

## STATEMENT OF PURPOSE

### RS25770

This legislation provides an increase to the daily compensation for fire protection district commissioners. The increase from \$75 to \$100 per day aligns compensation for fire protection district commissioners with other taxing entities. This legislation also provides special compensation for commissioners during an emergency or disaster.

### FISCAL NOTE

Fiscal impact to the local taxing district for pay per meeting only occurs when approved by said board of commissioners during the annual budget appropriation. If a board approves an increase in compensation, the fiscal impact would be \$3,000 annually. Compensation for an emergency or a disaster requires a board to set compensation limits and applies only during the rare instances of an emergency or disaster declaration. This impact would be discussed and may be approved during the annual budget cycle, beginning with the 2018-2019 budget cycle. No impact will occur unless a board approves the impact within their budget. No fiscal impact will occur to any taxing entity other than the respective fire district.
