

STATEMENT OF PURPOSE

RS23911

This legislation removes Idaho State Police from the Highway Distribution Account funding formula, and changes the formula to a 40/60 split. Forty percent would go to local units of government as provided in section 40-709 Idaho Code, and 60 % to the state highway account established in section 40-702 Idaho Code.

This proposed legislation also utilizes the budget stabilization mechanism to transfer funds to the State Highway Account.

FISCAL NOTE

Moving ISP out of the highway distribution account funding formula keeps \$16 million in the highway distribution account. The revenue transferred by utilizing the budget stabilization mechanism would potentially transfer a maximum of approximately \$10 million to the State Highway Account.
