(4) The board of each public school may set forth criteria by which a student may challenge a course. If a student successfully meets the criteria set forth by the board of the public school, then the student shall be counted as having completed all required coursework for that course. The public school, with the exception of Idaho tribal schools, shall be funded for such students based upon either actual hours of attendance or the course that the student has successfully passed, whichever is more advantageous to the public school, up to the maximum of one (1) full-time student.

Payments will be made only for activity occurring and reported within each fiscal year.

(7) For public funding purposes, average daily attendance shall be counted as normal for students participating in dual credit courses pursuant to this section.

(8) If a student fails to earn credit for any course or successfully complete a course for which the department has paid a reimbursement, the student must pay for and successfully earn credit for or complete one (1) like course before the state department of education may pay any further reimbursements for the student. Repeated and remedial courses or examinations are not eligible for funding through these programs.

Public schools shall make reasonable efforts to ensure that any student who considers participating in the program also considers the challenges and time necessary to succeed in the program, and schools shall make reasonable efforts to include guidance on how the student's participation in the program contributes to prospective college and career pathways. Such efforts by the district shall be performed prior to a student participating in the program and throughout the student's involvement in the program.

(11) Policies and procedures for participating in the program established by the public school must be such that students have an opportunity to participate in the program and meet district-established timelines and requirements for financial transactions, transcribing credits and state department of education reporting. Participation in this program requires parent and student agreement to program requirements and completion of the state department of education's participation form documenting the program requirements.

(12) Parents of participating students may enroll their child in any eligible course, with or without the permission of the public school in which the student is enrolled. student is enrolled shall include the credits earned and grades received by
the student for any overload or dual credit courses taken pursuant to this
section. For an eligible course to be transcribed as meeting the require-

meet the approved content standards for the applicable subject and grade
level.
