

STATEMENT OF PURPOSE

RS22615

This legislation responds to the inability of the Federal Government of the United States to enact a balanced fiscal budget that is in concert with the total revenue collected by taxes. It seeks to address this continually growing financial problem by requiring a Federal budget that reflects all fiscal expenditures and obligations. This legislation also requests that states act in accordance with Article V of the United States Constitution to form a convention of the states in order to propose and implement a new amendment to the Constitution of the United States of America, which would require, with certain exceptions, that Federal appropriations not exceed the total of all estimated Federal revenues in any fiscal year.
