

STATEMENT OF PURPOSE

RS23793

Current code provides for the purchase of fire equipment with the proceeds from a bond issue. The added verbiage to this section of code allows for local agencies to procure police equipment through a bond election and issuance as well. For example the City of Coeur d Alene is proceeding with a Public Safety Bond in May and the change to the law will allow for the purchase of both fire and police equipment.

FISCAL NOTE

The change in code will have no fiscal impact to the state and will only impact local agencies of government if electors approve a local bond election.
