The Idaho tax brackets shall be adjusted as follows: multiply the bracket amounts by the percentage (the consumer price index for

1 the calendar year immediately preceding the calendar year to which the ad-
2 justed brackets will apply divided by the consumer price index for calendar
3 year 1998). For the purpose of this computation, the consumer price index
4 for any calendar year is the average of the consumer price index as of the
5 close of the twelve (12) month period for the immediately preceding calendar
6 year, without regard to any subsequent adjustments, as adopted by the state
7 tax commission. This adoption shall be exempt from the provisions of chapter

31 shall apply in computing tax due under this chapter.

33 tax liability for taxpayers at the midpoint of each bracket of Idaho taxable
34 income in fifty dollar (\$50.00) steps to fifty thousand dollars (\$50,000),
35 rounding such calculations to the nearest dollar. Taxpayers having income
