Creating solutions for:

- Equity & Access
- Local School District Challenges
- Access to Career & College
- Partnerships & Professional Development

EQUITY & ACCESS

Partnerships & Resources

Enrollments

- 90,000 high school students in Idaho
- 17,000 unique students
- 1 in 5 Idaho students take an Idaho Digital Learning class

Equity and Access

Providing Opportunities to Districts

Equity and Access

Providing Opportunities to All Districts

Salmon River High School Riggins	 Idaho Digital Learning	Boise High School Boise
54 local courses	256 online courses	135 local courses

Bridging the gap by expanding course catalogs and resources

Equity and Access

Broader Access to Course Delivery

Cohort Model
Students start and end on the same day with lots of flexibility throughout.

Flex Model
Students can start anytime and finish anytime they complete the course.

Blended Model
A blend of synchronous and asynchronous online delivery.

Technical Academy

[Idaho Digital Learning] does an amazing job meeting the needs of the students in Idaho. I take my hat off to all of you. I have never met a more dedicated group of people that are here for the students and make strides every year to make the program more efficient, appealing and diverse. I wish this program were available for my students when they were in High School.

Testimonial

Goals for 2018

- Expanding CTE Digital & Roadmaps
- Personalized Learning
