

STATEMENT OF PURPOSE

RS24428

The purpose of this legislation is to provide a process for the Idaho Department of Fish and Game to have an independent entity carry out drawings for tags for controlled hunts. The department shall contract with a private entity to conduct drawings for controlled hunt permits as established by the commission. The drawings must be conducted using a computer program that awards permits based on a random order of selection. The department shall solicit bids for the contract pursuant to Idaho Code.

This would ensure transparency in the drawing process and would provide credibility in the results.

FISCAL NOTE

The estimated cost is approximately \$102,500 depending on the number of applications and the level and type of service desired.
