

STATEMENT OF PURPOSE

RS27855 / S1379

The purpose of this legislation is to provide a practical method for using existing law enforcement and Idaho Transportation Department resources to inspect commercial vehicles for dyed fuel in specified circumstances. The proposal also defines and sets violations and civil penalties for violations under the act and provides specific exceptions to its applicability.

FISCAL NOTE

There should be no significant impact to the General Fund, as this proposal directs law enforcement and the Idaho Transportation Department to use existing resources for a visual inspection. There should be no new costs to local units of government, but it should result in a positive fiscal impact to the Highway Distribution Account.
