Mr. Jared Tatro, Deputy Division Manager, LSO Budget & Policy Analysis, presented an overview of the Public Health Districts FY 2023 budget. The Public Health Districts have been receiving tobacco cessation funding since the inception of the Millennium Fund. The Public Health Districts are the lone state program that provides direct cessation services from the tobacco settlement funds. The Joint Legislative Millennium Fund Committee voted unanimously to have these funds retained with the Public Health Districts for continued cessation programming for those desiring to cease tobacco use; these monies will be placed in the Department of Health and Welfare’s Public Health appropriation, alongside other Millennium Funds. Mr. Tatro explained these monies have been appropriated under a different budget bill, so it is necessary to zero out this budget.

**MOTION:** Sen. Riggs made a motion, seconded by Rep. Amador, for FY 2023, for the Public Health Districts, the removal of $779,100 from dedicated funds as these monies have been transferred and included in the Department of Health and Welfare's Division of Public Health Services appropriation. This motion completes the move of appropriation for the Public Health Districts for FY 2023.

Sen. Ward-Engelking explained the Millennium Fund Committee felt it was important for these funds to stay with the Public Health Districts because those agencies offer one-on-one cessation services, which are not available anywhere else.

Rep. Nash requested and it was granted by unanimous consent, to accept the following intent language.
SECTION ___. EDUCATIONAL NEEDS. The Department of Health and Welfare shall be responsible for the educational needs of school-age children placed in its custody by the courts for either child protective issues or mental health issues. If the department places a child in a licensed residential treatment facility that includes a nonpublic accredited school and it is determined by the department that it is in the best interests of the child to be educated at the residential treatment facility, then it is the responsibility of the department to pay for such education per student, per educational day. Other Idaho state agencies shall not be precluded from exercising their responsibility to ensure a free and appropriate education for these students within the requirements of federal disability law. The fiscal impact of this section is included within existing department base appropriations.

SECTION ___. CHILD ABUSE PROTECTION TREATMENT ACT FUNDS. Of the amount appropriated in Section 1 of this act from the Cooperative Welfare (Federal) Fund, a minimum of $42,000 of federal Child Abuse Protection Treatment Act (CAPTA) funds appropriated to the Department of Health and Welfare shall be provided to the Public Health Districts each year. Funds for each public health district shall be distributed at one-seventh (1/7) of the total amount, which shall be used for the Citizen Review Panels pursuant to Section 16-1647, Idaho Code.

Ms. Randolph presented a FY 2022 supplemental request from the Division of Services for the Developmentally Disabled for the Southwest Idaho Treatment Center (SWITC) remodel. She explained the agency requests a total of $13,150,000 onetime from the General Fund. The amount will fund the following: $961,000 for the demolition of several existing buildings; $5,091,000 for a new Step-Down Unit; $5,902,000 for a new Observation and Assessment Unit; and $1,196,000 for a 10% contingency as is standard with large construction projects. The buildings to be demolished have not been used for several years and are beyond repair for habitation or office space. The new buildings will be new care settings which have been recommended by the SWITC Advisory Board and will replace the current Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID). The agency asserts that individuals with developmental disabilities and complex mental health needs are currently served in an improper treatment model and care setting which does not treat their complex needs.

The second budgeted program is the Southwest Idaho Treatment Center (SWITC), which provides specialized provider services to the most severely impacted clients in the state. SWITC serves only those clients with no other placement option due to severe behavioral or medical issues.

Amador, for FY 2023, for Services for the Developmentally Disabled, 303.71 FTP, $16,415,300 from the General Fund, $1,425,300 from dedicated funds, and $18,538,400 from federal funds, for a grand total of $36,379,000, which includes personnel benefit and replacements costs, change in employment compensation, nondiscretionary adjustments, and line items.

In response to a committee question, Ms. Randolph explained this appropriation funds the staffing for crisis beds. When a client is placed in a crisis bed, the State is unable to bill Medicaid for those services. The majority having voted in the affirmative, the motion has passed and without objection will carry a DO PASS recommendation. There being no objection, it was so ordered by Chairman Youngblood.

Ms. Randolph presented a FY 2022 supplemental request from Division of Medicaid for managed care provider enrollment. The Division of Medicaid requests a total of $2,294,300 to conform to CMS rules (CMS-2408- F), which requires states to enroll providers directly into the Medicaid Management Information System (MMIS). The Division of Medicaid contracts with managed care vendors to administer and pay for behavioral health, dental, vision, non-emergency medical transportation, and other services. The actual provider of the service is enrolled with the managed care vendor, but not always with the MMIS. This lack of connection causes a risk that managed care data will not match state provider data for federal reporting purposes. The agency asserts this funding is needed quickly to remove an administrative burden on Medicaid providers and to remain in compliance with the managed care regulatory framework.

MOTION: Sen. Cook made a motion, seconded by Rep. Amador, for FY 2022, for the Medicaid Administration and Medical Management Program, an additional $229,400 onetime from the Cooperative Welfare (General) Fund and $2,064,900 onetime from the Cooperative Welfare (Federal) Fund, for a grand total of $2,294,300.

The majority having voted in the affirmative, the motion has passed and without objection will carry a DO PASS recommendation. There being no objection, it was so ordered by Chairman Youngblood.

Ms. Randolph presented the Division of Medicaid FY 2023 budget. The Division of Medicaid contains five separate programs. The Medicaid Administration and Medical Management Program oversees and manages provider payments and includes the personnel costs for the division. Basic Medicaid serves mainly children and pregnant women in average health; Enhanced Medicaid serves those with complex medical needs. Coordinated Medicaid serves those over 65 years who are duly eligible for both Medicaid and Medicare. Expansion Medicaid serves those who make under 138% of the federal poverty limit.
MOTION: Rep. Amador made a motion, seconded by Sen. VanOrden, for FY 2023, for the Division of Medicaid, 213.00 FTP, $830,051,800 from the General Fund, $440,330,900 from dedicated funds, and $2,774,326,300 from federal funds, for a grand total of $4,044,709,000, which includes personnel benefit and replacement costs, change in employment compensation, nondiscretionary adjustments, and line items.

Rep. Amador stated several of the line items are related to KW lawsuit settlement, which requires a greater array of services to individuals with developmental disabilities. He also explained although this appropriation funds several provider rate increases with Covid-related dollars, pending legislation in S 1350 is intended to supplement the provider rate increases for the next several years.

SUBSTITUTE MOTION: Rep. Nate made a substitute motion, seconded by Rep. Giddings, for FY 2023, for the Division of Medicaid, 213.00 FTP, $825,835,100 from the General Fund, $434,030,900 from dedicated funds, and $2,586,754,200 from federal funds, for a grand total of $3,846,620,200, which includes personnel benefit and replacement costs, change in employment compensation, nondiscretionary adjustments, and line items.

Rep. Nate spoke to his motion. He asserted the federal government cannot sustain these programs and questioned the need for provider rate increases.

Rep. Nash compared the original and substitute motions. He stated the substitute motion only included provider rate enhancements required under a lawsuit settlement. He noted other line items zeroed out in the substitute motion are required by federal law; by not funding these items, the State is liable in future lawsuits. He further noted the provider rate enhancements help the state's rural hospitals stay in business, because the rural hospitals do not experience the same volume of patients as urban hospitals. He concluded by stating S 1350 provides rate increases to providers using federal funds instead of the General Fund, thus alleviating a burden to state taxpayers.

The majority having voted in the affirmative, the motion has passed and without objection will carry a DO PASS recommendation. There being no objection, it was so ordered by Chairman Youngblood.

Ms. Randolph explained the intent language necessary to approve for this motion/budget.
