

REVISED

STATEMENT OF PURPOSE

RS28864 / S1193

This is an FY 2021 supplemental appropriation bill for the Office of the State Board of Education. It provides \$5,980,600 for an early childhood education grant. In January of 2021, the Office of the State Board of Education was notified that it was the recipient of a federal grant (for birth through five) to support the development of Idaho's early childhood care and education system. To administer this grant, the Office of the State Board will partner with the Idaho Association for the Education of Young Children (IDAEYC), a registered 501(c)(3) operating in Idaho. The State Board of Education will be the designated state agency to receive the federal grant and work closely with IDAEYC to ensure the grant is administered to meet the objectives identified in the needs assessment (conducted in 2020). The goal is to provide education resources for children ages birth through five - in multiple formats - and support locally controlled, high-quality, and family-focused programs and educators that support the optimal growth and development of young children. This bill also directs the use and oversight of the grant.

FISCAL NOTE

This bill provides an additional appropriation of 0.50 FTP and \$5,980,500 ongoing from Federal Funds and \$100 from the Miscellaneous Revenue Fund to the Office of the State Board of Education for FY 2021. No General Fund is included to be used for the purposes laid out in this appropriation. At the conclusion of the grant, local collaboratives are expected to be self-sustaining and will not receive a General Fund appropriation.
