19 SECTION 1. That Title 67, Idaho Code, be, and the same is hereby amended
20 by the addition thereto of a NEW CHAPTER, to be known and designated as Chap-
21 ter 92, Title 67, Idaho Code, and to read as follows:

22 CHAPTER 92

23 STATE OPPORTUNITY NETWORK ACT

24 67-9201. SHORT TITLE. This chapter shall be known and may be cited as
25 the "State Opportunity Network Act."

26 67-9202. PURPOSE AND INTENT. The purpose of this act is to both es-
27 tablish a statewide information system that meets the needs of Idaho's
28 education system and to create a separate statewide network for Idaho's
29 state agencies and other public interests. First, in regard to the needs of
30 Idaho's public education system, the legislature finds that Idaho benefits
31 from a statewide information system network that is dedicated to education,
32 particularly schools and libraries, and that such network must be imple-
33 mented for the 2016-2017 school year. The legislature therefore creates
34 herein the education opportunity network board, which is charged with im-
35 plementing a statewide network for education. Secondly and separately, the
36 legislature further finds that Idaho will benefit from a statewide coordi-
37 nated information and technology network that provides an interconnected
38 network for Idaho's state agencies and other public interests including,
39 but not limited to, commerce and industry, labor, economic development,
40 health care and resources, local government and other functions of state

1 government. The legislature therefore creates herein a working group to
2 collaborate with stakeholders to develop and implement a comprehensive,
3 coordinated statewide information system.

4 67-9202A. DEFINITIONS. (1) The education opportunity network (EON)
5 is defined as the coordinated, statewide information technology system
6 designed to provide a wide variety of communications, electronic informa-
7 tion applications and other technologies including, but not limited to,
8 high-bandwidth connectivity for the state's public K-12 education system,
9 libraries, and any other E-rate eligible services as defined by the federal
10 communications commission.

11 (2) The Idaho opportunity network (ION) is defined as the statewide co-
12 ordinated information technology network for state agencies and other pub-
13 lic interests including, but not limited to, commerce and industry, labor,
14 economic development, health care and health care-related resources, local
15 government and other functions of state government. The Idaho opportunity
16 network shall be separate and apart from the education opportunity network
17 and shall not provide services to the state's public K-12 education system,
18 libraries and other E-rate eligible entities.

19 (3) The term "school district" shall also include Idaho public charter
20 schools.
