

STATEMENT OF PURPOSE

RS23617

This bill will provide the Idaho State Police the clear authority to contract with and receive reimbursement from a private entity when the Idaho State Police provides services to the private entity, if it is deemed necessary to enforce the law or ensure public safety when those services are beyond the usual and customary services provided by the Idaho State Police. These circumstances typically arise from a request by a private entity or when required by another government agency.

FISCAL NOTE

There will be a positive fiscal impact. The Idaho State Police will have clear authority to recover expenses incurred, relating to providing law enforcement services when those services are beyond the usual and customary services provided by the Idaho State Police.
