

Testimony on HB526

Senate Education Committee

Rob Winslow, IASA

The Idaho Association of School Administrators represents principals, special education directors and superintendents. I am speaking in support of HB526.

IASA supports the Governor's Task Force Recommendations and HB 526 addresses the recommendation on Literacy Proficiency.

The Elementary School Principal Board met 2 weeks ago and are in support of this bill. Schools are already providing reading remediation, informing parents and reporting to the SDE. This bill will allow for more reading intervention hours overall, intervention for students that score a "Basic" and transportation costs as needed.

We look forward to reporting the positive effects of more reading intervention in the future and thank you for your support of HB526.

Thank you Chairman and committee. I will stand for questions.
