

## STATEMENT OF PURPOSE

RS28174 / H0174

This legislation would give school boards the flexibility to decide whether to engage in collective bargaining with a local education association. School boards would not be prohibited from entering into negotiations, but state law would not compel it either. The choice would rest with locally-elected school boards, instead of the state requiring it. School boards would be able to make the decision based on each districts' individual circumstances and the desires of the elected board and its constituents.

## FISCAL NOTE
