

STATEMENT OF PURPOSE

RS22777

Currently, sample tastings are allowed for beer and wine, but not for distilled spirits. This legislation would allow manufacturers of distilled spirits to offer sample tastings at the distillery subject to strict restrictions. These restrictions include, but are not limited to, a prohibition from charging for samples, limiting the size of samples, providing the maximum number of samples in a twenty-four hour period, requiring that samples be purchased from the state liquor division and other restrictions. The effective date would be July 1, 2014.

FISCAL NOTE

There should be no impact to the general fund.
