Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. That Title 39, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW CHAPTER, to be known and designated as Chapter 95, Title 39, Idaho Code, and to read as follows:

CHAPTER 95

ABORTION COMPLICATIONS REPORTING ACT

39-9501. SHORT TITLE. This act shall be known and may be cited as the "Abortion Complications Reporting Act."

39-9502. LEGISLATIVE FINDINGS AND PURPOSE. (1) The legislature of the state of Idaho asserts and finds that:

(a) The state "has legitimate interests from the outset of pregnancy in protecting the health of women," as found by the United States Supreme Court in Planned Parenthood of Southeastern Pennsylvania v. Casey;
(b) Specifically, the state "has a legitimate concern with the health of women who undergo abortions," as found by the United States Supreme Court in Akron v. Akron Ctr. for Reproductive Health, Inc.;
(c) Surgical abortion is an invasive procedure that can cause severe physical and psychological complications for women, both short-term and long-term, including, but not limited to, uterine perforation, cervical perforation, infection, bleeding, hemorrhage, blood clots, failure to actually terminate the pregnancy, incomplete abortion, retained tissue, pelvic inflammatory disease, endometritis, missed ectopic pregnancy, cardiac arrest, respiratory arrest, renal failure, metabolic disorder, shock, embolism, coma, placenta previa in subsequent pregnancies, preterm delivery in subsequent pregnancies, free fluid in the abdomen, adverse reactions to anesthesia and other drugs, an increased risk for developing breast cancer, psychological or emo-
tional complications such as depression, suicidal ideation, anxiety
and sleeping disorders, and death;
(d) To facilitate reliable scientific studies and research on the
safety and efficacy of abortion, it is essential that the medical and
public health communities have access to accurate information both on
the abortion procedure and on complications resulting from abortion;
(e) Abortion "record keeping and reporting provisions that are reason-
ably directed to the preservation of maternal health and that properly
respect a patient's confidentiality and privacy are permissible," ac-
cording to the United States Supreme Court in Planned Parenthood v.
Danforth;
(f) Abortion and complication reporting provisions do not impose an un-
due burden on a woman's right to choose whether or not to terminate a
pregnancy. Specifically, the "collection of information with respect
to actual patients is a vital element of medical research, and so it can-
not be said that the requirements serve no purpose other than to make
abortions more difficult," as found by the United States Supreme Court
in Planned Parenthood v. Casey;
(g) The use of RU-486 as part of a chemical abortion can cause sig-
nificant medical risks including, but not limited to, abdominal pain,
cramping, vomiting, headache, fatigue, uterine hemorrhage, infections
and pelvic inflammatory disease;
(h) The risk of abortion complications increases with advancing gesta-
tional age;
(i) Studies document that increased rates of complications, including
incomplete abortion, occur even within the gestational limit approved
by the federal food and drug administration (FDA);
(j) In July 2011, the FDA reported two thousand two hundred seven
(2,207) adverse events after women used RU-486 for abortions. Among
these events were fourteen (14) deaths, six hundred twelve (612) hos-
pitalizations, three hundred thirty-nine (339) blood transfusions,
and two hundred fifty-six (256) infections, including forty-eight (48)
severe infections;
(k) The adverse event reports systems relied upon by the FDA have lim-
itations and typically detect only a small proportion of events that
actually occur. Furthermore, the FDA has failed to publicly release
data since 2011, and it is necessary to develop a state-based infor-
mation system in the wake of court rulings legalizing telemedicine
abortions; and
(l) To promote its interest in maternal health and life, the state of
Idaho maintains an interest in:
   (i) Collecting information on all complications from all abor-
tions performed in the state; and
   (ii) Compiling statistical reports based on abortion complica-
tion information collected pursuant to this chapter for future
scientific studies and public health research.
(2) Based on the findings in subsection (1) of this section, it is the
purpose of this chapter to promote the health and safety of women by adding
to the sum of medical and public health knowledge through the compilation of
relevant data on all abortions performed in the state, as well as on all medi-
cal complications and maternal deaths resulting from these abortions.

Such reports shall be completed by the hospital, health care facility or attending medical practitioner who treated the woman, signed by the attending medical practitioner and transmitted to the department within ninety (90) days from the last date of treatment or other care or consultation for the complication.

amended to read as follows:

54-1413. DISCIPLINARY ACTION. (1) Grounds for discipline. The board
shall have the power to refuse to issue, renew or reinstate a license is-
sued pursuant to this chapter and may revoke, suspend, place on probation,
reprimand, limit, restrict, condition or take other disciplinary action
against the licensee as it deems proper, including assessment of the costs
of investigation and discipline against the licensee, upon a determination
by the board that the licensee engaged in conduct constituting any one (1) of
the following grounds:
(a) Made, or caused to be made, a false, fraudulent or forged state-
ment or representation in procuring or attempting to procure a license
to practice nursing;
(b) Practiced nursing under a false or assumed name;

(f) Is physically or mentally unfit to practice nursing;
(g) Violates the provisions of this chapter or rules and standards of
conduct and practice as may be adopted by the board;
(h) Otherwise engages in conduct of a character likely to deceive,
defraud or endanger patients or the public, which includes, but is not
limited to, failing or refusing to report criminal conduct or other con-
duct by a licensee that endangers patients;
(i) Has been disciplined by a nursing regulatory authority in any ju-
risdiction. A certified copy of the order entered by the jurisdiction
shall be prima facie evidence of such discipline;
(j) Failure to comply with the terms of any board order, negotiated set-
tlement or probationary agreement of the board, or to pay fines or costs
assessed in a prior disciplinary proceeding;
(k) Engaging in conduct with a patient that is sexual, sexually ex-
plorative, sexually demeaning or may reasonably be interpreted as
sexual, sexually exploitative or sexually demeaning; or engaging in
conduct with a former patient that is sexually exploitative or may
reasonably be interpreted as sexually exploitative. It would not be a
violation under this subsection for a nurse to continue a sexual rela-
tionship with a spouse or individual of majority if a consensual sexual
relationship existed prior to the establishment of the nurse-patient
relationship; or
(l) Failure to comply with the requirements of the abortion complica-
tions reporting act, chapter 95, title 39, Idaho Code.
(2) Separate offense. Each day an individual violates any of the provi-

adopted by the board shall constitute a separate offense.
(3) Proceedings.
(a) The executive director shall conduct such investigations and ini-
tiate such proceedings as necessary to ensure compliance with this
section. The board may accept the voluntary surrender of a license
from any nurse under investigation and accordingly enter an order re-
voking or suspending such license and/or imposing such conditions,
limitations, or restrictions on the practice of any such nurse as may
be appropriate in the discretion of the board. Otherwise, every person
subject to disciplinary proceedings shall be afforded an opportunity
for hearing after reasonable notice. All proceedings hereunder shall
be in accordance with chapter 52, title 67, Idaho Code.

(b) Hearings shall be conducted by the board or by persons appointed
by the board to conduct hearings and receive evidence. The board and
any person duly appointed by the board to conduct hearings shall have
all powers as are necessary and incident to orderly and effective re-
ceipt of evidence including, but not limited to, the power to administer
oaths and to compel by subpoena attendance of witnesses and production
of books, records and things at the hearing or at a deposition taken by a
party in accordance with the Idaho rules of civil procedure. Any party
shall be entitled to the use of subpoena upon application therefor.

(c) In the event any person fails to comply with a subpoena personally
served upon him or refuses to testify to any matter regarding which he
may be lawfully interrogated, the board shall petition the district
court in the county where such failure or refusal occurred or where
such person resides, to enforce such subpoena or compel such testimony.
Proceedings before the district court shall be for contempt in the same
nature as contempt of court for failure or refusal to comply with an
order of the court, and the court shall have the same powers to secure
compliance with subpoena and testimony or to impose penalties as in con-
tempt of court proceedings.

(4) Probation/Suspending review. Any order of the board entered un-
der this section may be withheld or suspended for a probationary period to be
fixed by the board upon such terms and conditions as may be appropriate in or-
der to regulate, monitor and/or supervise the practice of nursing by the li-
censee subject to such order for the prescribed probationary period. Any or-
der of the board entered under this section may be withdrawn, reversed, modi-
fied or amended upon a showing by the person subject to the order that the
grounds for discipline no longer exist or that he is rehabilitated, quali-
fied and competent to practice nursing and that he is not likely to violate
this chapter or rules adopted hereunder in the future. The board may, as a
condition to withdrawal, reversal, modification or amendment of the order,
require the person to pay all or part of the costs incurred by the board in
proceedings upon which the order was entered.

(5) Reporting investigative information.

(a) Nothing in section 74-106(8) and (9), Idaho Code, shall be con-
strued as limiting the authority of the board to report current
significant investigative information to the coordinated licensure
information system for transmission to states that are parties to any
multistate agreements or compacts regarding nurse licensure.
(b) The executive director of the board may, in the administration of
this chapter, share information and otherwise cooperate with govern-
ment regulatory and law enforcement agencies.
