

STATEMENT OF PURPOSE

RS22857C1

In 2003, the legislature passed S1010 which repealed a reporting requirement of the Department of Transportation which could no longer be fulfilled with the existing software. The intention then was to reinstate the requirement on June 20, 2009. In the 2009 legislative session, that date was extended to 2014 with a requirement for an annual report on progress. As the system improvements are still not able to do the cross reference, this bill requests a further delay until June 30, 2017, or until the system is operational, whichever is first.

FISCAL NOTE

None.
