendment rights, but rather to any who would seek to limit them.

We all will be watching closely to ensure the interests of Idaho citizens are served while their constitutional freedoms are protected.

As Always - Idaho, *Esto Perpetua*
/s/ C.L. "Butch" Otter
Governor of Idaho

The correspondence was ordered filed in the office of the Secretary of the Senate.

The Senate advanced to the Ninth Order of Business.

SECTION 18. That Section 67-7010, Idaho Code, be, and the same is hereby amended to read as follows:

67-7010. UNNUMBERED VESSELS. (1) It shall be unlawful for an owner of a vessel to have such vessel on the waters of the state of Idaho, or for any person to operate or permit the operation of any vessel on the waters of the state of Idaho unless it shall have a current certificate of ~~registration~~ number and display a ~~registration~~ vessel number and current validation stickers as provided by law.

SECTION 19. That Section 67-7013, Idaho Code, be, and the same is hereby amended to read as follows:

67-7013. REMITTANCE OF FEES. (1) There is established in the state treasury an account known as the "State Vessel Account," to which shall be credited:

(a) Moneys or fees collected by assessors and authorized vendors, under the provisions of this section and section 67-7008, Idaho Code; and

(b) All other moneys as may be provided by law.

(2) All fees collected by an assessor or authorized vendor under the provisions of section 67-7008, Idaho Code, shall be forwarded to the state treasurer not later than the fifteenth day of the month following the calendar month in which the fees were collected, and the state treasurer shall then pay the moneys collected into the state vessel account and the park and recreation account, as provided in subsection (3) of this section, unless otherwise provided by law.

(3) Moneys collected shall be deposited eighty-five percent (85%) to the state vessel account, and fifteen percent (15%) to the park and recreation account established in section 67-4225, Idaho Code. The department shall remit the moneys apportioned to county units of government from the state vessel account not later than January 25, April 25, July 25 and October 25 of each year.

(4) All moneys deposited to the park and recreation account are to be appropriated for the purpose of defraying the expenses, debts and costs incurred in carrying out the powers and duties of the department as provided in this chapter, and for

defraying administrative expenses of the department, including salaries and wages of employees of the department, expenses for traveling, supplies, equipment and other necessary expenses of the department as they relate to administration of this chapter. All claims against moneys apportioned to the park and recreation account shall be expended by the department and certified to the state controller, who shall, upon approval of the board of examiners, draw his warrant against the park and recreation account for all bills and claims allowed by the board. Should the related administrative costs of the department amount to less than the moneys apportioned to the park and recreation account for such purposes, the difference shall be remitted to the state vessel account and then apportioned to all counties with a boating improvement program so that the amount apportioned to each eligible county will be in the same ratio as the county's amount of funds received from the state vessel account during the prior fiscal year by a county bears to the total amounts received during that prior fiscal year by all eligible counties.

(5) All moneys deposited to the state vessel account and appropriated to the department, shall be apportioned among the counties of the state based on the designations which the owners make on their application for a certificate of ~~registration~~ number.

(a) An owner, when purchasing a certificate of ~~registration~~ number, will be allowed to designate, on the appropriate form, a primary and secondary eligible county where his boating activity occurs. The portion of his fees which are appropriated from the state vessel account shall be apportioned to the designated counties, with seventy percent (70%) of those fees apportioned to the primary designated county and thirty percent (30%) apportioned to the secondary designated county.

(b) Should an owner designate on the appropriate form only one (1) eligible county where his boating activity occurs, the full portion of his fees which are appropriated from the state vessel account shall be apportioned to the designated county.

(c) Should an owner fail to designate on the appropriate form any eligible county where his boating activity occurs, the full portion of his fees which are appropriated from the state vessel account shall be apportioned to all counties with a boating improvement program so that the amount apportioned to each eligible county will be in the same ratio as the county's amount of funds received from the state vessel account during the prior three (3) month payment period bears to the total amounts received during that prior three (3) month payment period by all eligible counties.

(6) Only those counties in the state with a boating improvement program, as recognized by the department, shall be eligible to receive moneys from the state vessel account. A "boating improvement program" means that one or more recognized boating facilities are being developed and/or maintained within the county's jurisdiction and/or that the county has or is actively developing a recognized boating law enforcement program.

(7) Moneys apportioned to the eligible counties shall be placed in and credited to an account which shall be known and designated as the county vessel fund, which shall be used and expended by the board of county commissioners for the protection and promotion of safety, waterways improvement, creation and improvement of parking areas for boating purposes, making and improving boat ramps and moorings, marking of waterways, search and rescue, and all things incident to such purposes including the purchase of real and personal property. The board of county commissioners is also authorized to use and expend funds from the county vessel fund outside the county when the board deems it advisable and for the public good.

(8) Within sixty (60) calendar days of the end of each county fiscal year, the county clerk shall calculate the ending fund balance of the county vessel fund for that fiscal year. If the ending fund balance is higher than the amount of revenues deposited in the county vessel fund from the state vessel account during that fiscal year, then the difference shall be remitted to the state vessel account within thirty (30) calendar days of that calculation. Moneys remitted to the state vessel account, in accordance with the provisions of this section, shall be apportioned to all counties with a boating improvement program so that the amount apportioned to each eligible county will be in the same ratio as the county's amount of funds received from the state vessel account during the prior county fiscal year bears to the total amounts received during that prior county fiscal year by all eligible counties. The provisions of this subsection shall not apply to specific sums of money in county vessel accounts, for which the county commissioners have given written notice, to the department of parks and recreation of an intention to retain those funds for a specific purpose. The notice shall specify the amount of the funds to be held, indicate the purpose for which the funds shall be utilized and provide the date when the funds will be expended. If an amended notice is not submitted by the county commissioners, moneys not expended or contractually committed by the date stated in the original notice of the board of county commissioners shall revert to the state vessel account for distribution as provided in this subsection. All interest earned on moneys invested from a county vessel fund shall return to the county vessel fund.

SECTION 20. That Section 67-7014, Idaho Code, be, and the same is hereby amended to read as follows:

67-7014. ADMINISTRATIVE FEES FOR VESSELS. (1) An administrative fee of not more than one dollar and fifty cents ($1.50) may be collected in addition to each vessel license tax collected under the provisions of section 67-7008, Idaho Code.

(2) When an assessor collects the fees, the administrative fee shall be paid to the county treasurer where the vessel is licensed and be placed in the county current expense fund for the purpose of defraying related administrative costs. The amount of the administrative fee to be collected by an assessor for each vessel shall be set by the respective boards of county commissioners conditioned on the annual budget request of their county assessor for the administration of vessel registration fees.

(3) When an authorized vendor collects the fees, the administrative fee shall be set and retained by the authorized vendor where the vessel is ~~registered~~ numbered. The administrative fee shall be used to defray related administrative costs.

SECTION 21. That Section 67-7029, Idaho Code, be, and the same is hereby amended to read as follows:

67-7029. AGENTS OF THE DEPARTMENT. (1) The assessors of various counties of the state shall be agents of the department and shall perform such duties as are prescribed by law.

(2) The department may authorize any person to act as agent for the issuance of certificates of ~~registration~~ number. In the event a person accepts such authorization, he shall be assigned a block of vessel numbers, validation stickers and certificates of number, which upon issuance in conformity with law and with any rules of the department shall be valid as if

issued directly by an assessor.

SECTION 22. That Section 67-7040, Idaho Code, be, and the same is hereby amended to read as follows:

67-7040. APPLICATION TO CERTAIN VESSELS. (1) The provisions of the vessel titling act shall apply to every 2000 and newer model year vessel upon transfer of ownership, and optionally to all other vessels of a model year prior to 2000, effective on and after January 1, 2000, even though vessels need not be registered under the provisions of chapter 4, title 49, Idaho Code. Vessels shall be issued a certificate of ~~registration~~ number as provided in section 67-7008, Idaho Code.

(2) The provisions of the vessel titling act shall apply exclusively to vessels with a permanently attached mode of propulsion, such as: an inboard motor, sail, personal watercraft, or other propelling machinery, and all vessels over twelve (12) feet regardless of mode of propulsion, except: rowboats, driftboats, canoes, kayaks, inflatable vessels, rafts, barges, nonmotorized paddle vessels, sailboards, tenders, seaplanes, documented vessels, and vessels owned by the United States or a foreign state or political subdivision.

(3) Once titled, the vessel remains a titled vessel, and is subject to the requirements of chapter 5, title 49, Idaho Code.".

March 19, 2014

The Honorable Brad Little
President of the Senate
Idaho Legislature

Dear Mr. President:

I hereby advise you that I have transmitted to the Office of the Secretary of State, with my approval, the following Senate Bill to wit:

S 1311, as amended

within the time prescribed by law, the same having arrived in the Office of the Governor at the hour of 8:05 a.m. on March 14, 2014.

There are strong arguments on both sides of this legislation, yet the overwhelming majorities by which it was approved, the level of support from industry and public organizations and the body of evidence for its efficacy compel me to sign it into law.

That being said, it also is incumbent upon us as public officials to show the greatest of care and vigilance in its implementation and use.

We had an outstanding experience in using the construction manager/general contractor (CM/GC) process for the remodeling of the Idaho Capitol - on time, under budget, and incredibly high quality. However, it is important also to recognize and respect the misgivings that some have expressed about the applicability of this model to some public works projects - especially those undertaken by smaller public entities which may lack the resources for adequate oversight.

The fact that the CM/GC model is so commonly employed by the private sector and in publicly funded projects in a number of states, including four of Idaho's neighbors, gives me a high degree of confidence in its success here. And as I have said before, it is important that we bring the best of successful business principles to bear in our efforts to make government more responsive and efficient.

I have high hopes that Senate Bill 1311 will help us accomplish those goals while maintaining a high level of accountability and transparency in our State government.

As Always - Idaho, *Esto Perpetua*
/s/ C.L. "Butch" Otter
Governor of Idaho

VIA HAND DELIVERY

Dear Mr. Secretary,:

I hereby advise you that I have utilized the line-item veto authority granted to the Governor as provided by Article 4, Section 11 of the Idaho Constitution, to withhold my approval, disapprove and veto the item of appropriation in Section 1, line 15 of

S 1430

which provides the additional appropriations for the compensation of constitutional officers in fiscal year 2015. I have transmitted the bill, so marked, to the Secretary of State, within the time limited by law, the same having arrived in the Office of the Governor at the hour of 4:20 p.m. on March 24, 2014.

While I appreciate the Legislature's intentions in approving a pay increase for the Governor, it is not my desire to accept this increase in the context of having not recommended a similar change in compensation for our valued state employees.

In addition, I hereby advise you that I have transmitted today to the Secretary of State, the following Senate Bill, which was allowed to become law without my signature:

S 1395, as amended in the House

as prescribed by the Constitution.

This legislation establishes in statute the formula for determining the compensation for each of Idaho's constitutional officers over the next four years. With spending authority thus set but the appropriation for the Governor's additional compensation line-item vetoed in S 1430, I intend to donate $1,800 from the Governor's compensation in fiscal 2015 to Bishop Kelly High School. I also encourage my fellow constitutional officers - who likewise did not seek pay increases - to make similar donations from the authorized and appropriated funds allocated for their compensation to the educational institutions of their choice.

Further, I strongly encourage the Legislature in the years to come to reconsider its decision to connect pay for the Attorney General to that of the judiciary. I have serious concerns about a policy linking an Executive Branch salary to a Judicial Branch standard.

As Always - Idaho, *Esto Perpetua*

Governor of Idaho

TOPICAL INDEX
[ALPHABETICALLY ARRANGED]

This Topical Index alphabetically lists subject matter for **ALL** Senate bills, and **ONLY** those House bills introduced in the Senate. Non-legislative subject matter is included and referred to by page number only.

Since the Senate Journal **only** covers the actions of House bills transmitted to the Senate, this topical index does not refer to every House bill introduced in the House. Separate indices in this volume list, in numerical order, all House bills, memorials, resolutions, and proclamations received by the Senate and show action taken by the Senate thereon. If a particular subject matter does not appear in this index, refer to the House Journal Alphabetical Index. Session law numbers for legislation passing both Senate and House, and becoming law, are included for all Senate bills within the Numerical Index Section V.
