

# Every Mother Should Have the Freedom to Feed Her Baby.

Senator Kelly Anthon • District 27

I literally wouldn't leave my house for the first 6 months until my baby started eating some solid foods but even, I couldn't fully breastfeed in public comfortably because I had the fear of getting in trouble so I would breastfeed my baby in the car in 80 degree weather...so the car gets pretty hot and a baby that's hot gets pretty fussy especially uncomfortable and hungry....
