STATEMENT OF PURPOSE

RS23791

The proposed legislation would codify the existing practices of the health districts to exempt non-potentially hazardous foods prepared in a home kitchen, or "Cottage Foods," from regulation under the Food Safety Act. This proposal specifies that such foods would only be able to be sold directly to the consumer and that they would have to be packaged with a label that includes the name, address, and contact information of the producer and statements regarding the non-regulation of the kitchen and possible allergen content.
