IN TESTIMONY WHEREOF, I have hereunto set my

at Boise, the Capitol of Idaho, this Second Day of January, in
the year of our Lord, Two Thousand and Eighteen, and of the
Independence of the United States of America, the Two Hundred
and Forty-second.

/s/ LAWERENCE DENNEY
Secretary of State

The Certificate of Election was ordered filed in the office
of the Secretary of the Senate.

Roll call showed all members present. [District 33 Vacant]

Prayer was offered by Chaplain Montie Ralstin, Boise Valley
Christian Communion, Boise Idaho.

On request by Senator Winder, granted by unanimous
consent, the Sergeant-at-Arms, Sarah Jane McDonald, escorted
the Boise Police Department Honor Guard into the Senate
Chamber to present and post the colors for the Second Regular
Session of the Sixty-fourth Idaho Legislature.

The Pledge of Allegiance was led by Sergeant-at-Arms,

President Pro Tempore Hill provided a brief history of the
Idaho State flag flown over the domes of the House and Senate
Chambers during each session of the Legislature. He explained
that the flags represent the spirit of our citizens and serve as a
symbol of Idaho’s sovereignty. They further serve notice to the
State that the Legislature, the elected representatives of all the
citizens of Idaho, is in session. The flags are raised when the
Legislature convenes and will be retired when the Legislature
adjourns sine die. President Little presented the Idaho State flag
to the Honor Guard to be raised above the Senate Chamber to
fly during the Second Regular Session of the Sixty-fourth Idaho
Legislature and the Honor Guard exited the Chamber.

On request by Senator Winder, granted by unanimous
consent, the Sergeant-at-Arms, Sarah Jane McDonald, and

Reading of Communications

September 21, 2017

Hon. C.L. "Butch" Otter
Governor, State of Idaho
PO Box 83720
Boise, ID 83720-0010

Dear Gov. Otter:

I formally resign as the Senator from Legislative District 33 in the Idaho State Senate at day's end, September 21, 2017.

I am so grateful the people of Idaho Falls gave me the privilege of serving them for the past nineteen years. These good and decent people have taught me a great deal, including to be sensitive to their right to share opinions, experiences, and judgment. These expressions have not always been comfortable to hear. But I learned to listen better and have a more respectful mind and heart. I will always be grateful for their counsel, trust, and support.

I was also privileged to serve as the Senate Majority Leader for many years. I am thankful for the Senate's confidence. Please let my colleagues know that I already miss serving with them.

Over the years, I studied the pictures of our predecessors on the Capitol's interior walls. Soon, like those before me, I will blur into legislative history, as it should be. Others will ably succeed me in leadership and service. But during these past nineteen years, I learned that, with few exceptions, Idahoans are fortunate to be represented by some of the most sincere and thoughtful people from both major political parties.

With respect for the legislative process and those that have and do so serve, I submit this resignation.

I leave the Senate in good and capable hands.

Sincerely yours,
BART M. DAVIS

The correspondence will be filed in the Office of the Secretary.

On request by Senator Winder, granted by unanimous consent, the Senate advanced to the Eighth Order of Business.

The Speaker introduced His Excellency, the Governor of the State of Idaho, C.L. "Butch" Otter, and the following State of the State and Budget Address was delivered by the Governor.

Mr. Speaker, Mr. President, honorable legislators, distinguished jurists, friends, my family, our First Lady, my fellow Idahoans: It is my high honor and distinct privilege to stand before you today to deliver my 12th and final State of the State and Budget Address.

It is my great good fortune to report to you that the State of Idaho is prosperous, positive, and poised for even better times ahead. Our population is growing fast. Our citizens are striving for a future with more opportunities and even brighter prospects. And our State government is leaner, more fiscally responsible, more transparent, more responsive, and better prepared than ever to help Idahoans achieve their own best potential.

Our books are balanced. Our fiscal obligations are being met. Our credit is strong. We are planning wisely, working collaboratively and investing sustainably. Our national politics often is dysfunctional, but in Idaho our government processes are sound and our policies and priorities reflect the will of the people we serve.

Of course there is room for improvement. As with all things human, there are shortcomings and frailties in our government that could benefit from thoughtful change. Just as certainly, any change can be difficult or even painful to achieve in a state as prudently conservative as Idaho - especially when it comes to questions of government's proper role in our lives. Yet it is my firm belief that over the past 11 years of overcoming natural disasters and manmade challenges, stubborn political divisions and devastating economic recession, together we have constructed a stronger, more durable foundation on which we and the people of Idaho can build.

And we will build, and grow, and keep changing for the better - not because of any particular ideology or due to our own well-intentioned leadership, but because of the creative genius, the entrepreneurial spirit, and the native independence and self-reliance of our citizens. They are the source of Idaho's greatness.
As a State government, we benefit enormously from tapping into that deep well of sage advice and counsel. I hear it at the coffee shop in Star and walking around downtown Boise. I hear it each month at the nearly 100 Capital for a Day events we’ve held in every corner of our state. More formally, there are some 4,800 Idaho citizen volunteers serving at any given time on our State oversight and advisory boards and commissions - from accounting and aging to water resources and workforce development. They are and will remain an indispensible ingredient of our success, working quietly and tirelessly to ensure all voices are heard in the councils of government. They deserve our support and our thanks.

I also want to express my gratitude to our extraordinary State employees whose hard work and dedication help us all succeed. So let me begin by saying that my Executive Budget for fiscal 2019 includes a 3-percent pay increase for the men and women who make our State government one of the best run in America.

Allow me to also express my thanks to Major General Gary Saylor, Health and Welfare Director Dick Armstrong, Commerce Director Megan Ronk, Idaho State Police Colonel Ralph Powell, Court of Appeals Judge John Melanson, Supreme Court Justices Jim Jones, Daniel Eismann and Warren Jones, and many others who left State service in the past year.

I know you will greet them with all the warmth and congeniality of comrades in arms.

We also are blessed to have back among us Director Gavin Gee, who survived a terrible accident last winter and a difficult recovery to resume his responsibilities at the Department of Finance. Thanks for joining us today Gavin; keep fighting the good fight.

Now, despite the talent and experience contained in this august body, I’m sure many of you share my feelings about starting a legislative session without the able assistance of former Senate Majority Leader Bart Davis. Our new U.S. Attorney for the District of Idaho served here for 19 years, embodying great legal scholarship, incredible legislative talent and unfailing statesmanship. Bart’s absence from these proceedings will be apparent, and we can all be grateful for his long service and consistent civic virtue.

Some of you joined me and thousands of Idahoans this past August in saying farewell to the late Governor Cecil Andrus, who gave even more State of the State speeches than me! The outpouring of fond remembrance and well-earned respect for Cece was a welcome throwback to another political time. In fact, one of the qualities I admired most about Governor Andrus was a lesson I internalized during my years in Congress: Simply saying “no” is not enough. When the people of Idaho give us authority to act on their behalf, we must govern. Republican and Democrat, Majority and minority, Executive and Legislature. Together. To do less or to dither rather than decide is to shirk our duty and betray the public's trust.

With the aging of our population, healthcare has led Idaho's employment growth since I took office in 2007. It's added more than 26,300 jobs, accounting for 46 percent of our overall job growth and 13 percent of total employment in Idaho. That illustrates two important questions that will be at the forefront of public policy debates for the next few decades: How do we make healthcare more accessible and affordable, and how do we ensure employers have enough educated, trained and skilled workers to meet the needs of Idaho's growing economy, especially in healthcare and other STEM fields? Let's start with education.

Most Idaho children who were in the first grade when I became Governor are now starting their last semester of high school. Every program, initiative and investment I mention here today is focused on providing those young men and women with a leg up on postsecondary education and career opportunities.

To ensure we have effective teachers leading that effort in every Idaho classroom, my Executive Budget calls for providing nearly $42 million in fiscal 2019 for the fourth year of implementing our career-ladder system for educators. Shifting how we fund teacher salaries from years of service and education credits to student outcomes represents a significant ongoing investment in human capital - supporting teachers' professional development while establishing a long-term blueprint for teacher recruitment and retention.

For all of us, literacy is essential to developing the other skills needed to advance successfully through life. Thousands of Idaho children start their educational journey already reading below grade level. That leaves many of them struggling throughout their school years and beyond while requiring educators to employ more costly remedial reading programs.

With your help we implemented an early intervention program two years ago for kindergarten through third-grade students who face severe reading challenges. But that program addressed only those at the very lowest level of reading skill. There are thousands more who are not yet proficient. So I'm asking today for $6.5 million in fiscal 2019 to expand our literacy intervention efforts. We must provide a timely boost for these children before the focus of their education moves from the fundamental skill of reading to the applied skill of reading to learn.

I also am seeking an additional $5 million a year for college and career advising. That money is intended to ensure that all districts can implement effective programs for helping students plan for life after high school. Whether for college or technical training, improving student and parent access to information about careers and postsecondary opportunities is an essential step in providing for Idaho's future workforce needs.

So is responsibly putting modern learning tools in every Idaho classroom. My budget recommendation calls for investing an additional $10 million in school technology starting next year, bringing our total annual investment in technology for students and teachers to $36 million. That will also require that districts and charter schools have well-developed plans for sustainably integrating technology into their curricula.

An even more fundamental change in our classrooms is Idaho's ongoing shift to mastery-based education. The effort benefited from an initial investment in 19 incubator schools. Those schools have worked during the past two years to establish a network of support and best practices, and to identify barriers to implementation. By investing another $1.4 million per year, we can continue developing and implementing our statewide plan by expanding the number of schools participating in the Mastery Education Network.
Ladies and gentlemen, our five-year plan for improving public schools is a watershed achievement for Idaho. With strong and diverse stakeholder involvement, with buy-in from educators, patrons and policy makers - and with your continued leadership and support - Idaho will keep building a world-class education system.

That includes such local efforts as Bonneville County voters turning Eastern Idaho Technical College into the College of Eastern Idaho, with the help of $5 million in start-up money from the State. Congratulations to the people of eastern Idaho for creating this great new opportunity for more of our citizens to affordably take their education beyond high school close to home.

As you know, there was a robust debate in Bonneville County and beyond about the costs and benefits associated with creating the College of Eastern Idaho. And that's a good thing. An open process and meaningful public engagement are necessary to crafting sound public policy. That's especially true on issues as complex and controversial as allocating limited resources to our education priorities. The success of our K-12 Task Force for Improving Education bears that out.

Therefore, my budget request includes funding for the State Board of Education to hire an Executive Officer to coordinate the work of all our higher education institutions. The Executive Officer also will manage a system-wide consolidation of higher education support operations and the Board's continuing policy functions.

There's no doubt these changes will upend the status quo. They will mean less working from isolated silos and more rowing in the same direction. And they will result in tens of millions of dollars in efficiencies - savings that can be used for scholarships and new initiatives. That includes creating a statewide digital campus to better keep pace with continuing change in what we need our higher education system to deliver.

I want to emphasize that what we're talking about here is not a chancellor system with schools becoming campuses of a single university. I agree with the Task Force finding that such a change would be overly disruptive. But there is no doubt about the advantages and the necessity of adopting an Executive Officer model if we are serious about making and keeping Idaho economically competitive.

Here’s a staggering metric: The Task Force found that State income tax collections in Idaho will increase by $500 million a year - with no change in population - when the state reaches its 60-percent achievement goal, compared with today’s 42 percent.

This is not a reflection on our State Board of Education members or the leadership of our institutions. The system itself is slow to adapt and too good at perpetuating the status quo. It simply is not equipped or empowered to make the big management changes needed to achieve our 60-percent goal. Without these changes, we very likely will make no more progress toward that goal in the next ten years than we have in the past seven.

We still must better define the scope of work required to achieve the consolidation we need. As a first step, I'm seeking your support for the Task Force recommendation that we implement a statewide degree audit and data analytics system. That will enable all our postsecondary institutions to identify students early on who need additional support or guidance, and then track their progress toward degree completion anywhere in our system.

To address access and affordability, the Task Force recommended and I am requesting an additional $5 million for the Opportunity Scholarship program, which is helping students like Boise's Holland Godby. It's enabled her to go to college full-time and work part-time without going deep into student loan debt. Holland, thanks for being with us today.

Holland is using her scholarship to attend Boise State University in hopes of entering the high-demand field of physical therapy. She was one of more than 1,500 Idaho students who received an Opportunity Scholarship for their first year of college. But that was less than half of the more than 3,300 Idaho students who applied and were eligible but got no assistance. We can and should do more.

My Executive Budget also calls for dedicating a portion of that $5 million to providing Adult Completion Scholarships. That's not a program for subsidizing dropouts. It's about creating the workforce that Idaho employers need. It's about closing our skills gap by bringing students with some college credits back to one of our certificate, associate's or bachelor's degree programs to finish what they started. And it's about preserving the value of investments already made in partially completed studies.

Folks, the Adult Completion Scholarship program is like finding money! So let's get it done.

Creating a homegrown pipeline of educated, trained workers also was the mission of my industry-driven Workforce Development Task Force. My budget reflects the Task Force recommendations that we invest in expanding capacity at our postsecondary technical schools, in providing additional incentive funding for high school career-technical programs, and in expanding CTE offerings to the seventh and eighth grades. I'm also calling for development of more online CTE classes, and increased support for our six regional Workforce Training Centers.

In the meantime, I have implemented Task Force recommendations aimed at ensuring employers have a more meaningful role in making our statewide workforce training efforts more responsive and adaptive to industry's increasingly technical needs. I will introduce legislation this session codifying changes to the structure and authority of the Workforce Development Council and how it invests in one of the most crucial elements of Idaho's continuing economic growth. I appreciate the enhanced level of public-private partnership that this process has brought about, and I look forward to that collaboration paying dividends for years to come.

In the same vein, we have a responsibility to act quickly during this legislative session to ensure that Idaho employers don't pay for last year's failure to enact unemployment tax relief. I once again am proposing a bill to roll back a rate increase that
took effect on January 1 as a result of inaction in 2017. It will cost the Department of Labor roughly $75,000 to process the legally required tax notices once the change is made. However, that's a relatively small price compared with the $115 million in higher-than-necessary taxes that Idaho businesses will pay over the next three years if we don't make the simple but necessary change.

As I said at the end of the 2017 legislative session, unemployment tax relief is job one for 2018.

A 2017 tax debate also led to the Idaho Supreme Court ruling last summer that we must change the way we do the people's business to ensure public transparency and protect the integrity of our political process. So contrary to traditional practices, all legislation now must be presented to the governor before the Legislature adjourns sine die. I welcome the new requirement and look forward to working even more productively with you on our shared priorities.

Those priorities include adding to the more than $1.2 billion in tax relief we have provided Idaho citizens over the past decade. But that must be accomplished while meeting our constitutional and statutory obligations, sustainably advancing our education and other policy priorities, and ensuring that our State tax laws remain fair, stable and competitive.

It's true that our tax burden in Idaho is relatively light compared with other states. But our income levels also remain comparatively low, and beneath our own expectations.

Yet in terms of growth, it's important to note that personal income in Idaho is up about 40 percent since 2008 while General Fund revenue has increased less than 25 percent. So despite some selective arguments to the contrary, our economy clearly is growing faster than our State government.

However, we must never forget that it's the people's money. So I will gladly join you in reducing individual and corporate income tax rates with an eye toward stimulating more economic growth. But that must be accomplished while keeping our fiscal house in order and our investments for the future on track. To make that possible, I will be proposing a plan to enable Idaho's substantial conformance with the new federal tax code without putting our State revenues or Idaho taxpayers at risk.

Of course, it's well known that predictability is an important part of sound tax policy. But when it comes to healthcare, the federal government seems to be going the extra mile to ensure that Idaho and other states have no certainty at all about what the future holds. At the same time, I have come to you repeatedly with proposals for making healthcare in Idaho more accessible and coverage more affordable with or without having a federal plan in place.

So in my last legislative session as your Governor, I am making one final attempt. No longer should this body use my agreement not to act alone on Obamacare issues as a way to stop progress that will benefit Idaho citizens. We can no longer wait for Congress. This issue is too pressing, and it's in our hands.

This session I will be advancing for your consideration the Idaho Health Care Plan - a proposal about which many of you have been hearing for months now. Simply put, it would stabilize Idaho's healthcare insurance market and give more working Idaho families the ability to purchase affordable coverage.

The Idaho Health Care Plan gives us the opportunity to be both conservative and compassionate. It will enable those with the most costly, medically complex conditions to move their coverage to Medicaid during the course of their illness. That in turn will enable insurance companies to reduce their premium rates for the majority of people who remain in the individual marketplace.

This is not expanding Medicaid. This is providing Idaho's working families who have modest incomes a more affordable way to get the coverage they need. And it's a matter of fairness for Idaho citizens who actually get less help with coverage under the so-called Affordable Care Act than non-citizens legally residing here.

The Idaho plan will require $17.4 million from the General Fund and another $11.4 million from the Millennium Fund. But the result will be lower rates for many more working Idahoans, leaving them better able to pay for life's other essential needs.

As I said before, healthcare affordability and accessibility are among the central public policy challenges of our time. In Idaho, those challenges involve a chronic shortage of physicians and other healthcare professionals, particularly in the more rural parts of our state. That's why I'm so excited about this year's opening of the Idaho College of Osteopathic Medicine - Idaho's first medical school. Classes begin in August on the Meridian campus of ICOM, which is working with Idaho State University and other stakeholders to address our last-in-the-nation ranking for the number of primary care physicians per capita.

ICOM also is committed to helping bring more residency opportunities to Idaho for physicians in training. In addition, my budget recommends funding for 11 new residencies at Eastern Idaho Regional Medical Center in Idaho Falls and Bingham Memorial Hospital in Blackfoot. That will complement our own efforts since 2013 to fund more medical school seats for Idaho students. We now have 40 seats dedicated to Idaho medical students through the regional WWAMI consortium - twice as many as when I assumed this office.

Having healthcare professionals nearby is one of the factors that can determine a community's success in developing its local economy by attracting and growing businesses that provide good-paying jobs. The services that our communities need increasingly include cost-effective ways of coping with acute substance abuse and mental health issues.

Thank you for supporting creation of behavioral health crisis centers through community partnerships in Coeur d'Alene, Idaho Falls, Twin Falls and most recently Boise. My Executive Budget request calls for continuing to build on the successful effort to cut back on the more costly use of emergency rooms and jail cells when our people face those life-shattering challenges. I'm asking for $2.6 million in fiscal 2019 to stand up three more crisis centers in the Lewiston, Nampa-Caldwell and Pocatello areas.

This initiative is an example of Idahoans taking care of our own; not waiting for Washington, D.C. to prescribe or mandate a solution to our challenges. That's a strategy born of necessity and hard experience. But in 2017 we saw a renaissance of responsiveness and regulatory relief from our national government. It has been especially refreshing to see the Trump administration's willingness to seek our input - to really listen and embrace the value of state perspectives on issues that affect us most directly.

As we all know, the whole concept of federalism spent years on the shelf. But now, what we here in Idaho say and how we collaborate and develop our own solutions matters again, maybe more than ever. It's a new day on issues from protecting
sage-grouse to siting major electrical transmission lines and enjoying traditional uses of our public lands.

Of course there are still challenges. Obstructionists in Congress and the undue influence of a carryover prescribe-and-punish mentality in some federal agencies are still slowing progress. But we're having fewer "Mother may I" moments with our federal partners, and one of the results is better, more active management of our resources, and communities that are becoming better protected from catastrophic wildfires.

Two programs in particular stand out. First, let me update you on our rangeland fire protection associations. Over the past few years, the Bureau of Land Management and U.S. Fish and Wildlife Service have worked with our State Department of Lands to train and equip 330 southern Idaho farmers, ranchers and their employees as members of nine RFPAs. They now are providing initial attack capability and expert local protection on more than 9 million acres of Idaho rangeland - protection from wildfires that threaten sage-grouse habitat and the forage that our ranching and farming families need to stay in business.

Another example of our improving relationship with the feds is the degree to which federal Good Neighbor Authority has taken root in our timber communities. It's an innovative way to more quickly implement on-the-ground land and watershed improvements on Forest Service acreage.

Investments from the forest industry, the State and the feds so far have resulted in ten Good Neighbor Authority projects in Idaho. In the next few years, about 10,000 acres will be treated to improve forest health by carefully harvesting 65 million board feet of timber, providing $13 million in program income.

The Department of Lands has sold and overseen the harvest of 6 million board feet of timber from fire salvage and forest thinning projects in the past year alone - generating more than $1.8 million in revenue. The efficiency and effectiveness of this work is so apparent that federal agencies are eager to line up more Good Neighbor Authority projects with help from the State. That's why I'm asking for spending authority for eight new positions at the Department of Lands as we expand this program that's working for Idaho.

Perhaps the most memorable part of last year was one that most of us would just as soon forget. You can call it "snowpocalypse" or just a great water year. Either way, the winter of 2017 was one for the record books. It disrupted lives, endangered travelers and did many millions of dollars in damage to property and infrastructure throughout Idaho.

Thank you for providing $52 million in emergency assistance to help our communities address the most serious and immediate problems. We had some snags with disaster assessment teams being called away for one of the worst hurricane seasons on record. But we are getting relief out as quickly as possible, and we're working with cities, counties and highway districts to minimize the impact of delays in federal disaster funding.

As I said, it was a big year for water, whether it was falling from the sky or being recharged into Idaho's largest underground reservoir. Runoff from last year's snowpack on top of saturated soils required careful, coordinated management of dams and reservoirs. The effort successfully reduced flooding and ensured that dam structures were secure. Meanwhile it provided a full allocation of water in the Boise River and Snake River reservoirs and plenty of carryover for use in 2018.

Just as importantly, for the first time since the 1950s we put more water back into the Eastern Snake Plain Aquifer than we pumped out in 2017. Water levels in the Lake Erin-sized aquifer had been dropping at an average rate of 215,000 acre-feet per year for 60 years.

But last year the Idaho Water Resource Board worked with private canal companies to recharge 317,000 acre-feet of water. A landmark settlement agreement between surface water users and ground water users resulted in a net gain of another 200,000 acre-feet. Along with the wet weather, the result was a 660,000-acre-foot increase in water storage in the aquifer.

Without our work together on these issues it would have been impossible to realize these historic advances in managing and protecting our most precious and fragile natural resource.

About the only things we value more than water in Idaho are our families and our privacy.

Everything we're doing in education, workforce training, health and public safety is about strengthening and protecting Idaho's children and families. Now let's talk for a moment about securing our personal data.

From a technology standpoint, the world has been remade several times over since I became Governor. We have learned through hard experience that information is a vulnerable asset. And we are far better prepared now to ensure the responsible management, control and protection of private information.

Former Air Force cybersecurity expert Jeff Weak is now on board as Idaho's first director of Information Security. Under his leadership, State agencies have adopted rigorous national cybersecurity standards. Critical internet security controls have been put in place, and a comprehensive cybersecurity training program now is mandatory for every State employee. In short, we're doing all we can within our existing management structure to defend our State resources, and more importantly to keep our citizens' personal information safe from hackers, criminals or worse.

The next step is improving the structure of that oversight. I am recommending a thorough assessment and centralization of scattered and disjointed information resources in the coming months. The goal is standardizing and optimizing cyber capabilities throughout State government. The proposed changes are aimed at making Idaho a model for hardening our defenses while enhancing our ability connect with citizens through social media and other online tools.

Idaho is well situated to be a global leader in this field. Just consider our investment and partnership in the Idaho National Laboratory's Cybercore Integration Center. Or the INL's cybersecurity training outreach to Idaho businesses. Consider the thriving cybersecurity degree programs at our universities and the Idaho National Guard's cyber operations squadron. So we are reaching a critical mass of infrastructure. All that's needed is our continuing commitment for Idaho to remain on the vanguard of this evolving discipline.

On a related note, no report on our progress over the past decade would be complete without highlighting the growing partnership between the State of Idaho and the Idaho National Lab. We are light years beyond the kind of legal and political disputes that dogged our relationship for many years. Today the INL is much more than a remote nuclear engineering outpost on the eastern Idaho desert. Our connections now include...
my Leadership in Nuclear Energy or LINE Commission, our Strategic Energy Alliance, and the Center for Advanced Energy Studies with its cutting-edge Smart Grid research. And let's not forget the INL's growing collaboration with our universities, as well as the Department of Energy's STEM education efforts at Idaho schools.

And there are more great things to come from the INL and the Battelle Energy Alliance, which just won a new five-year management contract that will ensure welcome stability in lab operations. Coming soon is the next stage in developing small modular reactor technology that could be the future of nuclear energy.

Now, from thinking globally to acting locally, allow me to update you on the success of a program with the goal of helping Idaho's at-risk youth develop such skills as critical thinking, teamwork and accountability.

The Idaho Youth ChalleNGe Academy so far has provided structure and a second chance for 648 graduates from 41 counties. Many of those cadets were struggling in school before they got to Pierce. A number were having trouble at home, or with the law. Well, through last year those citizens in training had earned over 9,000 high school credits, and more than 130 of them had earned their GED or high school diploma.

What's more, Youth ChalleNGe cadets have contributed more than 34,000 community service hours. They have improved forest trails, visited seniors at the local assisted living center, and volunteered at the State veterans home in Lewiston. I can tell you, the feeling of energy, renewed hope and endless possibilities that you get just being around the cadets is refreshing, invigorating, and contagious.

This program isn't the biggest around. It doesn't have all the bells and whistles. It's purposely located away from many of the distractions of modern life. But let me give you two quick examples of the results that the Youth ChalleNGe Academy is producing.

Dylan Hoopes of Lewiston was in trouble in school and at home. He'd even had some brushes with the law. As his mother Angela put it, he had "a 1.6 GPA and a chip on his shoulder."

All that changed at the Academy. Dylan embraced the training, buckled down, adopted a goal-oriented attitude, pursued leadership opportunities and earned his high school diploma with a 3.7 GPA.

His mom summed it up this way: "I am confident that because of his experience at the IDYCA he has found the confidence he needed to overcome life's obstacles and obtain the blessings that good citizenship has to offer him." Now Dylan is 20 and a full-time student at Lewis-Clark State College. He's working part-time and will receive his associate's degree in automotive mechanics this spring.

Dylan, congratulations, and thanks for being here today.

Daniel Smith of Nampa summed up his situation before entering the program this way: "I was overweight, under-confident and wasn't doing too well in school." The good news was that he recognized the need to start making better life choices, and the Idaho Youth ChalleNGe Academy was there to help. Friends who had been through the Academy told Daniel about the positive changes it had brought to their lives - changes emphasizing respect, excellence, persistence, integrity and leadership.

Now Daniel joins them in considering it one of the best decisions he's ever made. He got his high school diploma, joined the military and was selected for the elite United States Air Force Honor Guard. Daniel was part of the inauguration ceremony for President Trump and most recently was in the Macy's Thanksgiving Day Parade in New York City. He credits the Youth ChalleNGe program and the mentorship it provided for helping him get where he is today - which I'm pleased to say is here with us!

Airman First Class Smith, welcome to Idaho's Capitol and thank you for your service.

Dylan and Daniel are just two examples of how the Youth ChalleNGe Academy is improving lives, restoring families and creating the chance for real progress for the next generation of productive, contributing citizens. Some of you have visited Pierce to see the program for yourselves. I encourage anyone who questions its value to spend some time with these young people. I'm confident you will be as impressed as I was.

My friends, I say again: Idaho is stronger and more economically diverse than ever. Our unemployment rate is near a record low. Wages are on the rise. Whole industry sectors are emerging and growing, stretching our taxpayer resources to keep up with workforce demands. But we are sustainably and responsibly investing in K-through-Career education and training without raising taxes.

We will never mortgage our future by throwing money at business attraction like some other states. But with your support, we now have targeted, performance-based incentives that work. They add to an economic development portfolio that includes inexpensive renewable power, a great work ethic and among the most stable, business-friendly tax and regulatory climates in the country.

I call that real progress, and may it long endure. Esto perpetua.

You know, it's really too bad that the word "progress" has been so thoroughly high-jacked in today's political lexicon. The Republican-led Progressive movement of the early 20th century called for a more populist but still limited relationship between government and business. But since the Great Depression "progress" has become synonymous with bigger and more intrusive government - the "nanny state."

It's true that despite our best efforts and firmest resolve, government gets bigger. That's a function of a growing population, rising public expectations, more complex social realities, and a changing dynamic between our public and private sectors. But we all know that making government bigger often makes fulfilling its most necessary and proper functions less focused and less effective. More importantly, making government bigger without also making it better can be a barrier to real progress for our citizens - for individual Idahoans.

Now we all know that progress isn't linear. It doesn't go from point A to point B uninterrupted. It zigzags and swerves and dips. At times in human history it's trailed off altogether. But progress always comes back. It shakes off ignorance and political extremes. It overcomes natural calamities and human failings to return, time and again throughout the ages.

Progress makes a comeback when people start believing again - believing in their own abilities; believing that they can make a difference; and believing that government alone is not, never has been and never will be the answer. Progress makes a
comeback when people start taking personal responsibility for moving it forward as best they can.

That's where we are in Idaho: Preparing our State government - and everyone and everything it touches - for the future. Once again during this legislative session, we will make choices that will echo down through the generations and play a role in shaping the destinies of our families and our descendants.

Because of the work we have done over more than a decade, we have never been reader for the challenges and opportunities ahead. The commonsense conservative policies advanced by this body - and by us together - have been essential to Idaho's progress toward better enabling our citizens to become the architects of their own destiny rather than surrendering to the siren song of entitlement.

Yet just as progress isn't linear, it also isn't singular. Eventually there will be another Great Recession, or worse. Disasters will beset us. At some point we may once again struggle to keep our heads above water.

That's why, to be truly meaningful and impactful, progress can't be a one-time thing. It must overcome setbacks and resistance. It must be more than good intentions and a high-profile start followed by inattention and eventually abandonment. There has to be a baton to pass. There must be a fire to stoke.

There has to be a clear understanding that what we do today will help our children and their children keep advancing the frontiers of freedom ... slowly but surely ... Because that enlightened freedom is where progress will be found for the people who rely on us to act in their best interest without upending their lives.

Ladies and gentlemen, progress takes commitment. It takes political and sometimes personal courage. It requires us to see the big picture and take the long view in crafting public policy. And we have only ourselves to blame when we reap the whirlwind of apathy or inattention. Responsible citizenship - let alone leadership - requires us to regularly refresh the tree of liberty with the values of vigilance, prudence and common sense.

You see, well-informed and conscientious reluctance to change is not the truest enemy of progress. The truest enemy of progress is misguided, reflexive opposition to change.

Our Founders knew that more than 200 years ago. In 1816, Thomas Jefferson was 40 years beyond his days as a young revolutionary writing the Declaration of Independence. With his years as president behind him, Jefferson was asked how best to adapt our fledgling national government to rapid social and economic changes.

He wrote: "I am certainly not an advocate for frequent and untried changes in laws and constitutions. But I know also that laws and institutions must go hand in hand with the progress of the human mind. As that becomes more developed, more enlightened, as new discoveries are made, new truths disclosed, and manners and opinions change with the change of circumstances, institutions must advance also, and keep pace with the times."

That is not to dismiss or defame the timeless virtues that should populate our character or the undying truths that must light our path forward. Rather it is to remind us that our responsibility is not only to those who voted for us or only to our constituents, but also to "keep pace with the times" and the path of human progress.

We have constitutional, legal and social responsibilities to the people of Idaho. Those include preparing them for productive citizenship with accessible educational opportunities, safe communities and equal protection of the law. I believe the plan of action recommended in my Executive Budget and in the policies that will be presented to you this session move us closer to truly fulfilling that responsibility.

We must not waste the opportunity that relative prosperity now affords us to invest in the future. We must strive to be the kind of leaders who go beyond rhetoric, because sustaining what we have set in motion will require more than lip service.

As Teddy Roosevelt said in urging action over ideology in public life, "Our words must be judged by our deeds; and in striving for a lofty ideal we must use practical methods; and if we cannot attain all at one leap, we must advance towards it step by step, reasonably content so long as we do actually make some progress in the right direction."

My friends, we have made progress in the right direction over the past 11 years. Whether we continue on that course depends on our commitment to investing in an even better future for the people we serve. It depends on the value we place on joining with individuals, communities and our corporate citizens in overcoming hidebound opposition to a legitimate role for State government in pursuing our common interests.

I've come a long way from the brash young revolutionary who served in this chamber and ran for governor with big ideas but precious little perspective.

With the benefit of experience earned through the patience and confidence of Idaho voters, today I have a more nuanced view of the proper role of government. I have always understood its limitations and its flaws. But now I also know its possibilities, when responsibly led, for helping individual citizens realize their full potential. None of us can afford to dismiss the latter because we are hamstrung by the former.

Most of you know that Thomas Jefferson and Ronald Reagan are my political models. They were not roped and tied by ideology when pragmatism was the best path to progress. They led. We must do the same.

In conclusion, let me just say that the years I have had the opportunity to be your Governor have provided among the most precious and rewarding experiences of my life. Working with and for each of you - my fellow citizens - has been the honor of my lifetime, and the best job I ever had.

I appreciate more than I can express the chance to share this arena with you, and to join you in making significant and lasting progress for every member of the Idaho Family.

Thank you. God bless your work here, and may God continue to bless the State of Idaho and the United States of America.

This aging of Idaho's population is reflected in the increase in the number of guardianship and conservatorship petitions filed in Idaho courts with an increase in petitions of 6% from fiscal year 2016 to 2017 alone.

Your Idaho judiciary has been preparing for this trend by strengthening protections for vulnerable populations. Guardians and conservators are required to submit annual reports to Idaho's courts on the status of wards and the actions taken throughout the year. Last year you supported the courts' efforts to develop an effective, state-wide program to ensure both that these reports are filed and that they are meaningfully reviewed. We now have a dedicated Guardianship and Conservatorship Monitor in every judicial district in Idaho. These monitors act as a point of contact for parties and members of the public to answer questions for Idahoans navigating the legal system, provide a professional review of the reports, identify cases in which reports have not been filed, and follow up on any concerns. With your on-going help, the Idaho courts will continue to support the well-being, safety, and proper asset management for Idaho's most vulnerable people.

Perhaps the largest initiative the Idaho courts have undertaken this year is the continued work towards statewide implementation of iCourt and the Odyssey system throughout the state. As we enter the fifth year of the implementation, I thank you for your continued commitment to this project. In 2017 the Court restructured the timing of parts of the project delaying the go-live efforts in some counties. This gave us time to consider lessons learned in prior implementations, to address on-going impacts on Twin Falls and Ada counties, and to refine our strategies for the efforts of taking multiple counties on-line. In the end, we improved the systems in place in live counties and still brought an additional 12 counties online. We now have Odyssey operating in all of the Fourth Judicial District, all of the Fifth Judicial district, as well as Owyhee and Canyon counties. Preparations are now taking place to bring the final thirty counties onto Odyssey in 2018. This has not been an easy transition, yet I am happy to report that with each go-live event the implementation has been smoother, fewer issues have arisen, and where issues have come up we have been able to address them efficiently and effectively.

I would be remiss if I reported on the iCourt project, but did not recognize the importance of our counties and district court personnel in doing so. The Idaho courts always work in partnership with the counties to plan, fund, maintain, and run our state court system. Just as the state has committed resources necessary for the implementation of iCourt, so too have our counties. They have answered the need for personnel who work tirelessly on preparations such as configuration of each county's system, conversion of existing files and data, and the necessary training of court personnel. I'm going to tell you about just two of Idaho's county clerks. They represent hundreds of the dedicated county clerks who work hand-in-hand-side-by-side with our judges every day. Ms. Raena Bull is an outstanding member of Canyon County's district court personnel and is here with us today. Ms. Bull has been involved with the iCourt project from the beginning. She has capably served on the Court Technology Committee since its inception in 2014. She consistently provides important insight into the needs of clerks who will use the system daily. In addition, Ms. Bull led the implementation of Odyssey in Canyon County, one of the busiest county courts in our state. For over a year, Ms. Bull organized every step of the transition from the scanning of paper files, to review of data, to training for court personnel and judges. She even went above and beyond by overseeing the creation of a training lab in the county so that...
her coworkers could get hands on experience to prepare for the change. Ms. Bull showed leadership and creativity in her work and in the end she ensured that Canyon County was successful in its transition. For all of this hard work would you please stand so we can thank you!

Remarkably, Idaho's counties have also volunteered to support each other in this transition. We have learned one of the most important resources district court personnel have is each other. Twin Falls County clerks selflessly came to the courthouse and helped the Ada County clerks learn and navigate the system in those early and critical days. Court clerks with expertise and an understanding of how Odyssey works is an invaluable asset. This is a process of paying it forward. Clerks who have worked in the system reached out to new counties and helped support fellow clerks continued in October when twelve additional counties went live. Deputy court clerks from both Twin Falls and Ada counties went to these courthouses in the first wave of multiple counties around the state and helped manage a fundamental change to how the courts do business. This level of support was not expected or anticipated, but it is truly, truly appreciated. One of the Ada County deputy court clerks who has played an integral role in supporting her fellow clerks is here with us today, Ms. Margaret Molchan. Ms. Molchan has been a knowledgeable voice when others have had questions, she has provided honest and important feedback to improve the system and business process for all of the state, and she has worked exceptionally hard to help ensure that this project is successful for all courts of our state. I would ask her to stand so we can thank her.

However, as Odyssey goes live in our counties, the courts are also identifying difficult issues and local practices which must change to comport with the laws of the State of Idaho. Prior legislatures have determined that a person convicted of a crime is responsible for paying restitution to crime victims, as well as certain fines and fees. The fines and fees are used, in turn, to fund various programs throughout the state. Almost 100% of offenders are not able to pay the total amount owed in a single payment. Rather, offenders enter into payment agreements with the courts and make monthly payments on their obligations. The courts are then responsible for distributing those payments to the various entities owed. I touched on this issue in the 2013 State of the Judiciary address.

The authority to impose and collect the fines and fees appears throughout the Idaho Code, but there is no clear statement regarding how partial payments should be distributed. Although five code sections indicate some level of priority for particular charges, the priority for most of the other 23 possible charges is not set by statute. Rather, for those charges without a set priority, the Supreme Court has had to use its discretion to determine how the remaining distributions would be prioritized.

The lack of clarity for distribution of partial payments has played out in various ways in Idaho's courts. As a result, counties have utilized inconsistent practices in distributing these funds, including bypassing the priority of payments entirely for some moneys collected. However, as counties implement Odyssey, the system distributes payments in a consistent way and in conformance with the priorities established by the legislature and the Court. Although this consistency is long overdue, it has not been a seamless transition. As a result, some counties are experiencing a temporary but distinct decline in funding for critical public safety services. Most apparent is a precipitous decline in funding for misdemeanor probation supervision services and county problem solving court funds.

County misdemeanor probation programs and problem solving courts each provide critical services to the people of Idaho. These programs ensure accountability and support for offenders including adherence to counseling, drug and alcohol testing, and financial obligation requirements. It is through the work of these programs that offenders are supervised and, hopefully, rehabilitated, all to the end of achieving a safer Idaho. Plainly stated, this is a public safety issue.

Idaho's courts depend daily upon the services provided by misdemeanor probation and problem solving courts. The charges assessed to offenders that pay for these programs have not been assigned a priority by the Idaho legislature. The Courts recognize that because these fees are set by the Idaho legislature, these are policy questions for the Idaho legislature. Therefore, this session the courts are asking the legislature to provide clear guidance on the appropriate priorities for the distribution of payments. We will be introducing legislation that would have all financial obligations collected by the courts listed in a single statute, by priority of distribution, to which judges, clerks, legislators and most important – citizens can easily refer. In addition, this legislation seeks to ensure the viability of critical supervision programs by ensuring they are given sufficient priority to sustain the current systems. I ask that you consider this legislation carefully as well as the importance of adequately funding these critical programs.

As I have stated before, Odyssey is the most transformational project since court reorganization in the 1970s. The changes made will affect us for decades to come. Obviously, there is more work to do.

The court system in Idaho, with the support of our counties, continues to provide remarkable service to Idahoans. This has been made possible by the help we have received from the legislature and Governor, and we are grateful to you. We are also committed to improving those services into the future and ask for your help in making that possible. This is never possible without a civil and mutually beneficial relationship with your court system.

Speaking of transformation, as I have previously noted in the State of the Judiciary speeches in 2013, 14 and 15, Idaho's demographic of the judiciary is remaking its face in a very short time. It reached its zenith in 2017. We obviously have a new Administrative Director. We have two new Supreme Court justices; I last year introduced Justice Robyn Brody, but would now like to introduce our newest Supreme Court Justice, Richard Bevan. Also seated in the gallery is Judge Jessica Lorello, our newest Court of Appeals judge. Could you both please stand. As you know, Justice Warren Jones retired in December and we wish him nothing but the best in his retirement. Interviews for his position have been scheduled for March 12 and 13 of this year.

This transformation is also taking place in our trial courts. Nine district judges and eight magistrate judges retired or will retire in 2016-17 or the near future. Recently we received very sad news that Magistrate Judge William Harrigfeld and District Judge Randy Stoker of Twin Falls passed away during their tenure on the bench.

As concerns the transformation with district judges and appellate judges, I would like to take a personal point of privilege to thank Governor Otter for his thoughtful and serious approach to appointing the most qualified appellate and district judges. In my 37 years of being a judge in Idaho, I can applaud Governors
Andrus, Batt, Evans and Kempthorne and now Otter for taking very seriously the issue of appointment of the best and brightest lawyers as judges to the district courts and appellate courts. Governor Otter must be proud of his legacy in appointing 41 district judges, 3 Supreme Court justices, and 4 Court of Appeals judges during his 12 years as Governor. Thank you, Governor Otter for your thoughtful consideration in these endeavors.

In addition, the Court looks with trepidation to the future concerning the impact of the fiscal changes in the federal government as well as continued financial pressures on our cities and counties. These pressures will be exacerbated by Idaho's extraordinary growth in the last few years. We welcome our new Idaho citizens, but we must realize there will be impacts on our cities, counties, state agencies and the judiciary which must be faced. As I travel throughout the state, prosecutors, public defenders and judges have talked about near crippling increases in criminal cases – some fueled by drug involvement, but not all. Most comment on the increase in violence also. We as a judiciary will keep you apprised of this change in the future and hope you continue to value a strong judiciary for public safety and timely resolution of all cases.

As our population increases our future will become more complex as a result of those increases and unforeseen developments. With this change, we look to our Constitution – the bedrock of our State.

Article 1, section 18 provides: "Courts of justice shall be open to every person, and a speedy remedy afforded for every injury of person, property or character, and right and justice shall be administered without sale, denial, delay or prejudice."

Another impact of the increased population that is sure to come is a challenge of access to the courts for all Idahoans and especially moderate and low income families. In addition to the Court's attempts to meet this challenge through our nationally recognized court assistance offices, our guardian monitors, and the Civil Justice Reform initiative, Idaho Legal Aid has been very helpful in making sure low income citizens are represented in a very few limited areas. However, because of funding and federal government restrictions, this is not your father's legal aid. I would like to ask the opponents of any state funding for Idaho Legal Aid to start a thoughtful dialogue with the organization. Learn about their mission and minimal request. Idaho is only one of three states in the nation who give no support to this entity.

Lastly, I would like to address what we are seeing with Idaho's courthouses. In some places, our state courthouses are barely, if at all, meeting the needs of the counties, the judiciary, and other entities which share them. Access to justice, in its most basic form, means physical access to our courts. In some courthouses, in the absence of even a simple elevator, witnesses with physical challenges must be carried up stairs by bailiffs or judges, just to be able to testify. In addition, high population increases certainly mean new needs for judges, but we don't even have room to house them.

It is cavalier to say if the citizens want adequate facilities they will vote for them. Our state has one of the most restrictive constitutional provision regarding new public buildings. Our counties can't afford the large outlay for courthouses. There are severe restrictions on county budgets, especially in light of more explosive growth.

In view of our concerns, the Court has previously engaged an expert from the National Center for State Courts to talk to counties about the unique architectural requirements of courthouses. Last year the Court hired an expert in disability access issues, who has provided regional trainings for county leaders and counseled those counties that sought his expertise. This year we are seeking additional funding to support additional work with Idaho's counties that wish to ensure physical access for their citizens.

In light of what we have learned, in 2018, I hope to gather interested parties from state and local government, Building Fund personnel, entrepreneurs, and other experts in the field to review county needs for the judiciary and start a conversation on how can we tackle the looming courthouse issues. We will keep this body informed of our progress on these issues in the future.

In summary, the State of the Judiciary is in large part a function of the cooperation of the Legislative and Executive branches, as well as our county partners. Although an independent co-equal branch of government, we rise or fall based upon cooperation. We hope that cooperation continues so I can report a robust judiciary in 2019.

The President thanked Chief Justice Burdick for his remarks and Senator Lee, Chairman, and Senators Foreman and Nye escorted Chief Justice Burdick from the Chamber, and the Committee was discharged.

On request by Senator Winder, granted by unanimous consent, the State of the Judiciary Address was ordered spread upon the pages of the Journal.

On request by Senator Winder, granted by unanimous consent, the Senate returned to the Sixth Order of Business.

BRAD LITTLE, President

Attest: JENNIFER NOVAK, Secretary
WHEREAS, a functional family provides its own food, clothing, housing, health care, transportation and other social services at no cost to other taxpayers; and
WHEREAS, a family that provides its own social services does so more efficiently than government agencies that provide similar services; and
WHEREAS, the increase in government budgets in the last 100 years is linked to three main budget areas: health care, education, poverty and entitlement programs; and
WHEREAS, these three budget items were responsibilities historically fulfilled by families and other nongovernment organizations; and
WHEREAS, when government provides these services, overhead costs are higher while placing a burden on other taxpayers; and
WHEREAS, government agencies that compete with functional families by providing similar services have a tendency to crowd out the family and undermine family responsibilities; and
WHEREAS, most existing government-funded poverty programs suffer from a fatal flaw of trying to redistribute wealth rather than increasing the productive capacity of the poor and needy. The emphasis of such programs is on equalizing consumption rather than increasing the productive capacity of the poor and needy, so they can become self-sufficient and independent; and
WHEREAS, if there were more functional families in Idaho, state support and spending on health care, education, and poverty and entitlement programs could either stabilize or decrease, with improved outcomes; and
WHEREAS, so far in the history of the State of Idaho, the Legislature has been more successful in funding government poverty programs than in devising ways to reengage and empower the family; and
WHEREAS, families need resources and choices in order to become reempowered; and
WHEREAS, government cannot decree that families become functional; families must make this choice on their own. However, government can set up conditions under which families may choose to accept greater responsibility; and
WHEREAS, the elimination of current programs would cause disruption, fear and chaos. However, it is the desire of the Legislature to increase the number of functional or self-funded families; and
WHEREAS, as the percentage of functional families increases, so does societal stability and strength; and, as the number of functional families decreases, crime, poverty and social problems increase, and the budgets required to address social ills also increase; and
WHEREAS, the Idaho Legislature wishes to facilitate an increase in the number of functional families; and
WHEREAS, three areas of focus where increasing the role, power and influence of the family can have great impact are health care, education, and poverty and entitlement programs.
NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-fourth Idaho Legislature, the Senate and the House of Representatives concurring therein, that the Legislature encourages health care policies that increase funding available to families, such as funded health savings accounts, so that families may decide how to use the funds to increase access to primary and preventative care.
BE IT FURTHER RESOLVED that the Legislature encourages the adoption of education policies that empower students and parents including but not limited to: mastery-based education that allows students to have more control over what is learned, the speed of learning and the type of learning that takes
place; the growth of career technical education and apprenticeship programs for high school students so that upon leaving high school they have the ability to secure good high-paying jobs; and providing other choice programs in education, both in and outside of traditional public schools, that allow parents to find the education choice that best fits the needs of their child.

BE IT FURTHER RESOLVED that the Legislature urges the Department of Health and Welfare to consider the creation of a pilot program with state funds, so state rules can be followed that will help participants pass through poverty quickly and reach financial independence, and encourages the Department of Health and Welfare to find other ways to build the capacity of the family to self-fund rather than simply increase the size of public programs.

BRAD LITTLE, President

Attest: JENNIFER NOVAK, Secretary
WHEREAS, the Wilderness Act was passed in 1964 and, since that time, the United States Congress has designated nearly 110 million acres of federal wildlands as official wilderness, which has the highest form of protection of any federal wildland; and

WHEREAS, almost sixty-two percent of land in Idaho is federal land; and

WHEREAS, residents of the State of Idaho support multiple use of public land. Current multiple use and private land protection policies governing the management of public land in Idaho have generally served and sustained the interests of Idaho residents; and

WHEREAS, ranching and agriculture play a substantial role in the state's heritage and identity and should be preserved; and

WHEREAS, ranching, agriculture, mining, the forestry industry and recreation are primary economic drivers in the state, with agribusiness and recreation each contributing an estimated $7.6 billion, the mining industry contributing $1.3 billion and the forestry industry contributing $2 billion to the economy annually in recent years, all of which would be substantially impacted by any land management changes; and

WHEREAS, Idaho residents, families and visitors currently enjoy multiple use on federal lands and have generations of family traditions. Changing federal land designations would impact local wildlife management as well as opportunities to hunt and fish; and

WHEREAS, changes in federal land designations or classifications would affect land use by imposing restrictions on development, resource extraction, recreation and land exchanges that would result in diminished economic opportunities and restrictions on access and multiple use; and

WHEREAS, the people of the State of Idaho value abundant water resources and water rights and have concern that new national monument designations or further designation of wilderness by Congress could affect those resources and rights; and

WHEREAS, the Idaho Roadless Rule is Idaho's 2006 plan that provides a framework for use and protection of more than nine million acres of federal public backcountry. The rule is viewed as a nationwide model of collaboration among groups and individuals with diverse interests and concerns; and

WHEREAS, the Roadless Rule specifically prescribes protective management under the wildland recreation theme, and it is feared that utilization of the Antiquities Act for new national monument designations or further designation of wilderness by Congress would overturn the agreement reached in the formulation of the Idaho Roadless Rule, with no effort to reach consensus through coordination as required by federal law; and

WHEREAS, several years ago, advisory votes relating to a suggested new national monument designation and a wilderness designation in Idaho were held in a number of potentially affected counties in central and eastern Idaho, both showing over ninety percent opposition to such designations.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-fourth Idaho Legislature, the Senate and the House of Representatives concurring therein, that we oppose any new federal national monument designations or further designations of wilderness in the State of Idaho without the approval of the United States Congress and the Idaho Legislature.

BE IT FURTHER RESOLVED that the Idaho congressional delegation is urged to introduce and support legislation to oppose any new federal national monument designations or further designations of wilderness in the State of Idaho without the approval of the United States Congress and the Idaho Legislature.
BE IT FURTHER RESOLVED that any efforts to reach decisions regarding lands and resources of the State of Idaho administered by federal agencies or their designees be made through the lawful coordination process as required by the National Environmental Policy Act, the Federal Land Policy and Management Act, the National Forest Management Act, the 1982 Forest Service Planning Rule and other federal acts requiring coordination, rather than by unilateral administrative processes that exclude the residents of the State of Idaho.

BE IT FURTHER RESOLVED that the Secretary of the Senate be, and she is hereby authorized and directed to forward a copy of this Memorial to the President of the Senate and the Speaker of the House of Representatives of Congress, and to the congressional delegation representing the State of Idaho in the Congress of the United States.

SJM 103 was introduced, read at length, and referred to the Judiciary and Rules Committee for printing.

WHEREAS, fewer permits could also reduce the training burden on law enforcement agencies, whose officers must understand the requirements associated with each permit, and could likewise reduce the opportunities for error in the enforcement process; and

WHEREAS, the Legislature has received requests from stakeholders to consolidate annual permits to the extent possible; and

WHEREAS, the Legislature recognizes that personnel at the Idaho Transportation Department are the subject matter experts on Idaho's permitting process; and

WHEREAS, consolidation of annual permits and streamlining the permitting process would require a cost analysis by the Idaho Transportation Department to identify the fees necessary for a cost-neutral permit program.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-fourth Idaho Legislature, the Senate and the House of Representatives concurring therein, that the Legislature requests that the Idaho Transportation Department initiate negotiated rulemaking for commercial motor vehicle annual permits.

BE IT FURTHER RESOLVED that the scope of the requested rulemaking should involve the consolidation of existing annual permits for vehicles that exceed legal size and weight.

BE IT FURTHER RESOLVED that if, in the negotiated rulemaking process, the Idaho Transportation Department identifies statutory changes necessary to consolidate permits, the Legislature requests that the Department notify the chairman of the Senate Transportation Committee, the chairman of the House Transportation and Defense Committee, and the Legislative Services Office, Division of Research and Legislation, of the necessary changes.

SCR 131

WHEREAS, the Centers for Disease Control and Prevention report that one in every 200 children is born with congenital cytomegalovirus (CMV); and

WHEREAS, CMV is the most common congenital infection in the United States and is the most common viral cause of birth defects and developmental disabilities, including deafness, blindness, cerebral palsy, mental and physical disabilities and seizures; and

WHEREAS, pregnant women are one of the highest-risk groups for contracting CMV; and

WHEREAS, most people are not aware when they are infected with CMV; and

WHEREAS, congenital CMV is preventable with simple behavioral interventions while pregnant, such as frequent hand-washing, refraining from kissing young children on the mouth and refraining from sharing food, towels or utensils with young children; and

WHEREAS, CMV infection is more common than the combined metabolic endocrine disorders currently in the core newborn screening panel for the United States; and

WHEREAS, the rate of children born with congenital CMV could be significantly reduced with public education; and

SCR 130
BY TRANSPORTATION COMMITTEE
A CONCURRENT RESOLUTION
STATING FINDINGS OF THE LEGISLATURE AND REQUESTING THAT THE IDAHO TRANSPORTATION DEPARTMENT INITIATE NEGOTIATED RULEMAKING FOR THE PURPOSE OF CONSOLIDATING ANNUAL PERMITS ISSUED TO CERTAIN COMMERCIAL VEHICLES.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, the State of Idaho requires the operators of commercial vehicles to obtain permits for many activities; and

WHEREAS, the Idaho Transportation Department issues approximately 47,000 annual permits each calendar year; and

WHEREAS, the permits are frequently issued for one purpose only; and

WHEREAS, many commercial vehicles are therefore required to obtain several permits from the Idaho Transportation Department; and

WHEREAS, in some cases, a commercial vehicle might need as many as 10 permits in order to operate; and

WHEREAS, the issuance of each permit is a separate administrative task for the Idaho Transportation Department; and

WHEREAS, consolidating permits and streamlining the permitting process could greatly reduce the administrative burden on the Idaho Transportation Department without reducing its power of oversight; and
WHEREAS, it is in the public health interest to increase awareness of the risks associated with CMV and the measures necessary to prevent CMV infection.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-fourth Idaho Legislature, the Senate and the House of Representatives concurring therein, that June shall be recognized as CMV Awareness Month in Idaho.

A CONCURRENT RESOLUTION
STATING FINDINGS OF THE LEGISLATURE AND ENCOURAGING THE IDAHO DEPARTMENT OF HEALTH AND WELFARE TO CONDUCT TOWN HALL MEETINGS THROUGHOUT THE STATE TO COLLECT FEEDBACK ON HOW TO RETAIN AND RECRUIT VOLUNTEER EMERGENCY MEDICAL SERVICES PROVIDERS.

BE IT RESOLVED by the Legislature of the State of Idaho:

WHEREAS, Idaho is predominantly a rural state that relies heavily on volunteers for the provision of emergency medical services (EMS); and

WHEREAS, the existence of competent volunteer EMS providers throughout Idaho is vital to the well-being of all those who live in or visit Idaho; and

WHEREAS, the requirements placed on volunteer EMS providers must provide an assurance of public safety while not being onerous to the point that volunteer participation is discouraged; and

WHEREAS, in 2012, at the request of the Legislature, the Idaho Department of Health and Welfare conducted a series of outreach town hall meetings throughout the state that provided feedback and suggestions for improvement in the programs, policies, plans and procedures that support and regulate emergency medical services in Idaho.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-fourth Idaho Legislature, the Senate and the House of Representatives concurring therein, that the Legislature encourages the Idaho Department of Health and Welfare to conduct follow-up town hall meetings throughout Idaho to collect firsthand feedback on the progress that has been made in the years since the initial outreach town hall meetings.

BE IT FURTHER RESOLVED that the Department should facilitate the town hall meetings in such a manner as to gather as much feedback and suggestions for improvement as possible and should consider the feedback received during the town hall meetings as the Department continues to develop the programs, policies, plans and procedures that support and regulate emergency medical services in Idaho.

BE IT FURTHER RESOLVED that members of the Legislature are encouraged to attend town hall meetings in their districts in order to hear the firsthand feedback and to participate in the discussion.

BE IT FURTHER RESOLVED that EMS stakeholders from local communities are encouraged to attend and actively participate in a town hall meeting in their area.

BY TRANSPORTATION COMMITTEE
A JOINT MEMORIAL
We, your Memorialists, the Senate and the House of Representatives of the State of Idaho assembled in the Second Regular Session of the Sixty-fourth Idaho Legislature, do hereby respectfully represent that:

WHEREAS, the 2012 federal transportation bill, MAP-21, mandated electronic logging devices (ELD) in commercial trucks, which were to be finalized by rule in 2015, with an implementation date of December 18, 2017, in trucks of model year 2000 and newer; and

WHEREAS, because of the nature of the commodities hauled and normal industry scheduling uncertainty, livestock and agriculture commodity haulers requested exemption from this mandated transition from handwritten logbooks to the electronic log, and the United States Department of Transportation (USDOT) and the Federal Motor Carrier Safety Administration (FMCSA) originally ignored the request and agriculture commodity haulers; and

WHEREAS, the federal mandate and rule decreases efficiency, increases business expense and does little or nothing to improve safety in this segment of the trucking industry, and USDOT-FMCSA has not considered the special circumstances surrounding the transport of livestock, fish and insects, as these are the most perishable and fragile of all commodities and must be transported in the most efficient, timely and expedient manner as possible, and conformity with the ELD mandate and existing hours of services rule would result in delays off-loading and reloading of livestock and even the addition of a second driver on short hauls; and

WHEREAS, infrastructure for off-loading and holding of livestock do not readily exist and, if it did, extra handling of cargo would result in added stress, weight loss, additional expense and exposure to additional disease and biohazard, with no positive benefit to the animals; and

WHEREAS, heavy machinery service vehicles often drive long distances to reach a job site and remain at the location long enough to exceed the 14-hour service day thereby requiring either an additional driver or an overnight stay near the job site and subsequently decreasing efficiency and increasing business expense; and

WHEREAS, highway safety is also a primary consideration, and livestock transporters were involved in a statistically insignificant number of accidents (0.004%) according to the "Large Truck Crash Causation Study" published by the FMCSA and the National Highway Safety Institute and 0.7% of fatal accidents per the "Trucks Involved in Fatal Accidents Factbook 2005" published by the Transportation Research Institute; and

WHEREAS, mandated ELDS engage when the truck's motor is started. The devices provide the operator no discretion in determining "on-duty" and "off-duty" time. Large, over-the-road commercial truck fleets support the ELD mandate because they are better able to absorb related costs and are subject to well-defined schedules; and

WHEREAS, paper logs allow the driver this determination. Because many livestock and agriculture commodity haulers are small and independently owned businesses, mandatory ELD use will result in increased livestock handling, more downtime, increased expenses, and lower net revenues to producers and trucking firms and small trucking companies forced out of business. The ELD mandate is impractical because USDOT-FMCSA did not consider normal delays that are encountered when dealing with livestock and other agriculture commodities; and

WHEREAS, in September 2017, seven national agriculture commodity organizations and other agriculture-related organizations requested a waiver from the rule, which was granted and will be in effect until March 18, 2018. Section 132, Exemption from Requirement for Electronic Logging Device, is contained in the FY18 federal Transportation, Housing and Urban Development (THUD) bill funding to implement the ELD mandate in FY 18, and this language was signed by all members of Idaho's congressional delegation, and legislation was introduced in 2017 in the United States House of Representatives to make a livestock/agriculture commodity exemption permanent; and

WHEREAS, the federal mandate and rule is difficult to implement, increases cost, lowers efficiency, imposes an unfunded mandate, creates economic and regulatory hardship for small business and does not consider the special needs of certain segments of the trucking industry.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-fourth Idaho Legislature, the Senate and the House of Representatives concurring therein, that we request a permanent exemption from the USDOT-FMCSA ELD mandate granted by whichever means appropriate for livestock and agriculture commodity transporters.

BE IT FURTHER RESOLVED that the Secretary of the Senate be, and she is hereby authorized and directed to forward a copy of this Memorial to the President of the Senate and the Speaker of the House of Representatives of Congress, and to the congressional delegation representing the State of Idaho in the Congress of the United States, the United States Department of Transportation and the Federal Motor Carrier Safety Administration.

SCR 132, SCR 133, SCR 134, SCR 135, and SJM 104 were introduced, read at length, and referred to the Judiciary and Rules Committee for printing.

The Senate advanced to the Sixth Order of Business.

On page 2, following line 33, insert:

"74-102. PUBLIC RECORDS – RIGHT TO EXAMINE. (1) Every person has a right to examine and take a copy of any public record of this state and there is a presumption that all public records in Idaho are open at all reasonable times for inspection except as otherwise expressly provided by statute.

(2) The right to copy public records shall include the right to make photographs or photographic or other copies while the records are in the possession of the custodian of the records using equipment provided by the public agency or independent public body corporate and politic or using equipment designated by the custodian.

(3) Additionally, the custodian of any public record shall give the person, on demand, a certified copy of it if the record is of a nature permitting such copying or shall furnish reasonable opportunity to inspect or copy such record.

(4) A public agency or independent public body corporate and politic may require that a request for public records be submitted to it in a writing that provides the requester's name, mailing address, e-mail address and telephone number. A request for public records and delivery of the public records may be made by electronic mail.

(5) The custodian shall make no inquiry of any person who requests a public record, except:

(a) To verify the identity of the requester in accordance with section 74-113, Idaho Code; or

(b) To ensure that the requested record or information will not be used for purposes of a mailing or telephone list prohibited by section 74-120, Idaho Code, or as otherwise provided by law; or

(c) As required for purposes of protecting personal information from disclosure under chapter 2, title 49, Idaho Code, and federal law.

(6) The custodian shall not review, examine or scrutinize any copy, photograph or memoranda in the possession of any such person and shall extend to the person all reasonable comfort and facility for the full exercise of the right granted under this act.

(7) Nothing herein contained shall prevent the custodian from maintaining such vigilance as is required to prevent alteration of any public record while it is being examined.

(8) Examination of public records under the authority of this section must be conducted during regular office or working hours unless the custodian shall authorize examination of records in other than regular office or working hours. In this event, the persons designated to represent the custodian during such examination shall be entitled to reasonable compensation to be paid to them by the public agency or independent public
body corporate and politic having custody of such records, out of funds provided in advance by the person examining such records, at other than regular office or working hours.

(9) The public agency or independent public body corporate and politic may provide the requester information to help the requester narrow the scope of the request or to help the requester make the request more specific when the response to the request is likely to be voluminous or require payment as provided in subsection (10) of this section.

(10) (a) Except for fees that are authorized or prescribed under other provisions of Idaho law, no fee shall be charged for the first two (2) hours of labor in responding to a request for public records, or for copying the first one hundred (100) pages of paper records that are requested.

(b) A public agency or independent public body corporate and politic or public official may establish fees to recover the actual labor and copying costs associated with locating and copying documents:

(i) The request is for more than one hundred (100) pages of paper records;

(ii) The request includes records from which nonpublic information must be deleted;

(iii) The actual labor associated with responding to requests for public records in compliance with the provisions of this chapter exceeds two (2) person hours.

(c) A public agency or independent public body corporate and politic or public official may establish a copying fee schedule. The fee may not exceed the actual cost to the agency of copying the record if another fee is not otherwise provided by law.

(d) For providing a duplicate of a computer tape, computer disc, microfilm or similar or analogous record system containing public record information, a public agency or independent public body corporate and politic or public official may charge a fee, uniform to all persons that does not exceed the sum of the following:

(i) The agency's direct cost of copying the information in that form;

(ii) The standard cost, if any, for selling the same information in the form of a publication;

(iii) The agency's cost of conversion, or the cost of conversion charged by a third party, if the existing electronic record is converted to another electronic form.

(e) Fees shall not exceed reasonable labor costs necessarily incurred in responding to a public records request. Fees, if charged, shall reflect the personnel and quantity of time that are reasonably necessary to process a request. Fees for labor costs shall be charged at the per hour pay rate of the lowest paid administrative staff employee or public official of the public agency or independent public body corporate and politic who is necessary and qualified to process the request. If a request requires redactions to be made by an attorney who is employed by the public agency or independent public body corporate and politic, the rate charged shall be no more than the per hour rate of the lowest paid attorney within the public agency or independent public body corporate and politic who is necessary and qualified to process the public records request. If a request is submitted to a public agency or independent public body corporate and politic that does not have an attorney on staff, and requires redactions by an attorney, the rate shall be no more than the usual and customary rate of the attorney who is retained by the public agency or independent public body corporate and politic for that purpose.

(f) The public agency or independent public body corporate and politic shall not charge any cost or fee for copies or labor when the requester demonstrates that the requester's examination and/or copying of public records:

(i) Is likely to contribute significantly to the public's understanding of the operations or activities of the government;

(ii) Is not primarily in the individual interest of the requester including, but not limited to, the requester's interest in litigation in which the requester is or may become a party; and

(iii) Will not occur if fees are charged because the requester has insufficient financial resources to pay such fees.

(g) Statements of fees by a public agency or independent public body corporate and politic shall be itemized to show the per page costs for copies, and hourly rates of employees and attorneys involved in responding to the request, and the actual time spent on the public records request. No lump sum costs shall be assigned to any public records request.

(11) A requester may not file multiple requests for public records solely to avoid payment of fees. When a public agency or independent public body corporate and politic reasonably believes that one (1) or more requesters is segregating a request into a series of requests to avoid payment of fees authorized pursuant to this section, the public agency or independent public body corporate and politic may aggregate such requests and charge the appropriate fees. The public agency or independent public body corporate and politic may consider the time period in which the requests have been made in its determination to aggregate the related requests. A public agency or independent public body corporate and politic shall not aggregate multiple requests on unrelated subjects from one (1) requester.

(12) The custodian may require advance payment of fees authorized by this section. Any money received by the public agency or independent public body corporate and politic shall be credited to the account for which the expense being reimbursed was or will be charged, and such funds may be expended by the agency as part of its appropriation from that fund. Any portion of an advance payment in excess of the actual costs of labor and copying incurred by the agency in responding to the request shall be returned to the requester.

(13) A public agency or independent public body corporate and politic shall not perform the examination or copying of a public record by contracting with a nongovernmental body to perform any of its duties or functions.

(14) Nothing contained herein shall prevent a public agency or independent public body corporate and politic from disclosing statistical information that is descriptive of an identifiable person or persons, unless prohibited by law.

(15) Nothing contained herein shall prevent a public agency or independent public body corporate and politic from disclosing statistical information that is descriptive of an identifiable person or persons, unless prohibited by law.

(16) A public agency, elected official or independent public body corporate and politic shall designate a custodian or custodians for all public records, which includes any public official having custody of, control of, or authorized access to public records and also includes all delegates of such officials, employees or representatives; and renumber subsequent sections accordingly.

A CONCURRENT RESOLUTION
STATING FINDINGS OF THE LEGISLATURE AND AUTHORIZING THE LEGISLATIVE COUNCIL TO APPOINT A COMMITTEE TO UNDERTAKE AND COMPLETE A STUDY OF PHARMACY BENEFIT MANAGER TRANSPARENCY.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, pharmacy benefit managers were originally intended to reduce administrative costs for insurers, validate patient eligibility, and administer plan benefits as well as negotiate costs between pharmacies and health plans; and
WHEREAS, pharmacy benefit managers have control over almost all aspects of prescription drug transactions, with the three largest pharmacy benefit managers managing 78% of prescription drug benefit transactions; and
WHEREAS, a study relating to pharmacy benefit manager transparency is important to the citizens of the State of Idaho so that pharmacies in Idaho have all the information needed to make operational business decisions, giving oversight of pharmacy benefit managers that operate in Idaho to the Idaho Department of Insurance. A study would also work toward establishing transparency of covered prescription drug lists and the methodology that determines how reimbursement to pharmacies is ultimately calculated.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-fourth Idaho Legislature, the Senate and the House of Representatives concurring therein, that the Legislative Council is authorized to appoint a committee to undertake and complete a study of pharmacy benefit manager transparency. The Legislative Council shall determine the number of legislators and membership from each house appointed to the committee and shall authorize the committee to receive input, advice and assistance from interested and affected parties who are not members of the Legislature.

BE IT FURTHER RESOLVED that nonlegislative members of the committee may be appointed by the cochairs of the committee who are appointed by the Legislative Council. Nonlegislative members of the advisory committee shall not be reimbursed from legislative funds for per diem, mileage or other expenses and shall not have voting privileges regarding the committee's recommendations or proposed legislation.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, the State of Idaho has enacted laws and rules regulating licensure and certification for many occupations; and

WHEREAS, regulation that is not necessary for the protection of the public's health, safety and interest can unreasonably restrict competition and entry into various occupations; and

WHEREAS, restrictions on licensure and certification can create unreasonable barriers to labor mobility by making it difficult for persons from other states to practice their occupations in Idaho; and

WHEREAS, on May 19, 2017, Lieutenant Governor Brad Little issued Executive Order No. 2017-06, regarding review of Idaho's licensure requirements for various occupations; and

WHEREAS, many occupational licensing and certification requirements are provided in statute, thus rendering legislative action necessary for modification or elimination; and

WHEREAS, the House Business Committee and the Senate Commerce and Human Resources Committee have formed the
Regulatory Reform Joint Subcommittee to study regulation of occupational licensing and to make recommendations necessary for changes to statutes or rules that create anticompetitive barriers to license, license renewal and occupational practice; and

WHEREAS, it is the recommendation of the Regulatory Reform Joint Subcommittee that the Legislative Council appoint an interim committee to continue the study of occupational licensing and certification reform in Idaho and to make recommendations to the 2019 Legislature.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-fourth Idaho Legislature, the Senate and the House of Representatives concurring therein, that the Legislative Council is authorized to appoint a committee to undertake and complete a study of occupational licensing and certification laws and rules in Idaho, including review of relevant reports submitted to the Governor's office pursuant to Executive Order No. 2017-06, and to examine the necessity of such laws and rules. The Legislative Council shall determine the number of legislators and membership from each house appointed to the committee and shall authorize the committee to receive input, advice and assistance from interested and affected parties who are not members of the Legislature.

**Messages from the Governor**

March 15, 2018

The Honorable Brad Little
President of the Senate
Idaho Legislature

Dear Mr. President:

I hereby advise you that I have transmitted to you today the following Senate Bill, which was allowed to become law without my signature:

**S 1266**

as prescribed by the Constitution.

Just as reading to learn first requires learning to read, pursuing the STEM-based career opportunities that are the foundation of our economic future first requires the "M" - a strong foundation in the essentials of mathematics.

With that relationship in mind, I am reluctantly allowing Senate Bill 1266 to become law without my signature. By eliminating the graduation requirement in Idaho Code for math credits during the last year of high school, I am concerned that this measure could undermine our well-informed focus and significant investment in STEM as a centerpiece of K-Career education in Idaho. That is enough to warrant withholding my signature.

What saves the bill from a veto is the fact that the math requirement for graduation will remain in effect by administrative rule even with this statutory change. What's more, the legislation's stated goal of providing more curriculum flexibility already is substantially addressed by the fact that the State allows students to take an advanced-placement computer science course in place of their senior year math requirement.

My additional concern goes beyond the question of math and its role in STEM education. It involves the importance of uniform standards throughout Idaho's public school system on which, if there are not uniform standards of grade-level performance in math, reading or any other academic discipline, it becomes problematic if not impossible to determine how best to help students improve toward mastery.

Unfortunately, Senate Bill 1266 removes a requirement that ensures students seeking to go on to higher education and potential careers in STEM-related fields. We all should watch closely to ensure this change does not disadvantage the very students our education improvement efforts are designed to help.

1. Extend any assurance that the premises are safe for any purpose.

If it appears that the complaint is well-founded and the property of the complainant is being or is likely to be damaged or destroyed by such pronghorn antelope, elk, deer or moose, the director may:

1. Send a representative onto the premises to control, trap, and/or remove such animals as will stop the damage to said property. The agreement made under the provisions of this subsection may provide for financial compensation to the owner or lessee. If made, financial compensation under the provisions of this subsection shall be governed by the provisions of section 36-115, Idaho Code, and shall not be in addition to any payments for the same crop losses from any other source. Compensation for damages under the provisions of this subsection shall be available for damages done to private lands, whether owned or leased, if the owner or lessee allowed hunters reasonable access to the property or through the property to public lands for hunting purposes during the preceding hunting season or as a measure of response to depredation. This provision shall not negate the provisions of section 36-16023, Idaho Code, relating to the necessity of obtaining permission to enter private land. If necessary, the arbitration panel provided for in subsection (b) of this section shall determine the reasonableness of access allowed.

(b) 1. In order to establish eligibility for submission of claims for damages, persons suffering crop damages on privately owned or leased land caused by pronghorn antelope, elk, deer or moose must:

(B) Follow up verbal notification with a written, which may be electronic, notice within twenty (20) days of the discovery of damages.
(C) The department shall not be held liable or accountable for any damages occurring more than
twenty (20) days prior to the initial notification of damage. However, the department may extend the period up to thirty (30) days under exceptional circumstances. The owner or lessee must have allowed hunters reasonable access to the property or through the property to public lands for hunting purposes during the preceding hunting season or as a measure of response to depredation, provided such access does not impact on their operations, or the claim for damages may be disallowed. Compensation for crop damages claims shall not be in addition to any payments for the same crop losses from any other source and shall not include fence or other types of property damage. While fences and irrigation equipment are not subject to claim for payment, the department is allowed to provide support and assistance, including provision of materials to design, construct, and maintain fences for control of depredation. The notice of damages caused must be in written form, shall be in the form of a claim for damages substantially the same as required by section 6-907, Idaho Code, shall be attested to by the claimant under oath, and the claim shall be at least seven hundred fifty dollars ($750). The claim shall not be amended after it is filed, provided however, that a claimant may file an additional claim in the event additional damage occurs subsequent to filing the initial claim. The department shall prepare and make available suitable forms for notice and claim for damages. Claims may be submitted only for the fiscal year (July 1 through June 30) in which they occurred, with allowance for submission within the first sixty (60) days of the following fiscal year if the claim occurred within the last sixty (60) days of the previous fiscal year. Any person submitting a fraudulent claim shall be prosecuted for a felony as provided in section 18-2706, Idaho Code. For purposes of this subsection, crop damages shall mean damage to plants grown or stored for profit and exclude ornamental plants.

2. Upon receipt by the department, the department shall review the claim, and if approved, pay it as provided in section 36-115, Idaho Code, or order it paid as provided in section 36-115, Idaho Code. Failure on the part of the owner or lessee to allow on-site access for inspection and investigation of alleged losses shall void the claim for damages.

3. In the event the owner or lessee and the department fail to agree on the amount of damages within fifteen (15) business days of the written claim, either party may elect to retain the services of an independent certified insurance adjuster licensed in the state of Idaho to view the affected property and determine the amount of damages. In the event the owner or lessee and the department fail to agree on the amount of damages and neither party elects to retain the services of an independent certified insurance adjuster, provisions of subsection (b)4. of this section shall apply. The independent certified adjuster shall complete his review and determination within twenty (20) days from the date he is retained, and will report his determination in writing by certified mail to the department and to the owner or lessee. Neither the owner or lessee, nor the department, shall disturb the affected property prior to review and determination by the independent insurance adjuster. Costs associated with the services of the independent insurance adjuster shall be divided equally between the owner or lessee and the department, subject to reapportionment of the costs by an arbitration panel pursuant to the provisions of subsection (b)4. of this section. If the department, or the owner or lessee rejects the determination of the adjuster, they shall notify the other party in writing of the rejection within five (5) business days of receipt of the adjuster's determination. In the event that either party rejects the adjuster's determination, the provisions of subsection (b)4. of this section shall apply.

4. Within five (5) business days of a rejection of an adjuster's determination of damages or failure of the owner or lessee and the department to agree on damages when a certified insurance adjuster is not used, the director must convene an arbitration panel. To convene an arbitration panel, the director must, within five (5) business days, appoint the department's representative and notify the landholder of the appointment. The landholder(s) shall, within the next five (5) business days following such notice from the department, appoint his representative and notify the department of the appointment. Within the next five (5) business days, the department representative and the landholder must mutually appoint the third arbitrator. The arbitration panel shall consist of three (3) members, as follows:

(A) The director of the department of fish and game or his designee;
(B) The owner or his designee, or the lessee or his designee;
(C) One (1) member selected by the two (2) members above.

The panel shall convene within thirty (30) days of the selection of the third arbitrator, and render its decision within fourteen (14) days after the hearing. When convened, the arbitration panel shall have the same authority to make on-site inspections as the department. The owner or lessee shall be responsible for payment of the expenses of his appointee; the director shall pay the expenses of his appointee from the expendable big game depredation fund; and the expenses of the third member shall be a joint responsibility of the owner or lessee, and the department. Provided however, the panel is authorized to review the costs associated with retaining the independent insurance adjuster and to determine whether those costs should instead be borne solely by the owner or lessee, solely by the department, or be apportioned between the owner or lessee and the department. In cases where an independent insurance adjuster was used, the party electing to use the adjuster shall assume the insurance adjuster's determination of damage as their estimate of damage. The panel shall consider the claim submitted by the owner or lessee, and the estimate of damages submitted by the department, and shall select one (1) amount or the other as being the closest to the actual damages sustained by the claimant. The arbitration panel shall report its decision in writing to both the owner or lessee and to the department within ten (10) days of the decision, and the decision of the panel shall be binding on the owner or lessee and the department. The fish and game advisory committee shall develop guidelines to govern arbitration procedures in accordance with chapter 52, title 67, Idaho Code.

(c) Any claim received by the department under the provisions of subsection (b) of this section must be processed by the department within sixty (60) calendar days of receipt. If the claim is approved for payment, payment must be made within forty-five (45) calendar days of such approval. Any damage claim determination by an independent insurance adjuster pursuant to subsection (b)3. of this section, accepted by the parties, must be paid by the department within forty-five (45) calendar days of the determination. If the claim is arbitrated, the arbitration must be completed within one hundred eighty (180) calendar days of filing the claim for such damages.
SECTION 14. SEVERABILITY. The provisions of this act are hereby declared to be severable and if any provision of this act or the application of such provision to any person or circumstance is declared invalid for any reason, such declaration shall not affect the validity of the remaining portions of this act.

SECTION 15. Section 4 of this act shall apply to causes of action accruing on or after July 1, 2018.

BRAD LITTLE, President

Attest: JENNIFER NOVAK, Secretary
I hereby advise you that I am transmitting today to the Office of the Secretary of State, the following Senate Bill, which will be allowed to become law without my signature:

S 1313

as prescribed by the Constitution.

I believe people have the right to protect themselves and their loved ones. I firmly believe in the right to defend my home, my business and my car if I reasonably believe they are threatened with serious harm. I commend those portions of Senate Bill 1313 that codify existing case law and recognize the sanctity of private property. However, a thorough review of this bill reveals some concerns that warrant further review during the next legislative session.

Among my biggest concerns are the potential unintended consequences on our children. For instance, the following hypothetical acts likely would be criminal under current law but would be considered justifiable homicide under S1313:

• A juvenile enters a locked recreational vehicle through an open window in the neighbor’s driveway to steal a soda. The owner comes out of his house to investigate and shoots the child in the RV. The owner is justified because the child unlawfully entered the RV. By sneaking in through the window the child is presumed to be committing a felony under S1313, and the owner’s fear and action is deemed reasonable regardless of the child’s age.

• Teenagers in rural Idaho sneak onto a 300-acre cornfield in the middle of the night. The cornfield is considered a commercial property. If the farmer shoots and kills one of the teenagers, he is presumed to have acted reasonably under S1313, and the owner’s fear and action is deemed reasonable regardless of the child’s age.

In short, if someone enters unlawfully and by force or stealth they are presumed to be committing a felony and the shooter is deemed reasonable in their actions. The statutory establishment of “reasonableness” by virtue of the unlawful entry by force or stealth will exonerating killings that otherwise would be considered unreasonable.

Furthermore, the language of S1313 allows its provisions to be invoked in places of employment, which is defined as commercial enterprises that are owned by a person as all or part of their livelihood. But does that mean a potato field has the same status as a home? Should a farmer be able to justifiably kill trespassers only because they sneak onto the farmer’s property?

Instead of writing existing case law into Idaho Code, S1313 creates new presumptions that upend the longstanding “reasonable person” standard – a once bright line that is erased by this change.

The legislature should continue to carefully examine this important issue of criminal law and track its use by Idaho courts to ensure that the outcomes reflect its intentions.

As Always - Idaho, Esto Perpetua

Dear Mr. President:

I hereby advise you that I have transmitted to you today the following Senate Bill, which will be allowed to become law without my signature:

S 1346

as prescribed by the Constitution.

This appropriations bill uses legislative intent language to place unnecessary and irresponsible restrictions on how the Public Defense Commission can use its budget allocation.

Training for attorneys who represent indigent defendants is integral to meeting the constitutional requirement for providing adequate public defense in Idaho. Yet this bill provides insufficient funds for that training. What’s more, the shortfall is exacerbated by the requirement that the Commission return money to the General Fund that was appropriated for disbursement to counties that are not currently participating in the indigent defense grant program.

Such a budgetary double-whammy is no more fiscally responsible than appropriating taxpayer dollars beyond what an agency’s mission demands.

Idaho Code wisely provides tools for agency directors to use in reaction to exigent circumstances when the Legislature is not in session, including the ability to make some transfers between spending categories. This appropriation removes many of those tools at a time when this new agency is just getting fully staffed and operational – a time when it most needs flexibility as we learn more about what resources are necessary for it to fulfill its mission.

The Legislature should set policy and then let agencies execute those policies with the tools granted to them by law. I encourage lawmakers to avoid the temptation to micromanage, particularly when doing so has such an adverse effect on an agency’s ability to fulfill its mission, and to remain good and responsible stewards of taxpayer dollars.

Dear Mr. President:

I hereby advise you that I have transmitted to you today the following Senate Bill, which will be allowed to become law without my signature:

S 1349

as prescribed by the Constitution.

I appreciate the great legislative support for our public schools that Senate Bill 1349 represents, and I emphasize that withholding my signature in no way diminishes the significance of this appropriation. Unfortunately, the process used by the legislature in this case undermines the intent of Article 4, Section 11 of the Idaho Constitution, which authorizes the Governor “to disapprove of any item or items of any bill making appropriations of money embracing distinct items . . .”

The Legislature has – at various times and for various reasons – lumped large appropriations together. I do not question lawmakers’ intentions, but in the case of S1349, congregating the public schools operations budget served to protect from my line-item veto an increase of more than $11 million in discretionary funding, which I neither recommended nor support.

I am not suggesting that anyone run roughshod over the Idaho Constitution. However, I sincerely hope that legislative budget writers in the future will remember the Governor’s constitutional role as they assemble complex and multifunctional appropriations bills.

Dear Mr. President:

I hereby advise you that I have transmitted to you today the following Senate Bill, which was allowed to become law without my signature:

S 1316, as amended

as prescribed by the Constitution.

I commend the Legislature’s effort to ensure that the investigatory and administrative proceedings of our licensing authorities are thorough, efficient and fair. To the extent that Senate Bill 1316 promotes those ends, I fully support its
intentions. However, the bill unfortunately creates a distinction without a difference by singling out boards while excluding commissions, divisions and bureaus.

The legislation draws a bright but unwarranted line in Idaho Code by defining “licensing authority” to include only boards. In attempting to address bias the bill creates inequality, requiring accountability and sound decision making of some State government licensing authorities while ignoring others. This cherry picking among boards, commissions, divisions and bureaus will result in an inconsistent application of policy among State licensing authorities for no discernible reason.

S1316 impacts the budgets and operating procedures of only boards by requiring them to pay attorney’s fees when they do not prevail in a licensure action. That certainly provides an incentive for sound and thorough board actions, but it is a policy that should be applied uniformly across licensing authorities.

It is my sincere hope that the Legislature addresses this inequity-by-omission when it reconvenes in 2019, before the problem becomes manifest in Idaho’s licensing oversight.

President of the Senate
Idaho Legislature

Dear Mr. President:

I hereby advise you that I have transmitted to you today the following Senate Bill, which was allowed to become law without my signature:

S 1375

as prescribed by the Constitution.

My concern with this appropriation were originally expressed in February 14 memo from my Division of Financial Management to the Joint Finance-Appropriations Committee. It detailed my opposition to language in the enabling legislation, House Bill 612. I remain concerned that hiring consultants to review proposed technology projects could hurt our State procurement process.

Having a consultant review proposed technology projects before a request for proposals (RFP) is issued could lead to attempted or perceived influence on vendors, the agency, and legislators. Transparency, the benefits of open competition, and public confidence all could be compromised as a result of broad legislative language allowing consultants to influence “major technology projects” and “other state technology projects, needs or issues.”

The State Procurement Act exists to ensure the awarding of State contracts is free from political influence. Since consultants funded by this appropriation will be selected outside the State procurement process, close cooperation between the Executive and Legislative branches will be necessary to ensure the process remains fair and unbiased.

To mitigate the impact of this appropriation, I ask that the Legislative Service Office provide the Division of Purchasing a list of individuals or companies contracted to consult on State technology projects. That will enable the Division of Purchasing to exclude any companies with ties to a project consultant from bidding on that project, as required by Idaho Code 67-9230(8). It is a small but essential step toward achieving our goals without undermining the integrity of an important public process.

President of the Senate
Idaho Legislature

Dear Mr. President:

I hereby advise you that I have transmitted to you today the following Senate Bill, which was allowed to become law without my signature:

S 1287, as amended

as prescribed by the Constitution.

There is no consensus within the business community, or even within the community of technology-driven businesses, for this second change within two years to Idaho Code regarding non-compete agreements between employers and key employees or key independent contractors. As was the case with the 2016 changes to the law that are reversed by this bill, the importance placed on S1287 varies with the nature of each company’s business plan, and whether management considers a “dynamic” workforce featuring regular turnover of high-level employees to be energizing or detrimental.

This bill essentially restores Idaho Code to the pre-2016 standard of proof for whether a key employee or key independent contractor has violated the terms of a non-compete agreement. The 2016 change put the onus on employees and contractors to prove in court that they have “no ability to adversely affect the employer’s legitimate business interests.” S1287 strikes that language, ostensibly shifting the burden back to employers to show that their business interests were harmed by the employee’s competitive actions.

I would suggest that when the Legislature returns in 2019 it consider another alternative to resolving the issue – restoring the language of Idaho Code 44-2704, Subsection (6) that was added in 2016 but changing the standard for key employees and key contractors from having “no ability to adversely affect” to “has adversely affected” the employer’s business.

In the meantime, since it my understanding that the 2016 language has never been tested in court, there seems to be little risk in removing it until consensus is reached on a better solution.

SECTION IV

TOPICAL INDEX
[ALPHABETICALLY ARRANGED]

This Topical Index alphabetically lists subject matter for ALL Senate bills, and ONLY those House bills introduced in the Senate. Nonlegislative subject matter is included and referred to by page number only.

Since the Senate Journal only covers the actions of House bills transmitted to the Senate, this topical index does not refer to every House bill introduced in the House. Separate indices in this volume list, in numerical order, all House bills, memorials, resolutions, and proclamations received by the Senate and show action taken by the Senate thereon. If a particular subject matter does not appear in this index, refer to the House Journal Alphabetic Index. Session law numbers for legislation passing both Senate and House, and becoming law, are included for all Senate bills within the Numerical Index Section V.
