AN ACT
RELATING TO OIL AND GAS; AMENDING SECTION 47-329, IDAHO CODE, TO REDESIGNATE THE SECTION; AMENDING SECTION 47-318, IDAHO CODE, TO REDESIGNATE THE SECTION AND TO ADD AND REVISE DEFINITIONS; AMENDING SECTION 47-315, IDAHO CODE, TO REDESIGNATE THE SECTION; AMENDING SECTION 47-328, IDAHO CODE, TO REDESIGNATE THE SECTION AND TO PROVIDE THAT THE WASTE OF OIL AND GAS IS PROHIBITED; AMENDING SECTION 47-327, IDAHO CODE, TO REDESIGNATE THE SECTION AND TO PROVIDE FOR JURISDICTION OVER CERTAIN LANDS; AMENDING SECTION 47-317, IDAHO CODE, TO REDESIGNATE THE SECTION, TO REVISE THE MEMBERSHIP, QUALIFICATIONS AND TERMS OF THE OIL AND GAS CONSERVATION COMMISSION, TO PROVIDE A DUTY FOR THE OIL AND GAS ADMINISTRATOR, TO PROVIDE FOR ADDITIONAL LEGAL COUNSEL AND TO REVISE CODE REFERENCES; AMENDING SECTION 47-319, IDAHO CODE, TO REDESIGNATE THE SECTION AND TO REVISE THE DUTIES OF THE OIL AND GAS CONSERVATION COMMISSION AND THE DEPARTMENT OF LANDS; REPEALING SECTION 47-316, IDAHO CODE, RELATING TO THE WASTE OF OIL AND GAS; AMENDING SECTION 47-320, IDAHO CODE, TO REDESIGNATE THE SECTION, TO REVISE PROVISIONS REGARDING A PERMIT TO DRILL A WELL, TO REVISE CODE REFERENCES AND TO MAKE TECHNICAL CORRECTIONS; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-317, IDAHO CODE, TO PROVIDE REQUIREMENTS FOR DRILLING LOCATIONS; AMENDING SECTION 47-321, IDAHO CODE, TO REDESIGNATE THE SECTION AND TO PROVIDE FOR WELL SPACING REQUIREMENTS; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-319, IDAHO CODE, TO PROVIDE REQUIREMENTS FOR SETBACKS; AMENDING SECTION 47-322, IDAHO CODE, TO REDESIGNATE THE SECTION, TO REMOVE LANGUAGE REGARDING STEM PROGRAM DONATIONS AND OBJECTORS, TO REVISE THE REQUIRED MAJORITY FOR INTEGRATION, TO REMOVE LANGUAGE REGARDING TRADE SECRETS, TO REVISE PROVISIONS REGARDING NONCONSENTING WORKING INTEREST OWNERS, AND TO MAKE TECHNICAL CORRECTIONS; AMENDING SECTION 47-323, IDAHO CODE, TO REDESIGNATE THE SECTION, TO REVISE THE REQUIRED MAJORITY FOR UNIT OPERATION AND TO PROVIDE AN EXCEPTION, TO REVISE A CODE REFERENCE AND TO MAKE TECHNICAL CORRECTIONS; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-322, IDAHO CODE, TO PROVIDE REQUIREMENTS FOR OIL AND GAS METERING SYSTEMS; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-323, IDAHO CODE, TO PROVIDE REQUIREMENTS FOR COMMINGLING PRODUCTION FROM OIL AND GAS WELLS; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-324, IDAHO CODE, TO PROVIDE FOR REPORTING REQUIREMENTS AND TO PROVIDE FOR VIOLATIONS; AMENDING SECTION 47-326, IDAHO CODE, TO REDESIGNATE THE SECTION AND TO MAKE TECHNICAL CORRECTIONS; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-326, IDAHO CODE, TO PROVIDE THAT CERTAIN DATA IS PUBLIC AND SHALL BE AVAILABLE ON THE INTERNET AND TO PROVIDE A PROCEDURE TO CLAIM AN EXEMPTION; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-327, IDAHO CODE, TO PROVIDE FOR CONFIDENTIALITY OF CERTAIN INFORMATION, TO PROVIDE
EXCEPTIONS AND TO PROVIDE PENALTIES FOR VIOLATIONS; AMENDING SECTION 47-324, IDAHO CODE, TO REDESIGNATE THE SECTION, TO PROVIDE FOR DUTIES OF THE OIL AND GAS ADMINISTRATOR AND THE COMMISSION, TO PLACE A MORATORIUM ON CERTAIN RULEMAKING, TO REVISE CODE REFERENCES AND TO MAKE TECHNICAL CORRECTIONS; AMENDING SECTION 47-325, IDAHO CODE, TO REDESIGNATE THE SECTION, TO PROVIDE FOR THE VIOLATION OF COMMISSION ORDERS AND TO MAKE TECHNICAL CORRECTIONS; AMENDING SECTION 47-330, IDAHO CODE, TO REVISE THE DEFINITION OF GROSS INCOME AND TO REVISE THE DISTRIBUTION OF FUNDS COLLECTED BY THE TAX COMMISSION; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-331, IDAHO CODE, TO PROVIDE FOR THE OBLIGATION TO PAY ROYALTIES AND TO PROVIDE FOR TERMS, REQUIREMENTS AND CIVIL REMEDIES; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-332, IDAHO CODE, TO REQUIRE CERTAIN REPORTS TO ROYALTY OWNERS AND TO PROVIDE FOR RECORD RETENTION; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-333, IDAHO CODE, TO AUTHORIZE A CIVIL ACTION BY A ROYALTY OWNER FOR AN ACCOUNTING AND ROYALTY PAYMENT; AMENDING CHAPTER 3, TITLE 47, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 47-334, IDAHO CODE, TO PROVIDE FOR THE USE OF SURFACE LAND BY OWNERS AND OPERATORS AND TO PROVIDE FOR MEDIATION AND A BOND REQUIREMENT; AMENDING SECTION 74-108, IDAHO CODE, TO EXEMPT CERTAIN RECORDS FROM THE OIL AND GAS CONSERVATION COMMISSION AND THE DEPARTMENT OF LANDS FROM PUBLIC RECORDS DISCLOSURE AND TO MAKE TECHNICAL CORRECTIONS; AMENDING SECTION 42-233, IDAHO CODE, TO REVISE A CODE REFERENCE; AMENDING SECTION 42-4003, IDAHO CODE, TO REVISE CODE REFERENCES; PROVIDING SEVERABILITY; DECLARING AN EMERGENCY AND PROVIDING AN EFFECTIVE DATE.

Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. That Section 47-329, Idaho Code, be, and the same is hereby amended to read as follows:

47-329309. TITLE. This act may be cited as the Oil and Gas Conservation Act.

SECTION 2. That Section 47-318, Idaho Code, be, and the same is hereby amended to read as follows:

47-318310. DEFINITIONS. Unless the context otherwise requires, the terms defined in this section shall have the following meaning when used in this act. The use of the plural includes the singular, and the use of the singular includes the plural.

(a1) "Commission" means the oil and gas conservation commission.

(a2) "Confidential well status" refers to a well for which the operator has applied and received confidential status from the commission pursuant to section 47-327, Idaho Code. Information about a confidential well is exempt from disclosure as to the public, but not with regard to the commission or other state authority.

(a3) "Condensate" means the liquid produced by the condensation of a vapor or gas either after it leaves the reservoir or while still in the reservoir.
(4) "Correlative rights" means the opportunity of each owner in a pool to produce his just and equitable share of oil and gas in a pool without waste.

(5) "Department" means the Idaho department of lands.

(6) "End purchaser" means a third-party, arms-length purchaser of oil, gas or condensate that is ready for refining or other use, or a third-party, arms-length purchaser of other fluid or gaseous hydrocarbons that have been separated in a processing facility.

(7) "Exploration" means activities related to the various geological and geophysical methods used to detect and determine the existence and extent of hydrocarbon deposits. The activities related to the search for oil and gas include without limitation aerial, geological and geophysical surveys and studies, seismic work, core drilling and the drilling of test wells.

(8) "Field" means the general area underlaid by one (1) or more pools.

(9) "Gas" means any petroleum hydrocarbon existing in the gaseous phase, including condensate because it originally existed in the gaseous phase natural gas, which is a mixture of hydrocarbons and varying quantities of non-hydrocarbons that exist either in the gaseous phase or in solution with crude oil in natural underground reservoirs.

(10) "Gathering facility" means a facility that receives gathering lines from wells, commingles the produced materials, and then sends those materials to a processing facility. Some dehydration and gas or fluid separation may also occur, but gas and liquid hydrocarbons are not refined enough for sale to the end purchaser.

(11) "Market value" means the price at the time of sale, in cash or on terms reasonably equivalent to cash, for which the oil or gas should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus from either party. The costs of marketing, transporting and processing oil and gas produced shall be borne entirely by the producer, and such cost shall not reduce the producer's severance tax directly or indirectly.

(12) "MCF" means one thousand cubic feet of gas.

(13) "Mineral interest" means the right to explore, drill or produce oil and gas lying beneath the surface of property.

(14) "Natural gas liquids" means hydrocarbons that are gaseous in the reservoir, but will separate out in liquid form at the pressures and temperatures at which separators normally operate. The liquids consist of varying proportions of butane, propane, pentane and heavier fractions, with little or no methane or ethane.

(15) "Natural gas plant liquids" means hydrocarbon compounds in raw gas that are separated as liquids at gas processing plants, fractionating plants, and cycling plants. Natural gas plant liquids obtained include ethane, liquefied petroleum gases (propane and the butanes), and pentanes plus any heavier hydrocarbon compounds. Component products may be fractionated or mixed.

(16) "Occupied structure" means a building with walls and a roof within which individuals live or customarily work.

(17) "Oil" or " means and includes crude oil" means petroleum oil and other hydrocarbons, regardless of gravity, that are produced at the well.
wellhead in liquid form by ordinary production methods and are not the result of gas condensation before or after it leaves the reservoir and the liquid hydrocarbons known as distillate or condensate recovered or extracted from gas.

(18) "Oil and gas" means oil or gas or both. "Oil and gas" refers not only to oil and gas in combination with each other but also generally to oil, gas, casinghead gas, casinghead gasoline, gas-distillate or other hydrocarbons, or any combination or combinations thereof, which may be found in or produced from a common source or supply of oil, oil and gas, or gas-distillate.

(19) "Oil and gas administrator" means the division administrator for oil and gas conservation within the department of lands, as established under section 58-104A, Idaho Code.

(20) "Oil and gas facility" means equipment or improvements used or installed at an oil and gas location for the exploration, production, withdrawal, gathering, treatment or processing of oil or natural gas.

(21) "Oil and gas operations" means operations to explore for, develop or produce oil and gas.

(22) "Operator" means any duly authorized person who is in charge of the development of a lease, pool, or spacing or unitized area, or the operation of a producing well.

(23) "Owner" means the person who has the right to drill into and produce from a pool and to appropriate the oil or gas that he produces therefrom, either for himself or for himself and others.

(24) "Person" means any natural person, corporation, association, partnership, receiver, trustee, executor, administrator, guardian, fiduciary or other representatives of any kind, and includes any government or any political subdivision of any agency thereof. The masculine gender, in referring to a person, includes the feminine and the neuter genders.

(25) "Pool" means an underground reservoir containing a common accumulation of oil or gas or both. Each zone of a structure that is completely separated from any other zone in the same structure is a pool.

(26) "Processing facility" means a facility that refines gas and liquid hydrocarbons so they can be sold to an end purchaser.

(27) "Producer" means the owner of a well or wells capable of producing oil or and gas or both.

(28) "Reservoir" means a subsurface volume of porous and permeable rock in which oil or and gas has may have accumulated.

(29) "Royalty owner" means any owner of an interest in an oil and gas lease that entitles him to share in the production of the oil and gas under the lease.

(30) "Tract" means an expanse of land representing the surface expression of the underlying mineral estate that includes oil and gas rights. A tract:

(a) May be identified by its public land survey system of rectangular surveys that subdivides and describes land in the United States in the public domain and is regulated by the United States department of the interior, bureau of land management;

(b) Is of no particular size;

(c) May be irregular in form;
(d) Is contiguous;
(e) May lie in more than one (1) township or one (1) section;
(f) May have a boundary defined entirely or in part by natural monu-
ments such as streams, divides or straight lines connecting prominent
features of topography; and
(g) May be combined with other tracts to form a lease.

("Uncommitted owner" means one who is not leased or otherwise con-
tractually obligated to the operator.

("Waste" as applied to gas shall include the escape, blowing or re-
leasing, directly or indirectly, into the open air of gas from wells produc-
tive of gas only, or gas in an excessive or unreasonable amount from wells
producing oil or both oil and gas; and the production of gas in quantities or
in such manner as will unreasonably reduce reservoir pressure or unreason-
ably diminish the quantity of oil and gas that might ultimately be pro-
duced; excepting gas that is reasonably necessary in the drilling, complet-
ing and testing of wells and in furnishing power for the production of wells.

("Waste" as applied to oil means and includes underground waste; in-
efficient, excessive or improper use or dissipation of reservoir ener-
gy, including gas energy and water drive; surface waste, open-pit storage
and waste incident to the production of oil in excess of the producer's
above-ground storage facilities and lease and contractual requirements,
but excluding storage (other than open-pit storage) reasonably necessary
for building up and maintaining crude stocks and products thereof for con-
sumption, use and sale; the locating, drilling, equipping, operating or
producing of any well in a manner that causes, or tends to cause, reduction
of the quantity of oil and gas ultimately recoverable from a pool under
prudent and proper operations.

("The use of the plural includes the singular, and the use of the
singular includes the plural "Workover" means an operation in which a well is
reentered for the purpose of maintaining or repairing it.

SECTION 3. That Section 47-315, Idaho Code, be, and the same is hereby
amended to read as follows:

47-315-311. PUBLIC INTEREST. It is declared to be in the public inter-
est to foster, encourage and promote the development, production and uti-
"lization of natural resources of oil and gas in the state of Idaho in such
a manner as will prevent waste; to provide for uniformity and consistency
in the regulation of the production of oil and gas throughout the state of
Idaho; to authorize and to provide for the operations and development of oil
and gas properties in such a manner that a greater ultimate recovery of oil
and gas may be obtained and that the correlative rights of all owners be fully
protected; to encourage, authorize and provide for voluntary agreements for
cycling, recycling, pressure maintenance and secondary recovery operations
in order that the greatest possible economic recovery of oil and gas may be
obtained within the state to the end that the land owners, the royalty own-
ers, the producers and the general public may realize and enjoy the greatest
possible good from these vital natural resources.

SECTION 4. That Section 47-328, Idaho Code, be, and the same is hereby
amended to read as follows:
47-328312. ACT NOT CONSTRUED TO RESTRICT PRODUCTION -- WASTE PROHIBITED. It is not the intent or purpose of this law to require the proration or distribution or the production of oil and gas among the fields of Idaho on the basis of market demand. This act shall never be construed to require, permit, or authorize the commission or any court to make, enter, or enforce any order, rule, regulation or judgment requiring restriction of production due to market demand of any pool or of any well (except as provided in section 47-319315, Idaho Code, hereof) to an amount less than the well or pool can produce without waste in accordance with sound engineering practices. The waste of oil and gas or either of them as defined in this chapter is hereby prohibited.

SECTION 5. That Section 47-327, Idaho Code, be, and the same is hereby amended to read as follows:

47-327313. LANDS SUBJECT TO THIS ACT. This act shall apply to all lands located in the state of Idaho lawfully subject to its police power, and shall apply to, however owned, including any lands owned or administered by any government or any agency or political subdivision thereof, including lands of the United States, or to lands subject to the jurisdiction of the United States over which the state of Idaho has police power, except to the degree that it is inharmonious with the uses, activities or regulations of the United States, and furthermore, the same shall apply to any lands committed to a unit agreement approved by the secretary of the interior or his duly authorized representative, except that the commission may, with respect to such unit agreement, suspend the application of this act or any part of this act so long as the conservation of oil and gas and the prevention of waste as in this act provided is accomplished under such unit agreements, but such suspension shall not relieve any operator from making such reports as may be required by the commission with respect to operations under any such unit agreement.

SECTION 6. That Section 47-317, Idaho Code, be, and the same is hereby amended to read as follows:

47-317314. OIL AND GAS CONSERVATION COMMISSION CREATED -- POWERS -- LIMIT ON LOCAL RESTRICTIONS -- ATTORNEY GENERAL. (1) There is hereby created an oil and gas conservation commission of the state of Idaho within the department of lands. The commission shall consist of five (5) the director of the department of lands, a county commissioner as described in this section, and three (3) members appointed by the governor with the advice and consent of the senate.

(a) The county commissioner shall be from a county where oil and gas are being produced or have been produced within the last ten (10) years and shall be elected by a majority of the county commissioners from such producing counties. The county commissioner shall serve a four (4) year term. A vacancy shall be filled by election for the unexpired term in the same manner provided for election to a full term.

(b) The members appointed by the governor shall serve at the pleasure of the governor. One (1) member and shall be knowledgeable in oil and gas matters, one (1) member shall be knowledgeable in geological matters,
one (1) member shall be knowledgeable in water matters, one (1) member shall be a private landowner who owns mineral rights with the surface in a county with oil and gas activity and one (1) member shall be a private landowner who does not own mineral rights, have a college degree in geosciences or engineering and at least ten (10) years of experience in the oil and gas industry. The governor shall appoint the three (3) technical expert members: one (1) member for a term of four (4) years, one (1) member for a term of three (3) years, and one (1) member for a term of two (2) years. Thereafter, the term of office of each appointed member of the commission shall be four (4) years. A vacancy shall be filled by appointment for the unexpired term in the same manner provided for an appointment to the full term.

(2) The term of office of each appointed member of the commission shall be four (4) years, except that upon July 1, 2013, the governor shall appoint one (1) member for a term of one (1) year, one (1) member for a term of two (2) years, one (1) member for a term of three (3) years and two (2) members for terms of four (4) years. After the initial appointment, the governor shall appoint members to serve in office for a term of four (4) years commencing on July 1. A vacancy shall be filled by appointment for the unexpired term in the same manner provided for an appointment to the full term. On July 1, 2017, the terms of the existing members of the commission appointed under this section shall terminate, with the sole exception that such commission shall decide any administrative actions filed prior to July 1, 2017. Actions filed on and after July 1, 2017, shall be decided by the new commission established under this section.

(3) The commission shall annually elect a chairman and a vice chairman from their membership. Such officers shall hold their respective offices until their successors are elected. If a vacancy occurs in either office, the commission shall elect a member to fill such office for the remainder of the term.

(4) The commission shall meet at least annually and thereafter on dates set by the commission. A majority of the voting members shall constitute a quorum.

(5) The members of the commission appointed by the governor or selected by the county commissioners shall be compensated as provided in section 59-509(n), Idaho Code.

(6) Unless the commission appoints another person to be the secretary of the commission, the director The oil and gas administrator of the department of lands shall be the secretary of for the commission.

(7) The department of lands shall have the power to exercise, under the general control and supervision of the commission, all of the rights, powers and duties vested by law in the commission, except those provided in sections 47-324328 and 47-325329 (e3), Idaho Code.

(8) The commission shall have and is hereby given jurisdiction and authority over all persons and property, public and private, necessary to enforce the provisions of this act, and shall have power and authority to make and enforce rules, regulations and orders, and do whatever may reasonably be necessary to carry out the provisions of this act. Any delegation of authority to any other state officer, board or commission to administer any and all other laws of this state relating to the conservation of oil and gas is hereby
rescinded and withdrawn and such authority is hereby unqualifiedly conferred upon the commission, as herein provided. The commission shall follow procedures on applications as provided in section 47-224328, Idaho Code, except as provided in sections 47-220316(1)(a) and 47-225329(e), Id
data Code.

(9) It is the intent of the legislature to occupy the field of the regulation of oil and gas exploration and production with the limited exception of the exercise of planning and zoning authority granted cities and counties pursuant to chapter 65, title 67, Idaho Code.

(10) To implement the purpose of the oil and gas conservation act, and to advance the public interest in the orderly development of the state's oil and gas resources, while at the same time recognizing the responsibility of local governments to protect the public health, safety and welfare, it is herein provided that:

(a) The commission will notice notify the respective city or county with jurisdiction upon receipt of an application and will remit, entirely, a copy of all application materials.
(b) No ordinance, resolution, requirement or standard of a city, county or political subdivision, except a state agency with authority, shall actually or operationally prohibit the extraction of oil and gas; provided however, that extraction may be subject to reasonable local ordinance provisions, not repugnant to law, which protect public health, public safety, public order or which prevent harm to public infrastructure or degradation of the value, use and enjoyment of private property. Any ordinance regulating extraction enacted pursuant to chapter 65, title 67, Idaho Code, shall provide for administrative permitting under conditions established by ordinance, not to exceed twenty-one (21) days, unless extended by agreement of the parties or upon good cause shown.
(c) No ordinance, resolution, requirement or standard of a city, county or political subdivision, except a state agency with authority, shall actually or operationally prohibit construction or operation of facilities and infrastructure needed for the post-extraction processing and transport of gas and oil. However, such facilities and infrastructure shall be subject to local ordinances, regulations and permitting requirements, not repugnant to law, as provided in chapter 65, title 67, Idaho Code.

(11) The commission may sue and be sued in its administration of this act in any state or federal district court in the state of Idaho having jurisdiction of the parties or of the subject matter.

(12) The attorney general shall act as the legal advisor of the commission and represent the commission in all court proceedings and in all proceedings before it, and in any proceeding to which the commission may be a party before any department of the federal government. The commission may retain additional counsel to assist the attorney general and, for such purpose, may employ any funds available under this act.

SECTION 7. That Section 47-319, Idaho Code, be, and the same is hereby amended to read as follows:

47-319315. LAND SUBJECT TO ACT — AUTHORITY OF COMMISSION. (1) This act shall apply to all lands located in the state, however owned, including
any lands owned or administered by any government or any agency or political subdivision thereof, over which the state under its police power, has jurisdiction.

(2) The commission is authorized and it is its duty to regulate the exploration for and production of oil and gas, prevent waste of oil and gas and to protect correlative rights, and otherwise to administer and enforce this act. It has jurisdiction over all persons and property necessary for such purposes. In the event of a conflict, the duty to prevent waste is paramount.

(2) The commission and the department shall protect correlative rights by administering the provisions of this chapter in such a manner as to avoid the drilling of unnecessary wells or incurring unnecessary expense, and in a manner that allows all operators and royalty owners a fair and just opportunity for production and the right to recover, receive and enjoy the benefits of oil and gas or equivalent resources, while also protecting the rights of surface owners.

(3) The commission is authorized to make such investigations as it deems proper to determine whether action by the commission in discharging its duties is necessary.

(4) The commission is authorized to appoint, as necessary, committees for the purpose of advising the commission on matters relating to oil and gas.

(5) Without limiting its general authority, the commission shall have the specific authority to require:

(a) Identification of ownership of oil and gas wells, producing leases, tanks, plants, structures, and facilities for the transportation or refining of oil and gas;

(b) The taking and preservation of samples and the making and filing with the commission of true and correct copies of well logs and directional surveys both in form and content as prescribed by the commission; provided however, that logs of exploratory or wildcat wells marked confidential shall be subject to disclosure according to chapter 1, title 74, Idaho Code, and shall be kept confidential by the commission for a period of one (1) year from the date of filing the log with the commission. And provided that the commission may use any well logs and directional surveys in any action to enforce the provisions of this chapter or any order or rule adopted hereunder. And provided further, that after four (4) months from the effective date of this act, the commission may require the owner of a well theretofore drilled for oil or gas to file within four (4) months of such order a true and correct copy of the log or logs of such well and findings, if taken or analyzed;

(c) The drilling, casing, operation and plugging of wells in such manner as to prevent: (i) the escape of oil and gas out of one (1) pool into another; (ii) the detrimental intrusion of water into an oil and gas pool that is avoidable by efficient operations; (iii) the pollution of fresh water supplies by oil, gas, or saltwater; (iv) blow-outs, cavings, seepages, and fires; and (v) waste as hereinabove defined in section 47-310, Idaho Code;

(d) The taking of tests of oil and gas wells;

(e) The furnishing of a reasonable performance bond with good and sufficient surety, conditioned upon the performance of the duty to comply
with the requirements of this law and the regulations of the commission
with respect to the drilling, maintaining, operating and plugging of
each well drilled for oil and gas;
(f) That the production from wells be separated into gaseous and liquid
hydrocarbons, and that each be measured by means and upon standards that
may be prescribed by the commission;
(g) That wells not be operated with inefficient gas-oil or water-oil
ratios, and to fix these ratios, and to limit production from wells with
inefficient gas-oil or water-oil ratios;
(h) Metering or other measuring of oil, gas, or product;
(i) That every person who produces oil and gas in the state keep and
maintain for a period of five (5) years complete and accurate records
of the quantities thereof, which records, or certified copies thereof,
shall be available for examination by the commission or its agents at
all reasonable times within said period, and that every such person file
with the commission such reasonable reports as it may prescribe with re-
spect to such oil and gas production. Provided however, that reports
of oil and gas production shall be kept confidential by the commission
and shall be exempt from disclosure pursuant to section 74-107, Idaho
Code, for a period of six (6) months from the date of filing the ini-
tial production report for a well with the commission, and thereafter
all production reports for a well shall be subject to disclosure pur-
suant to chapter 1, title 74, Idaho Code; and
(j) The filing of reports or plats with the commission that it may
prescribe.
(6) Without limiting its general authority, and without limiting the
authority of other state agencies or local government as provided by law, the
commission shall have the specific authority to regulate:
(a) The drilling and plugging of wells and the compression or dehydra-
tion of produced oil and gas, and all other operations for the produc-
tion of oil and gas;
(b) The shooting and treatment of wells;
(c) The spacing or locating of wells;
(d) Operations to increase ultimate recovery, such as cycling of gas,
the maintenance of pressure, and the introduction of gas, water, or
other substances into a producing formation; and
(e) The disposal of saltwater produced water and oil field wastes.
(7) The commission is authorized to classify and reclassify pools as
oil, gas, or condensate pools, or wells as oil, gas, or condensate wells.
(8) The commission is authorized to make and enforce rules, regula-
tions, and orders reasonably necessary to prevent waste, protect correla-
tive rights, to govern the practice and procedure before the commission, and
otherwise to administer this act.
(9) The commission is authorized to share such records or information
with the Idaho geological survey. When any such record or information is ex-
empt from disclosure under the Idaho public records act, section 74-101, et
seq., Idaho Code, the sharing of such record or information between the oil
and gas conservation commission, the Idaho department of lands, the Idaho
geological survey shall not render the shared information subject to disclo-
sure to other persons under the Idaho public records act, section 74-101, et
sec., Idaho Code. Notwithstanding the foregoing, nothing in this section
shall be construed to limit the sharing of such records or information by
the oil and gas commission and the Idaho department of lands with other state
agencies, when authorized by law. The commission shall require the department
to perform the following activities on an annual basis:
(a) Inspect and report on all active well sites and equipment;
(b) Visit and file a report on production and processing facilities;
and
(c) Submit an opinion as to any areas of concern, as identified on in-
spection reports.

SECTION 8. That Section 47-316, Idaho Code, be, and the same is hereby
repealed.

SECTION 9. That Section 47-320, Idaho Code, be, and the same is hereby
amended to read as follows:

47-320316. PERMIT TO DRILL OR TREAT A WELL -- FEES. (1) It shall be
unlawful to commence operations for the drilling or treating of a well for
oil or gas without first giving notice to the commission of intention to
drill or treat and without first obtaining a permit from the commission under
such rules and regulations as may be reasonably prescribed by the commission
and by paying to the commission a filing and service fee as provided by this
section.
(a) Any request for a permit or authorization as set forth in subsection
(3) (a), (b), (c), (d), (e), (f), (g), (m), (n) or (o) of this section
shall be made by application to the department of lands, and processed
as provided in this section.
(b) The department shall notify the applicant within five (5) business
days of receipt of an application if the application is administra-
tively incomplete, and in such notice shall identify missing items to be
supplied in order to make the application complete.
(c) The department shall notify the director of the department of wa-
ter resources regarding permits to drill or treat a well. The director
of water resources shall have ten (10) business days from the date of
receipt of such notification from the department of lands to recommend
conditions he believes necessary to protect fresh water supplies.
(d) Applications submitted under this section shall be posted on the
department of lands' website for ten (10) calendar days for a written
comment period.
(e) The department of lands shall approve or deny the application to
drill or treat a well within fifteen (15) business days of receipt of a
complete application in a timely and efficient manner.
(f) The department's decision made under this section may be appealed
to the commission by the applicant pursuant to the procedure in section
47-324(d), (e), (f) and (g); 328(4) through (7), Idaho Code.
(2) Upon issuance of any permit, a copy thereof, including any limi-
tations, conditions, controls, rules or regulations attached thereto for
the protection of fresh water supplies as required in section 47-319315,
Idaho Code, shall be forwarded to the director of the department of water
resources.
(3) The department shall collect the following fees, which shall be remitted to the state treasurer for deposit in the oil and gas conservation fund and shall be used exclusively to pay the costs and expenses incurred in connection with the administration and enforcement of this chapter:

(a) Application for a permit to drill a well ........................................... $2,000
(b) Application to deepen a well ......................................................... 500
(c) Application to plug and abandon a well, if not completed within one year from issuance of permit to drill a well ................................. 500
(d) Application to treat a well, if separate from an application for a permit to drill a well ................................................................. 1,000
(e) Application to construct a pit, if separate from an application for a permit to drill a well ................................................................. 1,500
(f) Application to directionally drill a well, if separate from an application for a permit to drill a well ......................................................... 1,000
(g) Application for a multiple zone completion, if separate from an application for a permit to drill a well ......................................................... 1,000
(h) Application for an exceptional well location, if separate from an application for a permit to drill a well ................................. 1,300
(i) Application to change the size or shape or location of a spacing unit ......................................................................................... 1,300
(j) Application to establish or amend a field-wide spacing order .1,300
(k) Application for an integration order .......................................................... 1,300
(l) Application for a unitization order ......................................................... 1,300
(m) Application for a seismic operations permit covering less than twelve (12) miles of a 2-D survey ................................. 800
(n) Application for a seismic operations permit covering between twelve (12) miles and twenty-four (24) miles of a 2-D survey, or up to seventy-two (72) square miles of a 3-D survey ........................................... 2,000
(o) Application for a seismic operations permit covering more than twenty-four (24) miles of a 2-D survey, or more than seventy-two (72) square miles of a 3-D survey ........................................... 2,500

SECTION 10. That Chapter 3, Title 47, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 47-317, Idaho Code, and to read as follows:

47-317. DRILLING LOCATIONS. (1) To prevent or assist in preventing the waste of oil and gas, to avoid drilling unnecessary wells or to protect correlative rights, the department may, on its own motion or on the application of an interested person, and after notice and opportunity for hearing, issue an order establishing drilling units on a statewide basis, or for defined areas within the state, or for oil and gas wells drilled to varying depths.

(2) An order establishing drilling units shall comply with section 47-318(2), Idaho Code.

(3) In the absence of an order by the department establishing drilling or spacing units, or authorizing different well density patterns for particular pools or parts thereof, the following requirements shall apply:

(a) Oil wells. Every well drilled for oil shall be located in the center of a drilling unit consisting of a forty (40) acre governmental quarter-quarter section or lot or tract, or combination of lots and tracts
substantially equivalent thereto, with a tolerance of two hundred (200) feet in any direction from the center location.  
(i) No oil well shall be drilled less than nine hundred ninety (990) feet from any other well drilling to and capable of producing oil from the same pool; and  
(ii) No oil well shall be completed in a known pool unless it is located more than nine hundred ninety (990) feet from any other well completed in and capable of producing oil from the same pool.  
(b) Vertical gas wells. Every vertical well drilled for gas shall be located in a drilling unit consisting of either a one hundred sixty (160) acre governmental quarter section or lot or tract, or combination of lots and tracts substantially equivalent thereto, or a six hundred forty (640) acre governmental section or lot or tract, or combination of lots or tracts substantially equivalent thereto. A vertical gas well located on a one hundred sixty (160) acre drilling unit shall have a minimum setback of three hundred thirty (330) feet to the exterior boundaries of the quarter section. A vertical gas well located on a six hundred forty (640) acre drilling unit shall have a minimum setback of six hundred sixty (660) feet to the exterior boundaries of the governmental section.  
(i) No gas well shall be drilled less than nine hundred ninety (990) feet from any other well drilling to and capable of producing gas from the same pool; and  
(ii) No gas well shall be completed in a known pool unless it is located more than nine hundred ninety (990) feet from any other well completed in and capable of producing gas from the same pool.  
(c) Horizontal wells. Every horizontal well drilled shall be located in a drilling unit consisting of a six hundred forty (640) acre governmental section or lot or tract, or combination of lots or tracts substantially equivalent thereto. No portion of the completed interval of a horizontal lateral shall be closer than six hundred sixty (660) feet to a section boundary or uncommitted tract within a unit. Except for wells in federal exploratory units or in secondary units, the completed interval shall be no closer than one thousand three hundred twenty (1,320) feet to any horizontal well or vertical well completed in the same formation.  
(d) Notice. After drilling, testing and completing a well that meets the location requirements in paragraphs (a), (b) or (c) of this subsection, but prior to producing that well, an operator shall provide notice and opportunity for hearing for the proposed drilling unit. In addition to any other notice required by statute or rule, the operator shall provide notice of the proposed drilling unit by certified mail to all uncommitted owners within the proposed drilling unit. All affected owners and royalty owners immediately adjacent to the proposed drilling unit shall have an opportunity for a hearing on the proposed drilling unit. The department may authorize drilling units upon application, notice and an opportunity for hearing as provided in section 47-328, Idaho Code. However, prior to establishing a drilling unit for a well that meets the location requirements in paragraph (a), (b) or (c) of
this subsection, the department may grant a permit to drill that provides only the notice required in section 47-316, Idaho Code.

(b) Larger or smaller than one hundred sixty (160) acres for gas; or

c) Not located within the boundaries of a governmental section, quarter section or quarter-quarter section.

(5) Changes to drilling units may be authorized upon application, notice and an opportunity for hearing as provided in section 47-328, Idaho Code. To authorize a change, the department shall find that such change would assist in preventing the waste of oil and gas, avoid drilling of unnecessary wells, or protect correlative rights. In addition to any other notice required by statute or rule, an operator shall provide proper notice and a copy of the application to all uncommitted owners within the proposed unit and to all other parties an operator reasonably believes may be affected. All affected owners and royalty owners immediately adjacent to the proposed drilling unit shall have an opportunity for a hearing on the proposed drilling unit. In establishing drilling units under this section, the department shall review the drilling unit's size, shape and location based on the application, any supporting exhibits, and evidence introduced at a hearing.

SECTION 11. That Section 47-321, Idaho Code, be, and the same is hereby amended to read as follows:

47-321318. WELL SPACING UNITS. (1) The department shall promptly establish spacing units for each pool except in those pools that have been developed to such an extent that it would be impracticable or unreasonable to establish spacing units at the existing stage of development.

(2) An order establishing spacing units shall specify the size and shape of the units, which shall be such as will, in the opinion of the department, result in the efficient and economical development of the pool as a whole. Any unit established by the department shall be geographic. The geographic boundaries of the unit shall be described in accordance with the public land survey system. Except where circumstances, geologic or otherwise, affecting the orderly development of a pool reasonably require, or as provided in paragraph (b) of this subsection, the size of the spacing units shall not be smaller than the maximum area that can be efficiently and economically drained by one (1) well; provided:

(a) If, at the time of a hearing to establish spacing units, there is not sufficient evidence from which to determine the area that can be efficiently and economically drained by one (1) well, the department may establish temporary spacing units for the orderly development of the pool, pending the obtaining of the information required to determine what the ultimate permanent spacing should be.

(b) Where the federal agency administering federal minerals that would otherwise be included in a spacing unit has not leased or has failed to offer such federal minerals for lease in accordance with 30 U.S.C. section 226 and 43 CFR 3120.1-2(a), auction for at least six (6) months, such
federal minerals may be excluded from the unit upon application or upon
the department's own determination.

(3) Except where circumstances, geologic or otherwise, affecting the
orderly development of a pool reasonably require, spacing units shall be of
approximately uniform size and shape for the entire pool. The department may
establish spacing units of different sizes or shapes for different parts of
a pool or may grant exceptions to the size, \( \rightarrow \) shape or location of any spac-
ing unit or units or may change the sizes or shape of one (1) or more existing
spacing units.

(4) An order establishing spacing units shall direct that no more
than one (1) well shall be drilled to and produced from the common source
of supply on any unit, and shall specify the location for the drilling of a
well thereon, in accordance with a reasonably uniform spacing pattern, with
necessary exceptions for wells drilled or drilling at the time of the fil-
ing of the application. If the department finds that a well drilled at the
prescribed location would not be likely to produce in paying quantities, or
that surface conditions would substantially add to the burden or hazard of
drilling such well, or for other good cause shown, the department is autho-
ized to make an order permitting the well to be drilled at a location other
than that prescribed by such spacing order. Application for an exception
shall be filed with the department and may be granted where it is shown that
good cause for such exception exists and that consent to such exception has
been given by the operators of all drilling units directly or diagonally off-
setting the drilling unit for which an exception is requested, and, as to the
lands upon which drilling units have not been established, by the majority of
mineral interest owners of those lands which would be included in directly
or diagonally offsetting drilling units under said order, if said order were
extended to include such additional lands.

(5) An order establishing spacing units for a pool shall cover all lands
determined or believed to be underlaid by such pool, and may be modified by
the department from time to time to include additional lands determined to
be underlaid by such pool or to exclude lands determined not to be underlaid
by such pool. A pool may be divided into zones and a spacing unit for each
zone may be established if necessary to prevent or assist in preventing waste
of oil and gas, to avoid drilling unnecessary wells, to protect correlative
rights or to facilitate production through the use of innovative drilling
and completion methods. The spacing units within the zone may differ in size
and shape from spacing units in any other zone but may not be smaller than
the maximum area that can be efficiently and economically drained by one (1)
well.

(6) An order establishing spacing units may be modified by the depart-
ment to change the size, \( \rightarrow \) shape or location of one (1) or more spacing
units, or to permit the drilling of additional wells on a reasonably uniform
pattern. An operator may apply for changes to the size, shape or location of
spacing units. The department will review applications to change the size,
shape or location of spacing units.

(7) Upon the filing of an application to establish spacing units, no ad-
ditional well shall be commenced for production from the pool until the or-
der establishing spacing units has been made, unless the commencement of the
well is authorized by order of the department.
SECTION 12. That Chapter 3, Title 47, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 47-319, Idaho Code, and to read as follows:

47-319. SETBACKS. (1) Except as provided in this section, oil and gas wells, tank batteries and gas processing facilities shall not be constructed within three hundred (300) feet of an existing occupied structure, domestic water well, canal, ditch or the natural or ordinary high-water mark of surface waters or within fifty (50) feet of a highway. 

(2) Oil and gas wells, tank batteries and gas processing facilities may be constructed less than three hundred (300) feet but more than one hundred (100) feet from an existing occupied structure, domestic water well, canal or ditch if the operator has obtained the express written permission from the owner of the occupied structure, domestic water well, canal or ditch.

SECTION 13. That Section 47-322, Idaho Code, be, and the same is hereby amended to read as follows:

47-322. INTEGRATION OF TRACTS -- ORDERS OF DEPARTMENT. (a) When two (2) or more separately owned tracts are embraced within a spacing unit, or when there are separately owned interests in all or a part of a spacing unit, the interested persons may integrate their tracts or interests for the development and operation of the spacing unit. In the absence of voluntary integration, the department, upon the application of any owner in that proposed spacing unit, shall order integration of all tracts or interests in the spacing unit for drilling of a well or wells, development and operation thereof and for the sharing of production therefrom. The department, as a part of the order establishing a spacing unit or units, may prescribe the terms and conditions upon which the royalty interests in the unit or units shall, in the absence of voluntary agreement, be deemed to be integrated without the necessity of a subsequent separate order integrating the royalty interests. Each such integration order shall be upon terms and conditions that are just and reasonable.

(b) All operations, including, but not limited to, the commencement, drilling, or operation of a well upon any portion of a spacing unit for which an integration order has been entered, shall be deemed for all purposes the conduct of such operations upon each separately owned tract in the spacing unit by the several owners thereof. That portion of the production allocated to a separately owned tract included in a spacing unit shall, when produced, be deemed, for all purposes, to have been actually produced from such tract by a well drilled thereon.

(c) Each such integration order shall authorize the drilling, equipping, and operation, or operation, of a well on the spacing unit; shall designate an operator for the integrated unit; shall prescribe the time and manner in which all the owners in the spacing unit may elect to participate therein; and shall make provision for the payment by all those who elect to participate therein of the reasonable actual cost thereof, plus a reasonable charge for supervision and interest. Each such integration order shall provide for the five following options:

(1) Working interest owner. An owner who elects to participate as a working interest owner shall pay the proportionate share of the ac-
tual costs of drilling and operating a well allocated to the owner's interest in the spacing unit. Working interest owners who share in the costs of drilling and operating the well are entitled to their respective shares of the production of the well. The operator of the integrated spacing unit and working interest owners shall enter into a joint operating agreement approved by the department in the integration order.

(iib) Nonconsenting working interest owner. An owner who refuses to share in the risk and actual costs of drilling and operating the well, but desires to participate as a working interest owner, is a nonconsenting working interest owner. Nonconsenting working interest owners are entitled to their respective shares of the production of the well, not to exceed one-eighth (1/8) royalty, until the operator of the integrated spacing unit has recovered shall be entitled to recover a risk penalty of up to three hundred percent (300%) of the nonconsenting working interest owner's share of the cost of drilling and operating the well under the terms set forth in the integration order. After all the costs have been recovered by the consenting owners in the spacing unit, the nonconsenting owner is entitled to his respective shares of the production of the well, and shall be liable for his pro rata share of costs as if the nonconsenting owner had originally agreed to pay the costs of drilling and operating the well. The operator of the integrated spacing unit and nonconsenting working interest owners shall enter into a joint operating agreement approved by the department in the integration order.

(iic) Leased. An owner may enter into a lease with the operator of the integrated spacing unit under the terms and conditions in the integration order. The owner shall receive one-eighth (1/8) royalty. The operator of an integrated spacing unit shall pay a leasing owner the same bonus payment per acre as the operator originally paid to other owners in the spacing unit prior to the issuance of the integration order.

(iv) Objector. If an owner objects to any participation or involvement of any kind in the unit, such owner may elect to be an objector. An objecting owner's interest will be deemed leased under the terms and conditions in the integration order. The owner shall receive one-eighth (1/8) royalty. Provided however, an objecting owner may elect to have any funds to which he would otherwise be entitled transferred to the STEM action center.

(vd) Deemed leased. If an owner fails to make an election within the election period set forth in the integration order, such owner's interest will be deemed leased under the terms and conditions in the integration order. The owner shall receive one-eighth (1/8) royalty. The operator of an integrated spacing unit shall pay a leasing owner the same bonus payment per acre as the operator originally paid to other owners in the spacing unit prior to the issuance of the integration order.

If one or more of the owners shall drill, equip and operate, or operate, or pay the costs of drilling, equipping and operating, or operating, a well for the benefit of another person as provided for in an order of integration, then such owners or owner shall be entitled to the share of production from the spacing unit accruing to the interest of such other person, exclusive of
a royalty not to exceed one-eighth (1/8) of the production, until the market
value of such other person's share of the production, exclusive of such royalty,
equals the sum payable by or charged to the interest of such other person. If there is a dispute as to the costs of drilling, equipping, or operating a well, the department shall determine such costs. In instances where a well is completed prior to the integration of interests in a spacing unit, the sharing of production shall be from the effective date of the integration, except that, in calculating costs, credit shall be given for the value of the owner's share of any prior production from the well.

(4) An application for an order integrating the tracts or interests in a spacing unit shall substantially contain and be limited to only the following:

(ia) The applicant's name and address;

(ib) A description of the spacing unit to be integrated;

(ic) A geologic statement concerning the likely presence of hydrocarbons;

(id) A statement that the proposed drill site is leased;

(ie) A statement of the proposed operations for the spacing unit, including the name and address of the proposed operator;

(iff) A proposed joint operating agreement and a proposed lease form;

(ifg) A list of all uncommitted owners in the spacing unit to be integrated under the application, including names and addresses;

(igh) An affidavit indicating that at least fifty-five sixty-seven percent (55.67%) of the mineral interest acres in the spacing unit support the integration application by leasing or participating as a working interest owner;

(ii) An affidavit stating the highest bonus payment paid to a leased owner in the spacing unit being integrated prior to filing the integration application; and

(iii) A resume of efforts documenting the applicant's good faith efforts on at least two (2) separate occasions within a period of time no less than sixty (60) days to inform uncommitted owners of the applicant's intention to develop the mineral resources in the proposed spacing unit and desire to reach an agreement with uncommitted owners in the proposed spacing unit. Provided however, if any owner requests no further contact from the applicant, the applicant will be relieved of further obligation to attempt contact to reach agreement with that owner. At least one (1) contact must be by certified U.S. mail sent to an owner's last known address. If an owner is unknown or cannot be found, the applicant must publish a legal notice of its intention to develop and request that the owner contact the applicant in a newspaper in the county where the proposed spacing unit is located. The resume of efforts should indicate the applicant has made reasonable efforts to reach an agreement with all uncommitted owners in the proposed spacing unit. Reasonable efforts are met by complying with this subsection.

An application shall not be required to be in any particular format. An application shall not be denied or refused for incompleteness if it complies substantially with the foregoing informational requirements.

(e) At the time the integration application is filed with the department, the applicant shall certify that, for uncommitted owners who are un-
known or cannot be found, a notice of the application was published in a newspaper in the county where the proposed spacing unit is located. Each published notice shall include notice to the affected uncommitted owner of the opportunity to respond to the application, and the deadline by which a response must be filed with the department.

(f) The information supplied by the applicant pursuant to subsection (d)(vii) of this section and the names and addresses of the uncommitted owners pursuant to subsection (d)(x) of this section shall be deemed trade secrets and kept confidential by the department until the well is producing in the proposed spacing unit, and thereafter shall be subject to disclosure pursuant to chapter 1, title 74, Idaho Code, provided that the information regarding an uncommitted owner shall be subject to disclosure to that owner.

(46) An operator who has not been able to obtain consent from sixty-seven percent (67%) of the mineral interest acres in the spacing unit may nevertheless apply for an integration order under this section if all of the conditions set forth in this subsection have been met. The department shall issue an integration order, which shall affect only the unit area described in the application, if it finds that the operator has met all of the following conditions:

(a) The operator has obtained consent from at least fifty-five percent (55%) of mineral interest acres;

(b) The operator has negotiated diligently and in good faith for a period of at least one hundred twenty (120) days prior to his application for an integration order; and

(c) The uncommitted owners in the affected unit shall receive from the operator mineral lease terms and conditions that are no less favorable to the lessee than those set forth in section 47-331(2), Idaho Code.

(7) An application for integration shall be subject to the procedures set forth in section 47-324328, Idaho Code.

SECTION 14. That Section 47-323, Idaho Code, be, and the same is hereby amended to read as follows:

47-324321. UNIT OPERATIONS. (1) An agreement for the unit or cooperative development or operation of a field, pool, or part thereof, may be submitted to the department for approval as being in the public interest or reasonably necessary to prevent waste or protect correlative rights. Such approval shall constitute a complete defense to any suit charging violation of any statute of the state relating to trusts and monopolies on account thereof or on account of operations conducted pursuant thereto. The failure to submit such an agreement to the department for approval shall not for that reason imply or constitute evidence that the agreement or operations conducted pursuant thereto are in violation of laws relating to trusts and monopolies.

(2) The department, upon its own determination or upon application of an owner, shall conduct a hearing to consider the need for unit operation of an entire pool or portion thereof, to increase ultimate recovery of oil and gas from that pool or portion thereof. The department shall issue an order requiring unit operation if it finds that:

(a) Unit operation of the pool or portion thereof is reasonably necessary to prevent waste or to protect correlative rights;
(b) Unit operation of the pool or portion thereof is reasonably necessary for maintaining or restoring reservoir pressure, or to implement cycling, water flooding, enhanced recovery, horizontal drilling, de-watering or a combination of these operations or other operations or objectives to be cooperatively pursued with the goal of increasing the ultimate recovery of oil and gas; and

(c) The estimated cost to conduct the unit operation will not exceed the value of the estimated recovery of additional oil and gas resulting from unit operation.

(3) An application for requesting an order providing for the operation as a unit of one (1) or more pools or parts thereof in a field shall contain:

(a) A plat map showing the proposed unit, the existing spacing units, and well(s) within the units;
(b) The names and addresses of all persons owning mineral interests and working interests in the proposed unit;
(c) An affidavit that the applicant, by certified mail, notified all persons owning unleased mineral interests and working interests in the proposed unit at least sixty (60) days prior to filing the application with the department of the applicant's intention to make the application;
(d) A proposed plan of unit operations for the proposed unit that contains the information in subsection (5) of this section; and
(e) A proposed operating agreement that is consistent with the proposed plan of unit operations.

(4) An application for unit operations shall be subject to the procedures set forth in section 47-324328, Idaho Code.

(5) An order for a unit operation must be upon just and reasonable terms and conditions and shall prescribe a plan for unit operations that include all of the following:

(a) A description of the vertical and horizontal limits of the unit area;
(b) A statement of the nature of the operation contemplated;
(c) A provision for the supervision and conduct of the unit operation that designates an operator of the unit and provides a means to remove the operator and designate a successor operator;
(d) A provision to protect correlative rights, allocating to each separately owned tract in the unit area a just and equitable share of the production that is produced and saved from the unit area, other than production used or unavoidably lost in the conduct of the unit operation;
(e) A provision for credits and charges to adjust among working interest owners in the unit area for their interest in wells, tanks, pumps, machinery, materials and equipment that contribute to the unit operation;
(f) A provision establishing how the costs of unit operation, including capital investments and costs of terminating the unit operation, shall be determined and charged to each working interest owner or the interest of each owner, including a provision establishing how, when and by whom the share of unit production allocated to an owner who does not pay the share of those costs charged to that owner or to the interest of that
owner may be sold and the proceeds applied to the payment of that owner's share of those costs, and how accounts will be settled upon termination of the unit;

(g) A provision, if necessary, for carrying or otherwise financing an owner who elects to be carried or otherwise financed, which allows owners who carry or otherwise finance to recover up to three hundred percent (300%) of the unit costs attributed to an owner who elects to be carried or otherwise financed payable out of that owner's share of the production;

(h) A time when the unit operation is to commence and the manner in which, and the circumstances under which, the unit operation is to terminate and the unit is to be dissolved; and

(i) Additional provisions found to be appropriate to carry on the unit operation, to prevent waste and to protect correlative rights.

(6) An order for a unit operation may provide for a unit operation of less than the whole of a pool as long as the unit area is of size and shape reasonably required for that purpose and the conduct thereof will have no significant adverse effect upon other portions of the pool.

(7) The department, upon its own determination or upon the application of an owner, may for good cause terminate a unit operation and dissolve the unit on just and equitable terms. If not terminated earlier, the unit operation shall terminate upon final cessation of production from the pool or unitized portion thereof, the plugging and abandonment of unit wells and facilities, and reclamation of the surface.

(8) An order requiring a unit operation shall not become effective until the plan for unit operations approved by the department has been signed and approved in writing by the owners who, under the department's order, will be required to pay at least fifty-five sixty-seven percent (55.67%) of the costs of the unit operation, and also signed and approved in writing by the working interest owners of at least fifty-five sixty-seven percent (55.67%) of the production of the unit operations, and the department has made a finding in the order that the plan for unit operations has been so approved.

(9) An order providing for unit operation may be amended by an order of the department in the same manner and subject to the same conditions as an original order providing for the unit operation.

(10) The department may issue an order for the unit operation of a pool or pools or parts thereof that includes a unit created by a prior order of the department or by voluntary agreement. This subsequent order, in providing for the allocation of the unit's production, must treat first the unit area previously created as a single tract and then allocate, in the same proportions as those specified in the prior order, the portion of the new unit's production allocated to the previous unit among the separately owned tracts included in the previously created unit area.

(11) The department may approve additions to the unit of portions of a pool not previously included within the unit and may extend the unit area as reasonably necessary to prevent waste or to protect correlative rights. The department may approve exclusions from the unit area as reasonably necessary to prevent waste or to protect correlative rights. An order adding to or excluding from a unit area must be upon just and reasonable terms.
(a) An order that amends a plan of unit operations and adds an area to a previously established unit shall not become effective until the amended plan of unit operations has been signed and approved in writing by the owners who will be required to pay at least **fifty-six** sixty-seven percent (56.7%) of the costs of the unit operation in the area to be added, and also signed and approved in writing by the working interest owners of at least **fifty-six** sixty-seven percent (56.7%) of the production of the unit operations, and the department has made a finding in the order that the plan for unit operations has been so approved.

(b) An order providing for an exclusion from a unit area may not become effective until an amended plan of unit operations excluding an area from the unit has been approved in writing by the owners in the original unit area that are required to pay at least **fifty-six** sixty-seven percent (56.7%) of the costs of unit operations, and also approved in writing by the working interest owners in the original unit area required to pay at least **fifty-six** sixty-seven percent (56.7%) of the production of the unit operations, and the department has made a finding in the order that the plan for unit operations has been so approved.

(12) Operations, including the commencement, drilling or operation of a well upon a portion of a unit area, are deemed conducted on each separately owned tract in the unit area by the owner or owners thereof. That portion of a unit's production allocated to a separately owned tract in a unit area, when produced, is deemed produced from a well drilled on that tract. Operations conducted under an order of the department providing for a unit operation shall constitute fulfillment of expressed or implied obligations of a lease or contract covering lands within the unit area to the extent that compliance with those obligations is not possible without a further order of the department.

(13) That portion of unit production allocated to a tract and the proceeds of sale for that portion are deemed the property and income of the several persons to whom or to whose credit that portion is allocated or payable under the order providing for unit operation.

(14) A division order or other contract relating to a sale or purchase of production from a separately owned tract or combination of tracts remains in force and applies to oil and gas allocated to the tract until terminated in accordance with provisions of the order providing for unit operation, or in accordance with the terms of such division order or other contract.

(15) Except to the extent that all affected parties agree, an order providing for unit operation does not result in a transfer of all or part of a person's title to the oil and gas rights in a tract in the unit area.

(16) Except to the extent that all affected parties agree, all property, whether real or personal, that may be acquired in the conduct of a unit operation hereunder is deemed acquired for the account of the owners within the unit area and is deemed the property of the owners in the proportion that the expenses of the unit operation are charged.

(17) The formation of a unit and the operation of the unit under an order of the department shall not be in violation of any statute of this state relating to trusts, monopolies, contracts or combinations in the restraint of trade.
SECTION 15. That Chapter 3, Title 47, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 47-322, Idaho Code, and to read as follows:

47-322. OIL AND GAS METERING SYSTEMS. (1) Each meter shall be properly constructed, maintained, repaired and operated to continually and accurately register the quantity of oil and gas produced from the well.
(2) The meter shall be installed, used and operated according to industry standards and guidelines promulgated by the American petroleum institute, American gas association, and the gas processors association that are in effect at the time of installation of the meter. If standards conflict, the most current American petroleum institute standard shall apply.
(3) All custody transfer meters and all allocation meters used in the allocation of custody transfer volumes shall be calibrated by a third party at least quarterly in each calendar year. All oil meters shall be calibrated by a third party every six (6) months. The records of calibrations shall be maintained by the operator of the meter for at least five (5) years and copies shall be submitted to the department.

SECTION 16. That Chapter 3, Title 47, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 47-323, Idaho Code, and to read as follows:

47-323. COMMINGLING OF PRODUCTION. A producer shall not, prior to metering, commingle production from two (2) or more oil and gas wells without prior approval from the department after notice and opportunity for hearing.

SECTION 17. That Chapter 3, Title 47, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 47-324, Idaho Code, and to read as follows:

47-324. REPORTING REQUIREMENTS. (1) All reporting parties shall file the applicable reports described in this section to the department within the time frames provided. Each report shall be completed on forms prescribed by the department.
(a) Monthly production report. Operators shall file monthly production reports to properly account for all oil, gas and water production and disposition from each well, including the amounts of oil and gas sold from each well. Production reports shall be filed on the required form before the fifteenth day of the second calendar month following the month of production.
(b) Gathering facility report. Operators of a gathering facility shall file monthly reports concerning the operation of the plant on the required form before the fifteenth day of the second calendar month following the month of operation.
(c) Gas processing plant report. The operator of each plant manufacturing or extracting liquid hydrocarbons, including gasoline, butane, propane, condensate, kerosene or other derivatives from natural gas, or refinery or storage vapors, shall file a report concerning the operation of the plant on the required form before the fifteenth day of the second calendar month following the month of operation.
(d) Monthly transportation and storage report. Each gatherer, transporter, storer or handler of crude oil or hydrocarbon products, or both, shall file monthly reports showing the required information concerning the transportation operations of the gatherer, transporter, storer or handler before the fifteenth day of the second calendar month following the month of operation. The provisions of this subsection shall not apply to the operator of any refinery, processing plant, blending plant or treating plant if the operator of the well has filed the required form.

(e) Monthly purchaser report. Any person who purchases or is entitled to purchase any product that is subject to the state of Idaho severance tax from the producer or operator of a lease located in this state shall file monthly reports to account for the purchase of all hydrocarbons. Purchaser reports shall be filed on the required form before the fifteenth day of the second calendar month following the month in which the hydrocarbons were purchased.

(2) All well test reports. An operator shall file all well test reports within thirty (30) days of completing the well. The reports shall include all oil, gas and water produced during all tests.

(3) Well production potential test reports. Unless otherwise provided for in this section, each operator of producing gas or oil wells shall test each producing well for a twenty-four (24) hour period every six (6) months and shall record all oil, gas and water volumes, including choke size, pressures and any interim bottom hole pressure surveys every six (6) months, resulting from the test on the form.

(4) Logs. An operator shall file all logs, including but not limited to those listed in this subsection, not later than thirty (30) days after the date the log was run, if run:
   (a) An open hole electrical, radioactivity or other similar log, or combination of open hole logs of the operator's choice;
   (b) A gamma ray log from total depth to ground level elevations. The operator may require a shorter-logged interval if it determines that the log is unnecessary or impractical or if hole conditions risk jeopardizing the open hole; and
   (c) A cement bond log across the casing, verifying the formation seal integrity and isolation.

(5) Additional reports. An operator shall file a drilling, completion, workover or plugging report within thirty (30) days of completing or plugging the well.

(6) The department shall report quarterly to the commission on the produced volumes of oil and gas, sales volumes of oil and gas, and the meeting of industry standards.

(7) Should an operator fail to comply with this section, the commission may assess a penalty in accordance with section 47-329(3), Idaho Code, or may order the well or oil and gas facilities to be shut-in, after notice, opportunity to cure, and opportunity for a hearing.

SECTION 18. That Section 47-326, Idaho Code, be, and the same is hereby amended to read as follows:

47-326. FALSIFICATION OF RECORDS -- LIMITATION OF ACTIONS. (a) Any person who, for the purpose of evading this act or any rule, regulation
or order of the commission shall make or cause to be made any false entry in
any report, record, account, or memorandums required by this act, or by any
such rule, regulation or order, or shall omit, or cause to be omitted, from
any such report, record, account, or memorandum, full, true and correct en-
tries as required by this act, or by any such rule, regulation or order, or
shall remove from this state or destroy, mutilate, alter or falsify any such
record, account, or memorandum, shall be guilty of a misdemeanor and, upon
conviction, shall be subject to a fine of not more than five thousand dollars
($5,000) or imprisonment for a term not exceeding twelve (12) months, or to
both such fine and imprisonment.

(b) No suit, action or other proceeding based upon a violation of this
act or any rule, regulation or order of the commission hereunder shall be
commenced unless same shall have been commenced within one (1)
year from date of the alleged violation. Provided however, the provisions
of this subsection shall not apply to actions governed by the provisions of
chapter 52, title 67, Idaho Code.

SECTION 19. That Chapter 3, Title 47, Idaho Code, be, and the same is
hereby amended by the addition thereto of a NEW SECTION, to be known and des-
ignated as Section 47-326, Idaho Code, and to read as follows:

47-326. PUBLIC DATA. (1) Subject only to any applicable provisions of
section 47-327, Idaho Code, the following data is public information that
shall not be considered trade secret information under chapter 8, title 48,
Idaho Code, nor be exempt from public records disclosure under chapter 1, ti-
tle 74, Idaho Code. Except as provided in section 47-327, Idaho Code, the de-
partment shall, upon receipt of the information, make publicly available all
data under this section on its website without requiring any person to submit
a public records request:

(a) All reports required under section 47-324(1) through (5), Idaho
Code, provided that well logs are subject to the provisions of section
47-327, Idaho Code;
(b) All well plats; and
(c) All state-required permits, except confidential seismic data.

(2) The department shall provide complete internet access to all docu-
ments in subsection (1) of this section, not granted confidential status, on
its website by no later than December 31, 2017.

(3) A claim to exempt data from disclosure shall be supported and ac-
accompanied by a specific citation to the law authorizing an exemption from
disclosure and an explanation of how the data meets the standards for being
withheld from disclosure. When a portion of a record or a portion of a page
in that record is subject to disclosure and the other portion is subject to
a claim that it is exempt from disclosure under this chapter or chapter 1,
title 74, Idaho Code, the person making the claim must clearly identify the
portion claimed as exempt and the portion not claimed as exempt from disclo-
sure at the time of submittal.

SECTION 20. That Chapter 3, Title 47, Idaho Code, be, and the same is
hereby amended by the addition thereto of a NEW SECTION, to be known and des-
ignated as Section 47-327, Idaho Code, and to read as follows:
47-327. CONFIDENTIALITY OF WELL AND TRADE INFORMATION. (1) Information that shall be held confidential from the public includes logs of a well granted confidential well status pursuant to subsection (2) of this section, electrical or radioactivity logs, electromagnetic or magnetic surveys, core descriptions and analyses, maps, and other geological, geophysical and engineering information. Seismic data shall remain confidential from all parties at the discretion of the operator due to the nature of purchasing and licensing such data.

(2) An operator may request confidential well status at the time of filing an application for a permit to drill. The information in the application form itself will not be confidential.

(a) Confidential status shall be granted and shall include all pertinent data and information relating to drilling completion and testing the well. Such information shall be kept confidential from the public for a period of one hundred eighty (180) days after completion of the well.

(b) Well test results shall be kept confidential from the public for a period of one hundred eighty (180) days after completion of the test.

(c) No extensions shall be allowed beyond the one hundred eighty (180) day confidentiality period.

(3) An operator may request that well logs for a well with confidential well status be held confidential.

(a) To obtain confidential treatment of a well log, the operator of the well shall place the log in an envelope, noting log readings and marked "confidential."

(b) An operator may request, and the department may grant, an additional six (6) months of confidentiality for well logs.

(c) Confidential status for a well log shall terminate six (6) months after the run date on the log or, in the case of an extension, twelve (12) months after the run date on the log. Confidential status for a well log shall not continue for a period in excess of twelve (12) months from the date the log was run on the well.

(4) The state tax commission, the oil and gas conservation commission, the Idaho geologic survey and other state agencies shall share oil and gas records when necessary for those agencies to carry out their duties assigned by law, regardless of whether the records are held confidential from the public under this section. This sharing of records shall not render the shared records subject to disclosure to the public under the public records act.

(5) All state agencies, state employees, contract personnel, temporary personnel and their agents or affiliates shall be governed by the confidentiality provisions of this section and shall be subject to sections 74-117 and 74-118, Idaho Code, should any information or records protected under statute be disclosed.

SECTION 21. That Section 47-324, Idaho Code, be, and the same is hereby amended to read as follows:

47-324328. RULES FOR COMMISSION -- ADMINISTRATIVE PROCEDURES. (a) The commission shall have authority to hear rulemaking proceedings, complaints filed with it pursuant to this chapter and appeals from the director's oil and gas administrator's decision on an application filed
pursuant to this chapter, and any other matter the commission decides should be heard by the commission. The commission may act on its own motion or upon the petition of any interested person. The commission may prescribe rules governing the procedure before it, subject to the provisions of the administra-
tive procedure act, chapter 52, title 67, Idaho Code. Provided however, that no rulemaking except for that done under section 67-5226, Idaho Code, may be conducted for twelve (12) months beginning on July 1, 2017.

(b2) In all cases where a complaint is made by the commission or any person that any provision of this act, or any rule or order of the commission is being violated, notice the commission shall serve notice of any hearing to be held on such application or complaint, the commission shall serve no-
tice on to the interested parties persons by certified mail, return receipt requested, or in the same manner as is provided in the rules of civil proce-
dure for the service of summons in civil actions. Where the interested party person is unknown or cannot be located, the commission shall serve notice by publishing at least one (1) notice of the hearing to such person in a news-
paper in the county where the affected tract is located. Such notice must be sent, delivered or published, as appropriate, at least five (5) business days before the date of the hearing.

(b3) Except as provided in section 47-322(1)(a), Idaho Code, and subsection (b2) of this section, any request for an order related to oil and gas activities within the commission's jurisdiction, other than a civil penalty proceeding pursuant to section 47-322(2), Idaho Code, or other en-
forcement action by the department of lands or the commission, shall be made by application to the department of lands.

(b4) The department shall notify the applicant within five (5) busi-
ness days of receipt of an application if the application is administra-
tively incomplete, and in such notice shall identify the missing item or items to be supplied in order to make the application complete.

(b5) A decision on the merits of the application shall be made by the director of oil and gas administrator. The director's decision shall not be subject to any motion for reconsideration or further review, except for appeal to the commission provided in subsection (b4) of this section.

(b6) For applications involving an order regarding unit operations or integration of a drilling unit, the department shall send a copy of the application and supporting documents to all known and located un-
committed owners, to all working interest owners within the unit, and to the respective city or county where the proposed unit is located. The mailing shall include notice of the hearing date on which the director of oil and gas administrator will consider the application. The applic-
ation shall be redacted pursuant to section 47-322(f), Idaho Code, and sent by certified mail. Upon request, the applicant shall reimburse the department for actual mailing costs incurred under this subsection. For any uncommitted owners and working interest owners who cannot be located, an applicant shall publish notice of any application for an order once in a newspaper in the county in which the affected property is located, and request the department publish notice on its website within seven (7) calendar days of filing of the complete application. Only an uncommitted owner in the affected unit may file an objection or
other response to the application, and the uncommitted owner shall file
seven (7) calendar days before the hearing date provided in the notice.

(iid) For applications not involving paragraph (iii) of this subsection,
including exceptional locations, any uncommitted owner within
the area defined in the application may file an objection or other re-
sponse to the application, and the uncommitted owner shall file seven
(7) calendar days before the hearing date provided in the notice.

(iv) The director oil and gas administrator shall hear an application
within thirty (30) calendar days of the filing of a complete applic-
ation. Discovery is not permitted. The director oil and gas adminis-
tor shall issue a written decision on any such application within thirty
(30) calendar days of the hearing.

(v) The director's oil and gas administrator's decision on an applic-
ation for an order may be appealed to the commission by the applicant or any
other person who filed an objection or other response to the application within the
time required. An appeal must be filed with the director oil and gas admin-
istrator within fourteen (14) calendar days of the date of issuance of the
director's oil and gas administrator's written decision. The date of is-
issuance shall be three (3) calendar days after the director oil and gas ad-
ministrator deposits the decision in the U.S. mail, or the date on which he
remits a decision electronically. Such appeal shall include the reasons and
authority for the appeal, and shall identify any facts in the record support-
ing the appeal. Any person appealing shall serve a copy of the appeal mate-
rials on any other person who participated in the proceedings below, by cer-
tified mail, or by personal service. Any person who participated in the pro-
ceeding below may file a response to the appeal within five (5) calendar days
of service of a copy of the appeal materials. The appellant shall provide the
director oil and gas administrator with proof of service of the appeal ma-
terials on other persons as required in this section. The commission shall
make a decision based on the record below as set forth in the written submi-
tals of only the appellant and any other participating qualified person, the
director's oil and gas administrator's decision, and any oral argument taken
by the commission at an appeal hearing.

(25) Appeals to the commission shall be heard at the next regularly
scheduled commission hearing, or at a special meeting of the commission if
determined by the commission. In no case will a hearing be later than thirty
(30) days after the filing of an appeal. The commission may take argument
from, but not new testimony of, the appellant and other qualified partici-
pating persons at the hearing. The commission shall make a decision on the
appeal at the hearing and direct the department to issue a written order
within five (5) business days of the hearing. The prevailing party shall
draft a proposed written order and submit it to the department within two (2)
business days. The final order of the commission shall not be subject to any
motion for reconsideration.

(26) If no appeal is filed with the commission within the required time,
the decision of the director oil and gas administrator shall become the final
order.

(27) Judicial review of actions taken by the commission shall be gov-
erned by the provisions of chapter 52, title 67, Idaho Code. Only a person
qualified under subsection (24) of this section who has completed the appeal
procedures set forth in this section shall be considered to have exhausted administrative remedies as required in section 67-5271, Idaho Code.

(10) Each order shall include a reasoned statement in support of the decision, including a concise statement of facts supporting any findings, a statement of available procedures and time limits for appeals. Findings must be based exclusively on materials in the record. The applicant and any participating qualified person shall be served with a copy of the order. The order shall include or be accompanied by a certificate of service.

(11) Every application shall be signed by the applicant or his representa
tive, and his address shall be stated thereon. The signature of the applicant or his representative constitutes a certificate by him that he has read the application and that to the best of his knowledge, information and belief there is good ground to support the same. Each application shall be of such form and content and accompanied by the number of copies required by rule of the commission. Each application shall be accompanied by a fee as established in statute or rule.

SECTION 22. That Section 47-325, Idaho Code, be, and the same is hereby amended to read as follows:

47-325. POWERS OF COMMISSION -- WITNESSES -- PENALTY. (1) The com-
mission shall have the power to summon witnesses, to administer oaths, and to require the production of records, books, and documents for examination at any hearing or investigation conducted by the commission.

(2) In case of failure or refusal on the part of any person to comply with a subpoena issued by the commission, or in case of refusal of any witness to testify as to any matter regarding which he may be interrogated, any district court in the state, upon the application of the commission, may issue an attachment for such person and compel him to comply with such subpoena, and to attend before the commission and produce such records, books, and doc-
uments for examination, and to give his testimony. Such court shall have the power to punish for contempt in the case of disobedience to a like subpoena issued by the court, or for refusal to testify therein.

(3) Any person who violates or fails to comply with any of the pro-
visions of this chapter or any rules or orders made or promulgated hereunder may be assessed a civil penalty by the commission or its duly authorized agent of not more than ten thousand dollars ($10,000) for each violation and shall be liable for reasonable attorney's fees. Each day the violation con-
tinues shall constitute a separate and additional violation, punishable by separate and additional civil penalties in like amount or other like civil penalties as determined by the commission; provided that the civil penalties do not begin to accrue until the date notice of violation and opportunity to be heard are given.

(4) Assessment of a civil penalty may be made in conjunction with any other commission administrative action.

(5) No civil penalty may be assessed unless the person charged was given notice and opportunity for a hearing pursuant to chapter 52, title 67, Idaho Code, which civil penalty begins to accrue no earlier than the date notice of violation and opportunity for a hearing are given.

(6) If the commission is unable to collect such penalty or if any person fails to pay all or a set portion of the civil penalty as determined
by the commission, it may recover such amount by action in the appropriate district court.

(4d) Any person against whom the commission has assessed a civil penalty under the provisions of this section may, within twenty-eight (28) days of the final action by the agency making the assessment, appeal the assessment to the district court of the county in which the violation is alleged by the commission to have occurred pursuant to chapter 52, title 67, Idaho Code.

(5e) All civil penalties collected pursuant to this section shall be remitted to the oil and gas conservation fund.

(4d) Whenever it shall appear that any person is violating or threatening to violate any provision of this act or any rule, regulation, or order made hereunder, the commission may bring a civil action in the name of the state against such person in the district court in the county of the residence of the defendant, or in the county of the residence of any defendant, if there be more than one (1) defendant, or in the county where the violation is alleged to have occurred, to restrain such person from continuing such violation or from carrying out the threat of violation. In such suit, the court may grant injunctions, prohibitory and mandatory, including temporary restraining orders and temporary injunctions. In such suit, the commission may seek damages to recover costs caused by such violation including, but not limited to, costs of well control, spill response and cleanup, restoration of fresh waters, well plugging and abandonment, and reclamation of surface disturbance.

(5e) Nothing in this act, and no suit by or against the commission, and no violation charged or asserted against any person under any provisions of this act, or any rule, regulation or order issued hereunder, shall impair or abridge or delay any cause of action for damages which any person may have or assert against any person violating any provision of this act, or any rule, regulation, or order issued thereunder. Any person so damaged by the violation may sue for and recover such damages as he otherwise may be entitled to receive. In the event the commission shall fail to bring suit to enjoin any actual or threatened violation of this act, or of any rule, regulation or order made hereunder, then any person or party in interest adversely affected and who has, ten (10) days or more prior thereto, notified the commission in writing of such violation or threat thereof and has requested the commission to sue, may, to prevent any or further violation, bring suit for that purpose in the district court of any county in which the commission could have brought suit.

(5e) Any person who knowingly violates any provision of this chapter, or any of the rules promulgated hereunder for carrying out the provisions of this chapter, or who knowingly fails or refuses to comply with any requirements herein specified, or who knowingly interferes with the commission, its agents, designees or employees in the execution or on account of the execution of its or their duties under this chapter or rules promulgated hereunder, shall be guilty of a misdemeanor and upon conviction thereof, shall be fined not more than five thousand dollars ($5,000) or be imprisoned in a county jail for not more than twelve (12) months, or be subject to both such fine and imprisonment.
(q) Nothing in this chapter shall be construed as requiring the com-
mission to report minor violations for prosecution when it believes that the
public interest will be best served by suitable warnings or other adminis-
trative action.

SECTION 23. That Section 47-330, Idaho Code, be, and the same is hereby
amended to read as follows:

47-330. OIL AND GAS CONSERVATION FUND CREATED -- TAX. (1) For the pur-
poses of paying the expenses of administration of this act and for the privil-
eges of extracting oil and gas in this state, there is hereby levied and
imposed on all oil and gas produced, saved and sold or transported from the
premises in Idaho where produced a tax of two and one-half percent (2.5%) of the gross income received by the producer of the oil or gas produced.
"Gross income" shall mean the amount realized by the producer for sale of the
oil or gas, whether the sale occurs at the wellhead or after transporta-
tion of the product, without deduction for marketing, transportation, man-
ufacturing, and processing costs borne by the producer. Where the parties
to the sale are related parties and the sales price is lower than the price
for which that oil or gas could otherwise have been sold to a ready, willing,
and able buyer and where the taxpayer was legally able to sell the oil
or gas to such a buyer, gross income shall be determined by reference to
comparable arms-length sales of like kind, quality, and quantity in the same
field or area. For purposes of this subsection, "related parties" shall be
as defined in section 267 of the Internal Revenue Code, as defined, in sec-
tion 63-3004, Idaho Code. This tax is in addition to all other taxes provided
by law. It shall be the duty of the state tax commission to enforce collect-
ton of this tax and to make such rules as may be necessary, pursuant to the
provisions of chapter 52, title 67, Idaho Code. All money so collected shall
be remitted to the state treasurer for deposit in the oil and gas conserva-
tion fund, which fund is hereby created in the office of the state treasurer
of the state of Idaho.

(2) The persons owning an interest, working interest, royalty inter-
est, payments out of production, or any other interest in the oil and gas, or
in the proceeds thereof, shall be liable for such tax in proportion to their
ownership at the time of production. The tax so assessed and fixed shall
be payable quarterly, monthly, and the sum so due shall be remitted to the
state tax commission, on or before the twentieth of the next month follow-
ing the preceding quarter in which the tax accrued, by the producer on
behalf of himself and all other interested persons. The person remitting the
tax, as herein provided, is hereby empowered and required to deduct from any
amounts due the persons owning an interest in the oil and gas, or in the pro-
cesses thereof, at the time of production a proportionate amount of such tax
before making payment to such persons.

(3) The tax imposed by this section shall apply to all lands in the state
of Idaho, anything in this act to the contrary notwithstanding; provided
however, there shall be exempted from the tax hereinabove levied and as-
sessed the following, to wit:

(a) The interest of the United States of America and the interest of the
state of Idaho and the political subdivisions thereof in any oil or gas or in the proceeds thereof.
(b) The interest of any Indian or Indian tribe in any oil or gas or the proceeds thereof, produced from lands subject to the supervision of the United States.
(c) Oil and gas used in producing operations or for repressuring or recycling purposes.
(4) To the extent that such sections are not in conflict with the provisions of this act, the deficiency in tax and notice of deficiency as well as the collection and enforcement procedures provided by the Idaho income tax act, sections 63-3038, 63-3039, 63-3040, 63-3042 through 63-3065A, 63-3068, 63-3071 and 63-3075 through 63-3078, Idaho Code, shall apply and be available to the state tax commission for enforcement of the provisions of this act and the assessment and collection of any amounts due. Said sections shall for this purpose be considered a part of this act and wherever liens or any other proceedings are defined as income tax liens or proceedings they shall, when applied in enforcement or collection pursuant to this act, be described as an oil and gas tax lien or proceeding.

The state tax commission may be made a party defendant in an action at law or in equity by any person aggrieved by the unlawful seizure or sale of his property, or in any suit for refund or to recover an overpayment, but only the state of Idaho shall be responsible for any final judgment secured against the state tax commission, and said judgment or any other amount erroneously or illegally collected shall be paid or satisfied out of the state refund account created by section 63-3067, Idaho Code.

(5) All moneys collected under this chapter shall be distributed by the state tax commission as follows:

(a) An amount of money shall be distributed to the state refund account sufficient to pay current refund claims. All refunds authorized under this chapter by the state tax commission shall be paid through the state refund account, and those moneys are continuously appropriated.
(b) For the balance of the proceeds, forty percent (40%) shall be distributed by the end of the month following each quarterly due date by the state tax commission into any oil and gas revenue share account as follows:

(i) Twenty-eight Forty-four percent (28.44%) is hereby appropriated and shall be paid to the current expense fund of the county from which the oil or gas was produced, to be used to mitigate the impacts associated with oil and gas production, development and transportation in that county;
(ii) Twenty-eight percent (28%) is hereby appropriated and shall be paid to the cities within the county from which the oil or gas was produced. Such funds shall be distributed to each city based upon the proportion that the city's population bears to the total population of all of the cities within the county; and
(iii) Twenty-eight percent (28%) is hereby appropriated and shall be paid to the public school income fund;
(iv) Sixteen percent (16%) shall be transferred to the local economic development account that is hereby created in the agency asset fund to provide assistance in those counties experiencing a severe economic hardship due to the cutback or closure of business and industry associated with oil and gas production.
(c) The remainder of the moneys deposited into the oil and gas conservation fund, sixty percent (60%) of the proceeds after refunds, may be expended pursuant to legislative appropriation and shall be used for defraying the expenses of the oil and gas conservation commission in carrying out the provisions of this act. At the beginning of each fiscal year, those moneys in the oil and gas conservation fund, after applicable refunds and distribution as noted in paragraphs (a) and (b) of this subsection, that exceed two hundred percent (200%) of the current year's appropriations for the oil and gas conservation commission shall be transferred to the general fund. The oil and gas conservation commission shall audit all bills for salaries and expenses incurred in the enforcement of this act that may be payable from the oil and gas conservation fund that shall be audited, allowed and paid as to the claims against the state.

SECTION 24. That Chapter 3, Title 47, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 47-331, Idaho Code, and to read as follows:

47-331. OBLIGATION TO PAY ROYALTIES AS ESSENCE OF CONTRACT -- INTEREST. (1) The obligation arising under an oil and gas lease to pay oil and gas royalties to the royalty owner or the owner's assignee, to deliver oil and gas to a purchaser to the credit of the royalty owner or the owner's assignee, or to pay a portion of the proceeds of the sale of the oil and gas to the royalty owner or the owner's assignee is of the essence in the lease contract.

(2) Unless otherwise agreed by the parties:
   (a) A royalty of no less than twelve and one-half percent (12.5%) of the oil and gas or natural gas plant liquids produced and saved shall be paid. The lessee shall make payments in legal tender unless written instructions for payment in kind have been provided.
   (b) Royalty shall be due on all production sold from the leased premises except on that consumed for the direct operation of the producing wells and that lost through no fault of the lessee.
   (c) Where royalties are paid in legal tender, the lessee shall bear the entire costs of marketing, transporting and processing oil and gas or natural gas plant liquids, or all of them, and such cost shall not reduce the lessor's royalty directly or indirectly.

(3) If the operator under an oil and gas lease fails to pay oil and gas royalties to the royalty owner or the owner's assignee within one hundred twenty (120) days after the first production of oil and gas under the lease is marketed, or within sixty (60) days for all oil and ninety (90) days for all gas produced and marketed thereafter, the unpaid royalties shall bear interest at the maximum rate of interest authorized under section 28-22-104(1), Idaho Code, from the date due until paid. Provided, however, that whenever the aggregate amount of royalties due to a royalty owner for a twelve (12) month period is less than one hundred dollars ($100), an operator may remit the royalties on a semiannual basis without any interest due, and whenever the aggregate amount of royalties due to a royalty owner for a one (1) year period is less than ten dollars ($10.00), the operator may remit the royalties on an annual basis without any interest due.
(4) A royalty owner seeking a remedy for failure to make payments under the lease or seeking payments under this section may file a complaint with the commission or may bring an action in the district court pursuant to section 47-333, Idaho Code. The prevailing party in any proceeding brought under this section is entitled to recover court costs and reasonable attorney's fees.

(5) This section does not apply if a royalty owner or the owner's assignee has elected to take the owner's or assignee's proportionate share of production in kind or if there is a dispute as to the title of the minerals or entitlement to royalties, the outcome of which would affect distribution of royalty payments.

SECTION 25. That Chapter 3, Title 47, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 47-332, Idaho Code, and to read as follows:

47-332. REPORTS TO ROYALTY OWNERS. (1) Each royalty payment shall be accompanied by an oil and gas royalty check stub that includes the following information:

(a) Lease or well identification;
(b) Month and year of sales included in the payment;
(c) Total volumes of oil, condensate, natural gas liquids or other liquids sold in barrels or gallons, and gas in MCF;
(d) Price per barrel, gallon, or MCF, including British thermal unit adjustment of gas sold;
(e) Severance taxes attributable to said interest;
(f) Net value of total sales attributed to such payment after deduction of severance taxes;
(g) Owner's interest in the well, expressed as a decimal to eight (8) places;
(h) Royalty owner's share of the total value of sales attributed to the payment before any deductions;
(i) Royalty owner's share of the sales value attributed to the payment, less the owner's share of the severance taxes;
(j) An itemized list of any other deductions;
(k) The end purchaser of products or refinery and price paid by such purchaser; and
(l) An address at which additional information pertaining to the royalty owner's interest in production may be obtained and questions may be answered. If information is requested by certified mail, an answer must be mailed by certified mail within thirty (30) days of receipt of the request.

(2) All revenue decimals shall be calculated to at least eight (8) decimal places.
(3) All oil and gas volumes shall be measured by certified and proved meters.
(4) The lessee must maintain, for a period of five (5) years, and make available to the lessor upon request, copies of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of the amount produced and put into pipelines, tanks, or
pools and gas lines or gas storage, and any other reports or records that the
lessor may require to verify the gross production, disposition and market
value.

SECTION 26. That Chapter 3, Title 47, Idaho Code, be, and the same is
hereby amended by the addition thereto of a NEW SECTION, to be known and des-
ignated as Section 47-333, Idaho Code, and to read as follows:

47-333. ACTION FOR ACCOUNTING FOR ROYALTY. (1) Whenever an owner of a
royalty interest makes a written demand for an accounting of the oil and gas
produced, but no more frequently than once every twenty-four (24) months,
and makes written demand for delivery or payment of his royalty as may then
be due upon the person or persons obligated for the delivery or payment of the
royalty, and the obligated persons then fail to make the accounting demanded
and the payment or delivery of the royalty due within a period of ninety (90)
days following the date upon which the demand is made, then the royalty owner
may file an action in the district court of the county wherein the lands are
located to compel the accounting demanded and to recover the payment or de-
delivery of the royalty due against the person or persons obligated.

(2) In such an action, the prevailing party or parties shall be entitled
to reasonable attorney's fees to be allowed by the court, together with the
costs allowed to a prevailing party, pursuant to section 12-120, Idaho Code.

(3) The remedies under this section are not exclusive and do not abro-
gate any right or remedy under other laws of this state.

SECTION 27. That Chapter 3, Title 47, Idaho Code, be, and the same is
hereby amended by the addition thereto of a NEW SECTION, to be known and des-
ignated as Section 47-334, Idaho Code, and to read as follows:

47-334. USE OF SURFACE LAND BY OWNER OR OPERATOR. (1) For the purposes
of this section, the following definitions shall apply:
(a) "Surface land" means land upon which oil and gas operations are con-
ducted.
(b) "Crops" means any growing vegetative matter used for an agricul-
tural purpose, including forage for grazing and domesticated animals.
(c) "Surface landowner" means a person who owns all or part of the sur-
face land as shown by the records of the county in which the surface land
is located. Surface landowner does not include the surface landowner's
lessee, renter, tenant or other contractually related person.
(d) "Surface landowner's property" means a surface landowner's surface
land, crops on the surface land and existing improvements on the surface
land.
(e) "Surface use agreement" means an agreement between an owner or
operator and a surface landowner addressing the use and reclamation of
surface land owned by the surface landowner and compensation for damage
to the surface land caused by oil and gas operations that result in loss
of the surface landowner's crops on the surface land, loss of value of
existing improvements owned by the surface landowner on the surface
land and permanent damage to the surface land.

(2) An owner or operator may:
(a) Enter onto surface land under which the owner or operator holds rights to conduct oil and gas operations; and

(b) Use the surface land:
   
   (i) To the extent reasonably necessary to conduct oil and gas operations; and
   (ii) Consistent with allowing the surface landowner the greatest possible use of the surface landowner's property, to the extent that the surface landowner's use does not interfere with the owner's or operator's oil and gas operations.

(3) Except as is reasonably necessary to conduct oil and gas operations, an owner or operator shall:

   (a) Mitigate the effects of accessing the surface landowner's surface land;
   (b) Minimize the interference with the surface landowner's use of the surface landowner's property; and
   (c) Compensate a surface landowner for unreasonable:

      (i) Loss of a surface landowner's crops on the surface land;
      (ii) Loss of value to existing improvements owned by a surface landowner on the surface land; and
      (iii) Permanent damage to the surface land.

(4) For the purposes of this section, an owner or operator is not required to:

   (a) Obtain location or spacing exceptions from the department or commission; or
   (b) Utilize directional or horizontal drilling techniques that are not:

      (i) Technologically feasible;
      (ii) Economically practicable; or
      (iii) Reasonably available.

(5) The provisions of subsection (2) of this section do not apply to the extent that they conflict with or impair a contractual provision relevant to an owner's or operator's use of surface land for oil and gas operations.

(6) (a) The provisions of this section do not prevent:

      (i) A person from seeking a remedy allowed by law; or
      (ii) An owner or operator and a surface landowner from addressing the use of surface land for oil and gas operations through a lease, a surface use agreement or another written contract.

   (b) An agreement described in paragraph (a)(ii) of this subsection shall control:

      (i) The use of surface land for oil and gas operations; and
      (ii) Compensation for damage to the surface land caused by oil and gas operations.

(7) A nonbinding mediation may be requested by a surface landowner and an owner or operator by providing written notice to the other party if they are unable to agree on the amount of damages for unreasonable crop loss on the surface land, unreasonable loss of value to existing improvements owned by the surface landowner on the surface land, or unreasonable permanent damage to the surface land. A mediator may be mutually selected by a surface landowner and an owner or operator. The surface landowner and the owner or operator shall equally share the cost of the mediator's services. The medi-
ation provisions of this section do not prevent or delay an owner or operator from conducting oil and gas operations in accordance with applicable law.

(8) A surface use bond shall be furnished to the department by the owner or operator in accordance with the following provisions:

(a) A surface use bond does not apply to surface land where the surface landowner is a party or a successor of a party to:

(i) A lease of the underlying privately owned oil and gas;

(ii) A surface use agreement applicable to the surface landowner's surface land; or

(iii) A contract, waiver or release addressing an owner's or operator's use of the surface landowner's surface land.

(b) The surface use bond shall be in the amount of six thousand dollars ($6,000) per well site and shall be conditioned upon the performance by the owner or operator of the duty to protect a surface landowner against unreasonable loss of crops on surface land, unreasonable loss of value of existing improvements, and unreasonable permanent damage to surface land.

(c) The surface use bond shall be furnished to the department on a form designed by the department after good faith negotiation and prior to the approval of the application for a permit to drill. The mediation process identified in this section may commence and is encouraged to be completed. The department may accept a surface use bond in the form of a cash account or a certificate of deposit. Interest will remain within the account. The department may allow the owner or operator, or a subsequent owner or operator, to replace an existing surface use bond with another bond that provides sufficient coverage. The surface use bond shall remain in effect by the operator until released by the department.

(d) The surface use bond shall be payable to the department for the use and benefit of the surface landowner, subject to this section. The surface use bond shall be released to the owner or operator after the department receives sufficient information that:

(i) A surface use agreement or other contractual arrangement has been reached;

(ii) Final resolution of the judicial appeal process for an action for unreasonable damages has occurred and damages have been paid; or

(iii) Plugging and abandonment of the well is completed.

(e) The department shall make a reasonable effort to contact the surface landowner prior to the department's release of the surface use bond.

SECTION 28. That Section 74-108, Idaho Code, be, and the same is hereby amended to read as follows:

74-108. EXEMPTIONS FROM DISCLOSURE -- ARCHAEOLOGICAL, ENDANGERED SPECIES, LIBRARIES, LICENSING EXAMS. The following records are exempt from disclosure:

(1) Records, maps or other records identifying the location of archaeological or geophysical sites or endangered species, if not already known to the general public.
(2) Archaeological and geologic records concerning exploratory drilling, logging, mining and other excavation, when such records are required to be filed by statute for the time provided by statute.

(3) Documents and data related to oil and gas production submitted to the department of lands or the oil and gas conservation commission under the provisions of chapter 3, title 47, Idaho Code, provided that the records qualify for confidential status under section 47-327, Idaho Code, under the conditions and for the time provided by statute.

(4) The records of a library which, when examined alone, or when examined with other public records, would reveal the identity of the library patron checking out, requesting, or using an item from a library.

(5) The material of a library, museum or archive that has been contributed by a private person, to the extent of any limitation that is a condition of the contribution.

(6) Test questions, scoring keys, and other data used to administer a licensing examination, employment, academic or other examination or testing procedure before the examination is given if the examination is to be used again. Records establishing procedures for and instructing persons administering, grading or evaluating an examination or testing procedure are included in this exemption, to the extent that disclosure would create a risk that the result might be affected.

(7) Land management plans required for voluntary stewardship agreements entered into pursuant to law and written agreements relating to the conservation of all species of sage grouse entered into voluntarily by owners or occupiers of land with a soil conservation district.

SECTION 29. That Section 42-233, Idaho Code, be, and the same is hereby amended to read as follows:

42-233. LOW TEMPERATURE GEOTHERMAL RESOURCE. (1) The right to the use of low temperature geothermal resources of this state shall be acquired by appropriation, except as provided in subsection (2) of this section. The appropriation may be perfected by means of the application, permit and license procedure as provided in this chapter for ground water, provided that low temperature geothermal resources shall be utilized primarily for heat value and secondarily for the value as water. Usage of a low temperature geothermal resource primarily for reasons other than heat value is not a beneficial use of the resource, unless the director of the department of water resources exempts the proposed use. The director may exempt a proposed use if the director finds that the proposed use satisfies the following criteria: (i) there is no feasible alternative use of the resource; (ii) there is no economically viable source of water having a bottom hole temperature of eighty-five (85) degrees or less in a well available; and (iii) the exemption is in the public interest.

(2) The use of low temperature geothermal resources for the development and operation of oil and gas wells permitted under section 47-320316, Idaho Code, shall not be subject to the provisions of this chapter. However, the director of the department of water resources may initiate a contested case in accordance with the provisions of chapter 52, title 67, Idaho Code, and the rules of procedure promulgated by the department, if the department has reason to believe that an oil and gas well will cause, is caus-
ing or has caused, significant negative impacts to pressure, temperature,
quality necessary for beneficial use or quantity of water available to wa-
ter rights existing at the time of the development of the oil and gas well or
to a water resource that can be beneficially used. The evidence of causation
must come from the department or be credible information from a water right
or a geothermal resource permit holder existing at the time of the develop-
ment of the oil and gas well. It shall be the burden of the entity operating
the oil and gas well to establish that it will not cause, is not causing and
has not caused significant negative impacts to pressure, temperature, qual-
ity necessary for beneficial use or quantity of water available to existing
water rights existing at the time of the development of the oil and gas well
or to a water resource that can be beneficially used. If the director deter-
mines that the well will cause, is causing or has caused significant nega-
tive impacts to pressure, temperature, quality necessary for beneficial use
or quantity of water available to a water right existing at the time of the
development of the oil and gas well or to a water resource that can be benefi-
cially used, the director may order the operator to take measures to mitigate
those impacts.

(3) Any owner of a well who engages in the drilling, redrilling, mod-
ifying or deepening of any low temperature geothermal well shall file with
the director of the department of water resources a surety bond or cash bond
in the penal sum of not less than five thousand dollars ($5,000) or more than
twenty thousand dollars ($20,000) as determined by the director of the de-
partment of water resources based on the temperature, depth and pressure of
the resource, the size and depth of the well, and any other relevant factors.
The surety or cash bond shall be conditioned upon the proper compliance with
the provisions of this chapter and chapter 40, title 42, Idaho Code, and
rules and regulations promulgated pursuant thereto. The bond shall remain
in effect for one (1) year following completion of drilling, redrilling,
modifying or deepening of the well or until released in writing by the direc-
tor, whichever occurs first.

(4) All permits, licenses, decreed rights and valid claims to a right
to the use of ground water which would be classified as a low temperature
geothermal resource having a priority date prior to July 1, 1987, remain
valid and the bond provisions of subsection (3) of this section are not ap-
licable unless the well from which the right diverts water is modified or
deepened. The provisions of this section shall not be applicable to all
permits, licenses and rights to the use of geothermal resources as defined in
chapter 40, title 42, Idaho Code, which would be classified as a low temper-
ature geothermal resource under this section, issued or proclaimed prior to
July 1, 1987, and the bond provisions of subsection (3) of this section are
not applicable to such wells.

SECTION 30. That Section 42-4003, Idaho Code, be, and the same is hereby
amended to read as follows:

42-4003. PERMITS -- APPLICATION -- FEE -- EXCEPTIONS. (1) Any person
who, as owner or operator, proposes to construct a well or to alter a well or
to construct or to alter an injection well shall first apply to the director
for a geothermal resource well permit, except as provided in subsection (2)
of this section.
(2) The use of ground water classified as a geothermal resource or material medium for the development and operation of oil and gas wells permitted under section 47-220316, Idaho Code, shall not be subject to the provisions of this chapter. However, the director of the department of water resources may initiate a contested case in accordance with the provisions of chapter 52, title 67, Idaho Code, and the rules of procedure promulgated by the department, if the department has reason to believe that an oil and gas well will cause, is causing or has caused, significant negative impacts to pressure, temperature, quality necessary for beneficial use or quantity of water available to water rights existing at the time of the development of the oil and gas well or to a geothermal resource that can be beneficially used. The evidence of causation must come from the department or be credible information from a water right holder or a geothermal resource permit holder existing at the time of the development of the oil and gas well. It shall be the burden of the entity operating the oil and gas well to establish that it will not cause, is not causing and has not caused significant negative impacts to pressure, temperature, quality necessary for beneficial use or quantity of water available to existing water rights existing at the time of the development of the oil and gas well or to a geothermal resource that can be beneficially used, the operator to take measures to mitigate those impacts.

(3) Such application required pursuant to subsection (1) of this section shall set out the following information on a form or forms prescribed by the department:

(a) The name of any person making the application; if such person is a partnership, joint-venture, association, or other unincorporated group of corporate or natural persons, the names and places of domicile of each of the constituent persons who have general partnership responsibility and authority for and in such unincorporated group of persons; if any person named on a permit application is a corporation, its place of domicile, the names and places of domicile of its principal executive officers, and the names and places of domicile of any person or persons owning a thirty percent (30%) or greater interest, whether legal, beneficial, or a combined legal and beneficial interest, in such corporate person; if the applicant is making an application as an agent for any other person, it shall be clearly so stated and any person who is the applicant's principal shall be subject to each and all of the disclosure requirements of this subsection; for purposes of this subsection, the domicile of a corporation is at all of the following:

(i) The place of incorporation;
(ii) The principal place of business;
(iii) The place, by city and state, of the home office, and in any instance where domicile is required to be disclosed all of these places shall be specified.
(b) The location of the proposed well; and/or the injection well described particularly by the quarter-quarter section according to the township and range system of the United States public lands survey.

(c) The length, size, type, and thickness of casing proposed to be used in such well and/or such injection well and any other devices or techniques to be used in the drilling, operation, and maintenance of such well and/or injection well for the purpose of conserving geothermal resources and their availability, avoiding waste and for the protection of other subsurface natural resources.

(d) The character and composition of the material expected to be derived from such well.

(e) The means proposed to be used to contain and manage the material expected to be derived from such well or injected into such injection well in order to avoid unreasonable damage to life, property, or surface and atmospheric natural resources.

(f) Whether such well or such injection well is proposed to be constructed as a part of a program for exploration or for development of an already explored geothermal resource area.

(g) Such other information as the director may determine to be necessary for the administration of this chapter.

(4) Any application for a permit to construct a well which is made pursuant to this section, if the construction or operation of such well will involve the use of water, or if such well may be expected to yield water to be used, for any beneficial purpose, other than as a mineral source, an energy source, or otherwise as a material medium, shall be accompanied by an application to appropriate the public waters of this state in the form prescribed in chapter 2, title 42, Idaho Code, and by rules adopted pursuant thereto, and such application to appropriate the public waters shall be governed in all respects by that chapter.

(5) Any application for a permit made pursuant to this section shall be accompanied by a filing fee of:

(a) Two hundred dollars ($200) if for a well; or

(b) One hundred dollars ($100) for an injection well;

and no application shall be accepted and filed by the director until such filing fee has been deposited with him. All moneys received under the provisions of this chapter shall be deposited with the state treasurer in the water administration fund as provided in section 42-238a, Idaho Code.

(6) No person shall construct or alter a well or an injection well without having first secured a permit therefor; provided however, that the director may, by general rule adopted pursuant to chapter 52, title 67, Idaho Code, exempt specific categories of wells or injection wells otherwise embraced by this chapter upon a finding that the purposes of this chapter do not require that such wells be subject to the permit requirement of this section.

(7) Nothing in this chapter shall be construed as affecting any valid, vested water rights for water in use on or before July 1, 1987.

(8) The director shall have the authority to and may designate any area of the state a "geothermal area" when the director finds or has reason to believe that such designation is necessary to protect the geothermal resource from waste and to protect other resources of the state from contamination or waste.
(9) No person shall drill a well for any purpose to a depth of three thousand (3,000) feet or more below land surface in a designated "geothermal area" without first obtaining a permit under the provisions of this section. Such permit shall be in addition to any permit required by other provisions of law.

(10) The owner of any well constructed or being constructed pursuant to section 47-320-316, Idaho Code, who encounters a geothermal resource, and who intends or desires to utilize such resource, shall make application for a geothermal permit as required under this section, provided however, that no additional filing fee shall be required.

(11) A geothermal resource shall be utilized primarily for its heat value. Usage of a geothermal resource primarily for some reason other than its heat value shall not be deemed a beneficial use of the resource.

SECTION 31. SEVERABILITY. The provisions of this act are hereby declared to be severable and if any provision of this act or the application of such provision to any person or circumstance is declared invalid for any reason, such declaration shall not affect the validity of the remaining portions of this act.

SECTION 32. An emergency existing therefor, which emergency is hereby declared to exist, this act shall be in full force and effect on and after its passage and approval, except for the provisions of Section 6, which shall go into effect on July 1, 2017.
