

STATEMENT OF PURPOSE

RS26866

As it relates to Idaho's Steelhead, this Memorial urges the National Oceanic and Atmospheric Administration (NOAA), specifically the National Marine Fisheries Service (NMFS), to complete Idaho's Incidental Take Permit. It also urges NOAA to review and process future plans and permits, respectively, in a manner that is reasonable and timely. This ensures that the State of Idaho is not compelled to choose between operating its steelhead fishery either out of legal compliance or else not at all.

FISCAL NOTE

This Memorial will have no fiscal impact on the General Fund or any county or other government fund.
