

## STATEMENT OF PURPOSE

### RS23835C2

This bill creates a new specialty license for conference centers in designated resort cities. To qualify, a conference center must have at least 4,000 feet of meeting or event space and a commercial kitchen with specified commercial cooking equipment. The bill would allow no more than one such license in any designated resort city, and the license is not transferable. This bill does not impact existing code on conference centers.
