DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The Professional Standards Commission (PSC) follows a Strategic Plan of annually reviewing twenty percent (20%) of the Idaho Standards for Initial Certification of Professional School Personnel. These standards are incorporated by reference in rule in IDAPA 08.02.02.004. The following certificates and endorsements were reviewed by committees of content experts: Art, Biology, Chemistry, Communication, Drama, Early Childhood/Early Childhood Special Education Blended Certificate, Earth and Space Science, Economics, Elementary, Generalist, Health, Journalism, Mathematics, Music, Natural Science, Physical Education, and School Social Worker.

All standards and endorsements were revised to better align with national standards and best practices. The proposed endorsement revisions include renaming the “Early Childhood/Early Childhood Special Education Blended Certificate” to “Blended Early Childhood Education/Early Childhood Special Education Certificate” to increase clarity regarding the intent of the certificate. Additionally, the specific Birth through Grade 3 range of the endorsement is now officially being named as an endorsement in rule. A new endorsement will provide Idaho universities the opportunity to prepare their “Blended Early Childhood Education/Early Childhood Special Education Certificate” candidates to teach elementary through Grade 6, to increase the number of teachers who can teach elementary special education by meeting additional requirements.

Two additional Generalist Endorsements will encourage teacher preparation candidates to consider adding a special education endorsement allowing them to specialize in either elementary or secondary grades to help address the need for more special education teachers. In addition, “All Subjects K through 8” endorsement has been added to rule. The name has been added to Elementary Certificates for a number of years to designate what the certificate holder can teach, but it was never officially listed in rule as an endorsement.
The final major change is the recommendation to eliminate the Physical Education/Health endorsement, as it is redundant. The only way to obtain the endorsement is to hold both the Physical Education and Health endorsements, which makes this combined endorsement unnecessary.

**FEE SUMMARY:** The following is a specific description of the fee or charge imposed or increased: None.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year as a result of this rulemaking: N/A

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted. The “Notice of Intent to Promulgate Rules - Negotiated Rulemaking” was published in the April 6, 2016, Idaho Administrative Bulletin, **Volume 16-4, page 21**.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule:

Because of the number of pages within the document, the republication of the text would be unduly cumbersome and expensive. A complete copy of the Idaho Standards for the Initial Certification of Professional School Personnel, incorporated by reference document can be found on our website at [http://www.boardofed.idaho.gov](http://www.boardofed.idaho.gov). The standards manual is currently incorporated by reference in the rule and is being updated from the 2015 edition to the 2016 edition.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the proposed rule, contact Lisa Colón, Director of Certification and Professional Standards, at (208) 332-6886 or lcolon@sde.idaho.gov.

Anyone may submit written comments regarding this proposed rulemaking. All written comments must be directed to the undersigned and must be delivered on or before August 24, 2016. Written comments will also be accepted during the scheduled public hearings.

INCORPORATION BY REFERENCE SYNOPSIS

In compliance with Section 67-5223(4), Idaho Code, the following is a synopsis of the differences between the materials previously incorporated by reference in this rule that are currently of full force and effect and newly revised or amended versions of these same materials that are being proposed for incorporation by reference under this rulemaking.

The following agency of the state of Idaho has prepared this synopsis as part of the proposed rulemaking for the chapter cited here under the docket number specified:

STATE BOARD OF EDUCATION AND STATE DEPARTMENT OF EDUCATION
IDAPA 08.02.02 - Rules Governing Uniformity
Proposed Rulemaking - Docket No. 08-0202-1603

This is a synopsis of the changes to the Idaho Standards for the Initial Certification of Professional School Personnel that are incorporated by reference in IDAPA 08.02.02, “Rules Governing Uniformity,” Subsection 004.01.

The Professional Standards Commission follows a Strategic Plan of annually reviewing twenty percent (20%) of the Idaho Standards for Initial Certification of Professional School Personnel. The following standards were reviewed by committees of content experts and are ready for submission: Art, Biology, Chemistry, Drama, Earth and Space Science, Elementary, Mathematics, Music, Physics, Pre-Service Technology, Science Foundation, and Visual Arts Foundation. All standards and endorsements were revised to better align with national standards and best practices and then presented to the Professional Standards Commission and State Board of Education for consideration.

All of the reviewed standards were updated to reflect the revisions previously made to the Idaho Core Teacher Standards, which resulted in every content area having many changes. All had been reworded, and in some cases renumbered. A list of the additional specific changes made to each of the areas reviewed is below.

**ELEMENTARY**

- Clarified language to ensure it is understood that interventions for students is what is best for the student
- Updated language to match best practices regarding being actively engaged in culturally responsive teaching
- Inserted statements related to age-appropriate digital citizenship and responsibility
- Added verbiage regarding knowledge, practices, concepts, and relationships that elementary teachers need to be prepared to teach, specific to science and mathematics,
as well as being able to design instruction that provides opportunities for students to learn through inquiry and exploration

- Included language to indicate the need for teachers to provide a purpose and context to use communication skills
- Recognized the significance to engaging in collaborative data-driven decision making

**MATHEMATICS**

- Updated language to reflect current mathematics terminology
- Included statements regarding the importance of research-based learning progressions and trajectories, and the ability to plan learning activities that help students progress in their understanding
- Specified concepts that mathematics teachers need to be able to implement in the 6-12 grade curriculum
- Added language to ensure that standards for mathematical practices and the ability to engage students in the use of those practices are embedded in teacher preparation
- Clarified the need for teachers to be able to use mathematical argument and proof
- Emphasized the necessity of being able to apply mathematics to other disciplines
- Inserted language to ensure that teachers are able to use student conceptions and misconceptions to guide and facilitate learning

**PRE-SERVICE TECHNOLOGY STANDARDS**

- The standards review team endeavored to arrive at standards that were comprehensive, research-based, support reciprocity, and promote unique local, regional, and statewide implementations within sound and responsible attention to its fundamental outcomes. Special attention was paid to the recognition that technology-enriched teaching and learning is a continually and rapidly changing process. It was, therefore, important to determine standards that promote the best preparation of teachers to integrate technologies into instruction that continue to be relevant over time and will best suit any school district in Idaho, regardless of its size, location, or resources. In consideration of these variables, as well as careful attention to its correlation to the Idaho Core Teaching Standards, the standards review team recommended that the International Society for Technology in Education (ISTE) Standards for Teachers (2008) be adopted to serve as the Pre-Service Technology Standards.

**SCIENCE**

**Foundation Standards**

- Added language to address the knowledge and utilization of Science and Engineering Practices and Crosscutting Concepts to develop student understanding of Disciplinary Core Ideas
- Included language to address the need for the ability to design and implement lessons and activities that align with Idaho State Science Standards
- Emphasized the need to understand and be able to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems
• Clarified language to ensure that researched based practices are used in scientific inquiry
• Updated verbiage to ensure that safe practices are used in classrooms and laboratories and that such practices are in line with established state and/or national guidelines

Biology

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Currently, Section 3.5 of the Operating Procedures for the Idaho Public Driver Education Programs states public driver education and training instructors shall have a medical examination that meets the Federal Motor Carriers Safety Regulations (49 CFR 391.41-391.49). In March of 2014, the Federal Motor Carriers Safety Regulations began requiring only specifically trained medical providers to perform these physicals, thereby raising the cost to the individual significantly. Department of Transportation physicals are not covered as part of the medical benefit provided by insurance. This rule is intended to update the Operating Procedures for Idaho Public Driver Education Programs to remove the specific requirement to have a Federal Motor Carrier Department of Transportation physical. It would instead allow medical examinations through a physical provided by a certified medical professional. This would satisfy the need for the protection of the public's safety and would also be covered by medical insurance.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year as a result of this rulemaking: N/A

THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 08-0202-1604
(Only Those Sections With Amendments Are Shown.)

004. INCORPORATION BY REFERENCE.
The State Board of Education adopts and incorporates by reference into its rules:

INCORPORATION BY REFERENCE SYNOPSIS

In compliance with Section 67-5223(4), Idaho Code, the following is a synopsis of the differences between the materials previously incorporated by reference in this rule that are currently of full force and effect and newly revised or amended versions of these same materials that are being proposed for incorporation by reference under this rulemaking.

The following agency of the state of Idaho has prepared this synopsis as part of the proposed rulemaking for the chapter cited here under the docket number specified:

STATE BOARD OF EDUCATION AND STATE DEPARTMENT OF EDUCATION
IDAPA 08.02.02 - Rules Governing Uniformity
Proposed Rulemaking - Docket No. 08-0202-1604

This is a synopsis of the changes to the Operating Procedures for the Idaho Public Driver Education Programs that are incorporated by reference in IDAPA 08.02.02, “Rules Governing Uniformity,” Subsection 004.03. These changes are specifically related to the public program instructor requirements.

Currently, Section 3.5 of the Operating Procedures for the Idaho Public Driver Education Programs states public driver education and training instructors shall have a medical examination that meets the Federal Motor Carriers Safety Regulations (49 CFR 391.41-391.49). In March of 2014, the Federal Motor Carriers Safety Regulations began requiring only specifically trained medical providers to perform these physicals, thereby raising the cost to the individual significantly. Department of Transportation physicals are not covered as part of the medical benefit provided by insurance. This rule is intended to update the Operating Procedures for Idaho Public Driver Education Programs to remove the specific requirement to have a Federal Motor Carrier Department of Transportation physical. It would instead allow medical examinations through a physical provided by a certified medical professional. This would satisfy the need for the protection of the public’s safety and would also be covered by medical insurance.

The changes to the Standards for Idaho School Buses and Operations include: the format of school bus specifications as well as the actual specifications, alternative fuels, school bus inspections, general operations, disabilities-special health care, Idaho School Bus Withdrawal from Service Standards, and others. The rule would reflect a new approval date of the Standards for Idaho School Buses and Operations by the State Board of Education.

**FEE SUMMARY:** The following is a specific description of the fee or charge imposed or increased: None.
