

REVISED

STATEMENT OF PURPOSE

RS30425 / S1130

The coronavirus and its vaccinations are relatively new medical developments, and the decision to receive such a vaccination is a very personal decision. Individuals should not be discriminated against because they have or have not received a coronavirus vaccination. This legislation establishes limitations on the ability of private and public entities to impose a requirement that individuals receive a coronavirus vaccination.

FISCAL NOTE

This is not anticipated to have any significant impact on the State General Fund as it does not impose requirements for new actions requiring expenditure of funds.
