

**Rules Governing  
Registrations and Licenses  
IDAPA 02.06.02**

**Andrea Thompson – Section Manager – Field Services**

*Attachment 2 - January 19, 2023*

# Registrations and Licenses

- **The rule is comprised of 5 registration/licensing subchapters that are important to:**
  - Commercial feed, fertilizer, and soil and plant amendment registrants who sell or distribute products in the state of Idaho
  - Nurseries and florists that require special services
  - Beekeepers maintaining hives, colonies, or apiaries within the state of Idaho

## Combination of Rules

- Combination of 5 Registration/Licensing Rules (2019)
  - All registration/licensing rules combined as sub-chapters
    - All the result of general registration and labeling requirements or licensing procedures
- IBR

# Negotiated Rulemaking Meetings

- Public meetings were conducted via video conference
- Strong, broad-based participation from stakeholders who engaged in meeting discussions
- No written comments or post-meeting feedback submitted to the rulemaking record
