

STATEMENT OF PURPOSE

RS24333

The proposed amendments provide clarification that Idaho Code, §33-1212A, is specific to College and Career Advising and not the broader more traditional counseling services that are covered in Idaho Code, §33-1212. Additional amendments require school districts to establish a plan as to how they will address college and career advising for their students and provides for a minimum reporting framework. Annual reporting on college and career advising methods and district established goals will be included in their continuous improvement plan progress reports that are currently outline in Idaho Code, §33-320.

The amendments add additional clarity and sideboards to assure that those funds appropriated for the purpose of college and career advising are used for those specific services.

FISCAL NOTE

There will be no additional fiscal impact for these changes.
