12 the state department of education. Payments will be made only for activity
13 occurring and reported within each fiscal year.

14 (7) For public funding purposes, average daily attendance shall be
15 counted as normal for students participating in dual credit courses pursuant

39 career pathways. Such efforts by the district shall be performed prior to a
40 student participating in the program and throughout the student's involve-
41 ment in the program.

42 (11) Policies and procedures for participating in the program estab-
43 lished by the public school must be such that students have an opportunity
44 to participate in the program and meet district-established timelines and
45 requirements for financial transactions, transcribing credits and state
46 department of education reporting. Participation in this program requires
47 parent and student agreement to program requirements and completion of the
48 state department of education's participation form documenting the program
49 requirements.

1 (12) Parents of participating students may enroll their child in any
2 eligible course, with or without the permission of the public school in which

9 section. For an eligible course to be transcribed as meeting the require-
10 ments of a core subject as identified in administrative rule, the course must

22 provisions of this chapter.
