

SENATE HEALTH & WELFARE COMMITTEE  
Thursday, January 21, 2016

ATTACHMENT 3

# Idaho Department of Environmental Quality

Rules & Standards for Hazardous Waste

Docket No. 58-0105-1501

# Rule Docket Summary

- Annual incorporation by reference
- Current as of July 1, 2015
- See review summary for full details

# Why was rulemaking necessary?

Idaho Code requires DEQ to:

- Enact and carryout the program
- Promulgate rules consistent with federal requirements
- Avoid duplicative, overlapping, or conflicting regulations

# Public Participation

- Public notice of proposed rule in August 2015
- No public hearing requested
- No written comments received
- Board approved rule November 18, 2015
- Public notice of pending rule in December 2015

# Stringency

- Proposed changes are not broader in scope nor more stringent than federal regulations
- Proposed changes do not regulate an activity not regulated by the federal government

# What does the rule do?

- Incorporates the electronic manifest system
- Incorporates revisions to the export provisions of the Cathode Ray Tube Rule
- Responds to vacatur of the Comparable Fuels Rule and Gasification Rule
