

STATEMENT OF PURPOSE

RS25680

Currently, there is no provision in the Idaho Code establishing a standard for HVAC apprenticeship schooling programs in Idaho. This statutory amendment would provide general authority for the HVAC Board, in conjunction with the Division of Career-Technical Education, to standardize an approved curriculum offered by schools providing HVAC apprenticeship courses of instruction, as well as provide some administrative oversight to ensure schools meet those standards.

FISCAL NOTE

There would be a fiscal impact to the HVAC dedicated funds of about \$42,000 resulting from this legislation.
