

STATEMENT OF PURPOSE

RS28364 / S1067

This legislation makes numerous technical corrections to Idaho's election laws, including correcting an oversight by which school discontinuance elections, which are extremely rare, were left outside of elections consolidation. It also makes the county clerk the recipient of all but state recall petitions, eliminating the role of the city clerk.

FISCAL NOTE

In the rare event that a school discontinuance election is held, the cost of conducting the election would be borne by the county, rather than the school district. However, counties already receive state election consolidation funds each year to run elections for school districts, among others, and so any such costs have already been provided for.
