Pretrial Programs that Do Not Charge Fees									
Blaine	yes	Misd. Prob	We don't have a "program." We provide drug and alcohol testing to clients that have conditions of release as a courtesy to the court. We function just like a testing facility and provide reports to the court about non-compliance.	5	20	It is inaccurate to call our services a program and there is no funding. The clients pay a fee for drug and alcohol testing. We try to keep this fee as low as possible.	no		We do not have a set program and are not interested in operating a program. All of our probation staff are involved in the alcohol and drug testing program so that there is not a larger burden on any of us. The testing alone has been very time consuming for our office.

Ada	yes	Sheriff	3 years	7	350-400	Through the Sheriff's Office budget	no		Beginning October 1, Ada County will begin completing risk assessments on all visual arrests that proceed to arraignment. Pretrial case managers will interview each defendant and a report will be generated with a Pretrial recommendation to the judge 1 hour prior to arraignment. Our intent is to have Pretrial case managers present in arraignment, but we are unsure if we will be able to accomplish this.
