

STATEMENT OF PURPOSE

RS23228

This statutory amendment proposal would provide the administrator of the Division of Building Safety the authority to enter into agreements with vendors and contractors to provide any services that the administrator is required to provide by law. Such authority would allow the administrator the flexibility to utilize third party contractors when it may be more efficient or economical to do so, or when the best interests of the public or the Division require an alternative method of delivering services to the public. It is expected that utilizing such authority in some cases may result in more convenience and enhanced services for DBS customers. Such authority may be used to augment or replace the services already provided by the Division. Additionally, it provides the administrator with the authority to make expenditures and make purchases in accordance with Title 67, Chapter 57, Idaho Code, to effectuate such agreements.

FISCAL NOTE

This legislation will have no adverse fiscal impact.
