DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Under Section 54-1910(a), Idaho Code, a public works contractor licensee must designate an individual qualified by examination (QI). If a QI ceases “to be connected” with the contractor, the contractor must notify the administrator of the Division of Building Safety (Division) “in writing within ten (10) days.” If the contractor provides notice in ten (10) days, the contractor’s license remains in force “for a reasonable length of time, to be determined by rules of the board.” If the contractor does not provide notice in ten (10) days, the contractor’s license is automatically suspended.

There is no rule that defines how long “a reasonable time length of time” is. Further, the Division cannot always determine what constitutes written notice that a QI has ceased to be connected with a contractor or when a QI has ceased to be connected with a contractor.

This proposed rulemaking will define a QI, determine the “reasonable length of time” a contractor’s license will remain in force, and clarify that notice that a contractor’s QI has ceased to be connected with the contractor must be provided on forms prescribed by the administrator.

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Section 54-5005, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than August 15, 2018.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Heating, ventilation, and air conditioning (HVAC) apprentices must currently complete four (4) years of work experience to take the journeyman examination. Further, in 2006, the Idaho HVAC Board (Board) approved giving apprentices who successfully complete a full-time, one-year training course credit for one (1) year of work experience. The Division of Building Safety stopped giving such credit to apprentices when it discovered that the Board’s decision conflicted with a rule requiring that work experience be completed on the job and not in an educational setting.

This rulemaking will allow apprentices to take the journeyman examination before completing four (4) years of work experience. This proposed rulemaking will also allow apprentices who successfully complete a Board-approved, full-time, one-year training course to receive credit for up to one (1) year of work experience.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: N/A
