

STATEMENT OF PURPOSE

RS23628

This bill is a trailer bill to HB 104 which reclassifies litter and debris offenses from misdemeanors to infractions. Review of the statutes disclosed that there was no statutory deterrence for willfully placing debris on highways and streets in a way that impedes traffic or creates a driving hazard. This trailer bill would add a new subsection and create a misdemeanor to address that concern.

FISCAL NOTE

No present fiscal impact. Future impact would depend on future convictions resulting in fines and fees paid related thereto.
