**Chairman Youngblood** put the committee at ease at 8:39 a.m. to await the scheduled time for the public hearing of H 729.

**Chairman Youngblood** resumed the meeting at 9:30 a.m.

**Mr. Josh Whitworth**, Chief Deputy Controller, Office of the State Controller, explained modernizing the State's business information infrastructure will require a modern support structure to sustain the continuous information security and standards of the new systems. The intent of H 729 is to provide a funding structure that properly incentivizes state agencies to manage their use of support through a direct bill cost versus the current two-year lag of the statewide cost allocation plan (SWCAP).

This bill extends the deposit of money from the indirect cost recovery fund into the business information infrastructure fund (BIIF) for one additional year, until June 30, 2023. Additionally, this bill removes the sunset provision of the BIIF. The removal of the sunset provision provides the structure for the State Controller's Office (SCO) to move from a General Fund support organization to a dedicated fund, direct bill organization. The additional one year of funds will allow for the transition to a dedicated fund, fee-for-service model.
This bill is part of a multi-year plan to work with the Legislature and Governor to transition central services of the SCO to a shared-services, dedicated fund, fee-for-service model. During the transition, the SCO's ongoing need for monies from the General Fund will decrease as the fee-for-services dedicated fund recovers the cost for centralized services of the SCO. Full transition to the new billing structure is expected to begin FY 2026. After full transition, it is estimated to decrease the SCO's ongoing need for General Funds by approximately $85M.

Mr. Whitworth emphasized this funding is separate from implementation of Luma. H 729 begins the transition from the old billing model to the new billing model.

The House Appropriations Committee voted first, followed immediately by the Senate Finance Committee.

The majority having voted in the affirmative, the motion has passed and without objection will carry a DO PASS recommendation. There being no objection, it was so ordered by Chairman Youngblood.

ADJOURN: There being no further business to come before the committee, the meeting adjourned at 9:45 a.m.
