17 In applying these tables to any given separate attendance unit, no
18 school district shall receive less total money than it would receive if it
19 had a lesser average daily attendance in such separate attendance unit. In
20 applying the kindergarten table to a kindergarten program of less days than
21 a full school year, the support unit allowance shall be in ratio to the num-
22 ber of days of a full school year. The attendance of students attending an
23 alternative secondary school in a school district reporting less than one
24 hundred (100) secondary students in average daily attendance shall not be
25 assigned to the alternative secondary table if the student is from a school
26 district reporting less than one hundred (100) secondary students in average
27 daily attendance, but shall instead be assigned to the secondary table of
28 the school district in which they are attending the alternative secondary
29 school, unless the alternative secondary school in question serves students
30 from multiple districts reporting less than one hundred (100) secondary
31 students in average daily attendance. The tables for exceptional educa-
32 tion and alternative school secondary support units shall be applicable
33 only for programs approved by the state department of education following
34 rules established by the state board of education. Moneys generated from
35 computation of support units for alternative schools shall be utilized for
36 alternative school programs. School district administrative and facility
37 costs may be included as part of the alternative school expenditures.

38 (5) State Distribution Factor per Support Unit. Divide educational
39 support program distribution funds, after subtracting the amounts necessary
40 to pay the obligations specified in subsection (2) of this section, by the
41 total state support units to secure the state distribution factor per sup-
42 port unit.

1 (6) District Support Units. The number of support units for each school
2 district in the state shall be determined as follows:

3 (a) (i) Divide the actual average daily attendance, excluding stu-
4 dents approved for inclusion in the exceptional child educational
5 program, for the administrative schools and each of the separate
6 schools and attendance units by the appropriate divisor from the
7 tables of support units in this section, then add the quotients
8 to obtain the district's support units allowance for regular stu-
9 dents, kindergarten through grade 12 including alternative school
10 secondary students. Calculations in application of this subsec-
11 tion shall be carried out to the nearest hundredth.

12 (ii) Divide the combined totals of the average daily attendance
13 of all preschool, kindergarten, elementary, secondary, juvenile
14 detention center students and students with disabilities approved
15 for inclusion in the exceptional child program of the district by
16 the appropriate divisor from the table for computation of excep-
17 tional education support units to obtain the number of support
18 units allowed for the district's approved exceptional child pro-
19 gram. Calculations for this subsection shall be carried out to the
20 nearest hundredth when more than one (1) unit is allowed.

21 (iii) The total number of support units of the district shall
22 be the sum of the total support units for regular students,
23 ~~subsection (6) (a) subparagraph (i) of this section paragraph,~~ and
24 the support units allowance for the approved exceptional child
25 program, ~~subsection (6) (a) subparagraph (ii) of this section~~
26 paragraph.

27 (b) Total District Allowance Educational Program. Multiply the dis-
28 trict's total number of support units, carried out to the nearest hun-
29 dredth, by the state distribution factor per support unit and to this
30 product add the approved amount of programs of the district provided in
31 subsection (2) of this section to secure the district's total allowance
32 for the educational support program.

33 (c) District Share. The district's share of state apportionment is the
34 amount of the total district allowance, ~~subsection (6) paragraph (b) of~~
35 this subsection.

36 (d) Adjustment of District Share. The contract salary of every non-
37 certificated teacher shall be subtracted from the district's share as
38 calculated from the provisions of ~~subsection (6) paragraph (c) of this~~
39 subsection.

40 (7) Property Tax Computation Ratio. In order to receive state funds
41 pursuant to this section a charter district shall utilize a school mainte-
42 nance and operation property tax computation ratio for the purpose of cal-
43 culating its maintenance and operation levy, that is no greater than that
44 which it utilized in tax year 1994, less four-tenths of one percent (.4%). As
45 used herein, the term "property tax computation ratio" shall mean a ratio de-
46 termined by dividing the district's certified property tax maintenance and
47 operation budget by the actual or adjusted market value for assessment pur-
48 poses as such values existed on December 31, 1993. Such maintenance and op-
49 eration levy shall be based on the property tax computation ratio multiplied

1 by the actual or adjusted market value for assessment purposes as such values
2 existed on December 31 of the prior calendar year.

3 SECTION 2. That Section 33-1212, Idaho Code, be, and the same is hereby
4 amended to read as follows:

5 33-1212. ~~ELEMENTARY~~ SCHOOL COUNSELORS. (1) In recognition of the di-
6 verse and complicated demands upon students, their families and the public
7 school system, the legislature finds that ~~the~~ counseling offered at ~~the el-~~
8 ~~ementary Idaho public schools level~~ should be flexible and responsive. For
9 purposes of ~~elementary~~ counselor services, a counselor shall be defined as
10 an individual who meets the requirements of an approved program of gradu-
11 ate study in school guidance and counseling from a college or university ap-
12 proved by the Idaho state board of education and who meets the requirements
13 of rules adopted by the board, or an individual licensed as provided by chap-
14 ter 32, title 54, Idaho Code, as a certified social worker and who meets the
15 requirements of the state board of education.

16 (2) School counselors spend most of their time in direct service to and
17 contact with students. School counselors' duties are focused on the overall
18 delivery of guidance, individual student planning and responsive services.

39 (3) The list of appropriate activities in subsection (2) of this sec-
40 tion is not an exhaustive or an exclusive list. The list illustrates the fun-
41 damental principle that school counselors must be utilized to bring their
42 unique skill sets to the task of counseling students.

 10 (5) The state board of education shall adopt rules to implement the pro-
 11 visions of this section, and shall specifically provide that certified so-
 12 cial workers meet the requirement for elementary school counselors. A local
 13 school district may request a waiver from the state board of education of the
 14 counselor/counseling requirements, provided that data is submitted to and
 15 annually approved by the state department of education to substantiate that
 16 the intent of the board's rules in these areas is being met by an alternative
 17 program model.

 26 purpose of making informed choices and setting postsecondary education and
 27 career goals. The focus of academic and career planning is to help students
 28 acquire the knowledge and skills necessary to achieve academic success and
 29 to be college and career ready upon high school graduation.

30 (2) School districts and charter schools may employ noncertificated

 45 mentors or advisors. All individuals providing services in the role of an
 46 academic and college or career advisor must have a basic level of training or
 47 experience in the area of advising or mentoring to provide such services.

1 (4) School districts shall notify parents or guardians of all students
2 in grades 8 through 12 of the availability of college or career advising pro-
3 vided by the district and how to access such services.

4 (5) School districts shall report annually on the effectiveness of
5 their academic and college or career advising programs in a form and time es-
6 tablished by the state board of education through the promulgation of rules.
