

STATEMENT OF PURPOSE

RS22981C1

Currently information relating to the compensation of any officer, director or employee of insurance companies, as reported to the Idaho State Department of Insurance, is considered confidential under Idaho Code, Section 41-335. This legislation would delete the confidentiality language in the law and thus make available to the public the information regarding compensation of officers, directors, trustees and employees of any health carrier offering policies for sale on the Idaho Health Insurance Exchange or any non-profit health carrier.

FISCAL NOTE

There will be no fiscal impact to the General Fund.
