Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. That Title 22, Idaho Code, be, and the same is hereby amended
by the addition thereto of a NEW CHAPTER, to be known and designated as Chap-
ter 17, Title 22, Idaho Code, and to read as follows:

CHAPTER 17
HEMP RESEARCH AND DEVELOPMENT ACT

22-1701. SHORT TITLE. This act shall be known and may be cited as the
"Hemp Research and Development Act."

22-1702. LEGISLATIVE INTENT. (1) It is the policy of this state to al-
low and encourage the development and research of hemp in Idaho. The leg-
islature finds that the Cannabis sativa L. plant used for the production of
hemp is separate and distinct from the forms of cannabis used to produce mar-
ijuana. Section 10113 of the farm bill of 2018 has removed hemp from schedule
I of the federal controlled substances act and eliminated other barriers at
the federal level to hemp research and development.
(2) Hemp is used in products such as building materials, cordage, fiber, food, floor coverings, fuel, paint, animal feed, paper, particle
board, plastics, seed meal, cosmetics, seed, and yarn. The university of
Idaho, in fulfillment of its land grant mission, leads the nation in many
areas of agricultural research and is encouraged to research and study this
thriving field. Hemp has the potential to be an alternate crop in Idaho's
agricultural economy. A growing hemp industry also has the poten-
tial to create jobs in production, processing, and research, and Idahoans
will benefit from numerous consumer products made from hemp.

22-1703. DEFINITION. As used in this chapter, "hemp" means the plant
Cannabis sativa L. and any part of that plant, including the seeds thereof
and all derivatives, extracts, cannabinoids, isomers, acids, salts, and
salts of isomers, whether growing or not, with a delta-9 tetrahydrocannabi-

donol concentration of not more than three-tenths of one percent (0.3%) on a
dry weight basis.
22-1704. RESEARCH AND PRODUCTION OF HEMP. Subject to the provisions of this chapter, any person, including institutions of higher education, may plant, grow, cultivate, harvest, sample, test, research, process, transport, transfer, take possession of, sell, import, and export hemp in this state to the greatest extent allowed under federal law.

22-1705. REGULATION OF HEMP. (1) The Idaho state department of agriculture may promulgate rules regulating the activities permitted in this chapter, provided that those activities be regulated only to the extent required under federal law, and in a manner that allows the people of this state to have the greatest possible opportunity to engage in those activities.

(2) The director of the Idaho state department of agriculture will advise the legislature when, in the director's opinion, there is sufficient need for the establishment of an independent board to regulate hemp in this state.
